

Thank you to our heroes for their extraordinary work!

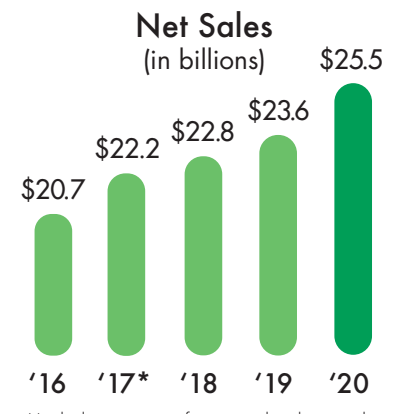

Dollar Tree, Inc. is a leading operator of discount variety stores that has served North America for more than thirty years. The Company operates more than 15,600 stores across the 48 contiguous states and five Canadian provinces, supported by a coast-to-coast logistics network and more than 200,000 associates. Dollar Tree is known for its “thrill-of-the-hunt” shopping experience where customers discover new treasures every week, priced at \$1. Family Dollar, known as “the neighborhood discount store,” provides customers with a quality, high-value assortment of basic necessities and seasonal merchandise, all generally priced at \$10 or less.

In 2020, the Company continued testing, modifying, and expanding its newest initiatives – Dollar Tree *Plus!*, which provides Dollar Tree customers with even greater deals at the \$3 and \$5 price points, and the Combination “Combo” Store format, bringing the best of both brands together under one roof in rural markets across the U.S. The Company continues to grow its store footprint and is also reaching new customers online at www.DollarTree.com, www.FamilyDollar.com, the Family Dollar mobile app and through Family Dollar’s new partnership with Instacart, providing customers with same-day delivery options.

“Each of our associates were heroes over the past year. The Company values their dedication to serving millions of households across North America who rely on our stores for great value and essentials in safe, close-to-home locations.”

To Our Valued Shareholders:

My hope is that each of you and your loved ones are safe and doing well. 2020 presented numerous unique challenges, not just to retail, but to the lives of millions in the communities we serve across North America. The tenacity, perseverance, and strength demonstrated by frontline workers – medical professionals, first responders, health agencies, scientists and researchers, assisted living staff and caretakers, education administrators and teachers, essential workers, and others – has been truly inspiring.

“Thank you to our heroes for their extraordinary work!”

My sincerest gratitude goes out to the Dollar Tree and Family Dollar heroes, our more than 200,000 associates, working in more than 15,600 stores and 26 distribution centers, as well as the support teams in the field and in the Store Support Center (SSC) in Chesapeake, Virginia. While fiscal 2020 had one of the most unpredictable and challenging business environments in my 40-year retail career, I am incredibly proud of each associate’s dedication to serving our shoppers in their critical times of need. I have had the pleasure of reading hundreds of customer letters regarding how our associates have gone “above and beyond” to serve their communities and neighbors. Their efforts contributed to our Company’s successes in 2020. As an essential retailer in the value segment, we have been, and will continue to be, “part of the solution” for millions of households seeking great value, in convenient and safe shopping locations. Thank you to our heroes for their extraordinary work!

Additionally, I would like to recognize the efforts of our business partners, both supply chain and suppliers, for their support of our stores throughout the year. As we continue to grow, so does our need and support from each of our business partners. We appreciate their partnership and look forward to many successful years ahead of us.

Year in Review

In 2020, we exceeded \$25 billion in annual sales for the first time in our Company’s history. The strategic initiatives that have been refined and proven, along with a streamlined execution plan led by our seasoned

leadership team, built a strong foundation to produce record results, including:

- Driving an enterprise same-store sales increase of 6.1%, on top of the prior year’s 1.8% increase;
- Growing gross profit by more than \$740.0 million, a 70 basis point improvement from the prior year, despite incurring \$36.3 million of COVID-related costs;
- Leveraging selling, general and administrative expenses by 140 basis points, despite incurring \$242.8 million in COVID-related costs;
- Improving enterprise operating profit margin to 7.4%, a 210 basis point improvement from fiscal 2019; and
- Delivering annual diluted earnings per share of \$5.65.

Along with a strong operating performance in 2020, our teams were extremely focused on the ongoing proactive and precautionary actions to help mitigate the effects of COVID-19. Since the onset of the pandemic, our associates have worked diligently to maintain safe and clean environments to help mitigate risks, while keeping store shelves stocked with essential products at great value in convenient, close-to-home locations. Our teams are focused on value, convenience, and safety and we will continue to be relentless in our efforts to help protect one another until this pandemic is behind us.

Dollar Tree

The Dollar Tree segment delivered its 15th consecutive year of same-store sales increases, with a positive 2.2% comp. In fact, the team has now delivered same-store sales increases in 51 of its last 52 quarters, with the first quarter of 2020 being the only exception due to the effects that the pandemic had on the brand’s Easter seasonal business.

“Our teams are focused on value, convenience, and safety.”

Building on the success of our craft department, we completed the rollout of Crafter’s Square® to all U.S. Dollar Tree stores in late fiscal 2020. Inspiring the creativity of

our customers is at the core of the Dollar Tree brand and we are thrilled to provide a broader assortment of art and craft supplies to our shoppers. With our \$1 price point and more than 7,500 U.S. store locations, Crafter's Square provides unlimited solutions for the "learn-from-home" and "work-from-home" environment. Additionally, terrific opportunities exist for DIY home projects and décor, crafts for the entire family, seasonal decorations, and handmade gifts.

Throughout the year, we continued to test, modify, and improve the Dollar Tree *Plus!* initiative and we are expanding the multi-price assortment to a total of 500 stores by August 2021. Dollar Tree *Plus!* exceeded our sales plan for the holiday season as we experienced great sell-through on seasonal products, toys, and household consumables. When multi-price items are included in the basket, the average transaction value is approximately twice the size. Additionally, we expect to benefit from buying synergies, since many of the \$3 and \$5 items will also now be offered at Family Dollar stores. We anticipate providing periodic updates on our progress with this exciting initiative.

Family Dollar

Our Family Dollar team delivered a 10.5% same-store sales increase and a 610 basis point improvement in operating margin in fiscal 2020.

Since consolidating our support teams into one SSC location and realigning our merchandising and operations leadership in 2019, we have enhanced and aligned communications, strategies, processes, workflows, and accountability, throughout the entire enterprise.

"The goal is to have various store formats that offer the best of the Dollar Tree and Family Dollar brands to serve customers in all types of geographic markets."

The progress we have made at Family Dollar in the past year has been remarkable. Our shoppers are responding to the new merchandise offerings and improved operational execution in our stores and we are seeing a considerable lift in our customer satisfaction survey scores highlighting four key categories: store cleanliness; product assortment; customer service; and

speed of check-out. Contributors to this success have been:

- The new and renovated H2 store format, where we see a same-store sales lift of greater than 10% in the first year (when compared to non-renovated stores);
- Improved merchandise offerings, including a larger variety of \$1 products;
- An enhanced brand standards program, which clearly conveys expectations to the store teams; and
- Family Dollar's lowest annual store manager turnover rate in a decade.

The improved customer satisfaction results give us confidence that we will be able to retain shoppers that have discovered, or re-engaged with, Family Dollar within the past year. I am confident that Family Dollar will exit the pandemic as a much stronger brand.

In late 2020, we announced our new national partnership with Instacart, providing customers with same-day delivery options from more than 6,000 Family Dollar stores. The initial results have exceeded our expectations and these transactions have a materially higher average ticket. We are focused on meeting the evolving needs of our Family Dollar customers and we believe the Instacart platform is enabling us to broaden the reach of our Family Dollar customer base.

We have also just begun testing the addition of fresh produce and frozen meats to select Family Dollar stores, geared toward markets where shoppers have fewer local grocery options. We want to provide these customers with convenient access to basic produce items, as well as beef, poultry, and pork.

Two Great Stores, One Big Deal!

Building on the success of the Family Dollar H2 store renovation program, we recently announced our newest, tested, and proven concept, the Combination (or Combo) Stores. These stores are more productive, produce higher gross margins, are better leveraging store costs, and, in aggregate, have delivered same-store sales lifts of greater than 20%.

The Combo Stores combine Family Dollar's great value and assortment with Dollar Tree's "thrill-of-the-hunt" and \$1 price point – creating a new store format targeting small towns and rural areas with populations ranging from 3,000 to 4,000 people. These are markets where we would traditionally not open a Dollar Tree store alone. Nearly 50 Combo Stores were open at the end of fiscal 2020, and we will continue to expand the store format

offering in 2021, with more than 3,000 markets identified for future growth. We are writing a bold new chapter for our business, with two great stores coming together under one roof, providing years of opportunity to grow across small-town America.

We are extremely pleased with our customers' response to the Combo Stores and we will continue to refine strategic store formats designed to serve more customers. The goal is to have various store formats that offer the best of the Dollar Tree and Family Dollar brands to serve customers in all types of geographic markets. Both the H2 format and Combo Stores will be part of the Family Dollar new store and renovation strategy moving forward.

Diversity, Equity, and Inclusion (DEI) Executive Council

Our organization has a cascading impact on all of the communities we serve, from our associates and their families, to vendors, suppliers, and the millions of households who rely on our convenient store locations to get the products they need at great value. With the support of our newly created DEI Executive Council, we are focused on embracing our differences, ensuring fair treatment, and providing equal access to opportunities and resources.

Our Company is firmly committed to creating a positive and professional work environment where all associates demonstrate courtesy, dignity, and respect for others. We are committed to fostering an inclusive environment where the individual differences among us are understood, respected, and appreciated as a valuable source to strengthen our Company. These principles are supported by our commitment to being an Equal Opportunity Employer with anti-harassment, non-discrimination, and non-retaliation policies.

Doing the right thing is fundamental to creating and sustaining an effective, organizational value system. Demonstrating ethical behavior towards our customers, communities, and each other is essential to our sustainability. Our Company is committed to equity and inclusion and we will not tolerate racism or discrimination in any form.

I stand in unity with our associates, and together, we can drive an inclusive culture that continuously strives for better and equal outcomes for every life we touch.

Commitment to Governance and Shareholder Value

We are committed to responsible corporate governance that delivers sustainable, long-term value to our

shareholders. Our Board, led by our Executive Chairman, Lead Independent Director, and Committee Chairpersons, is active and engaged in setting the strategic direction of our business.

We again achieved a "clean bill of health" in 2020 from our external auditors, with no material control weaknesses noted in the assessment, underscoring that our accounting and reporting processes are compliant with the intentions and requirements of Sarbanes-Oxley legislation.

We continue to generate free cash flow in excess of our investment needs, which we have used to pay down more than \$5 billion of debt and repurchase \$600 million in shares since completing the acquisition of the Family Dollar business in July 2015. The best use of capital, in our view, is to support the continued growth of our business at a sustainable pace.

"I stand in unity with our associates, and together, we can drive an inclusive culture that continually strives for better and equal outcomes for every life we touch."

Our Board values diversity, in its broadest sense, reflecting, but not limited to, geography, gender, ethnicity, and life experience and is committed to a policy of inclusiveness. The Board and our management team recognizes the importance of assessing, planning for, and disclosing the potential impact of environmental, social, and governance (ESG) risks to our business. The Board's Nominating, Governance and Sustainability Committee has the lead role in overseeing our risks and reporting related to ESG matters and sustainability, with the Compensation Committee having the lead role in Human Capital Management and DEI oversight. Among other initiatives, it has directed the creation of the following new corporate policies to provide enhanced ESG transparency and guidance to our stakeholders:

- Environmental Policy;
- Human Rights Policy;
- Health and Safety Policy;
- Code of Vendor Conduct; and
- Political Contribution and Expenditure Policy.

Additionally, it is our strong belief that safeguarding shareholder value requires that the Company carefully assess and address the risks inherent in our business. In particular, our Board and management recognize the importance of planning for the potential impact of climate change and other sustainability risks, and we are taking action to evaluate how our long-term business strategy may be adapted to address these potential challenges. We have recently issued an expanded Corporate Sustainability Report regarding our recent findings and identified opportunities.

**“I wish you and your family
good health and many
prosperous years to come.”**

We maintain an open dialogue with shareholders on governance-related practices, which reflect the input and best interests of our shareholders. We value honesty, integrity, and transparency in all aspects of our business and these values are reflected in the strength of our financial controls and in the relationships with our customers, vendor partners, associates, and especially our shareholders.

2021 and Beyond

I am extremely enthusiastic about our opportunities in 2021 and beyond, including innovative and traffic-driving initiatives, the expansion of Dollar Tree *Plus!* and the new Combo Stores opening in small towns and rural markets across America. It is truly an exciting time of growth for both our brands and we are building on the momentum following last year’s strong performance.

At the end of fiscal 2020, we had more than \$1.4 billion in cash on our balance sheet and we have \$2.4 billion remaining on our share repurchase authorization.

As communicated on our 2020 fourth quarter earnings conference call, we expect that capital expenditures for 2021 will total approximately \$1.2 billion and the majority of the excess cash flow may be dedicated to share repurchases. Our 2021 capital expenditures will focus on:

- 600 new stores and 1,250 Family Dollar renovations;
- Addition of frozen and refrigerated capability in select stores;
- I.T. systems enhancements and projects;
- Development of our Chesapeake, Virginia campus;
- Installation of LED lighting and efficient HVAC in select stores;
- Flooring replacements in select stores; and
- The ongoing construction of the 2nd phase of our new distribution center in Ocala, Florida.

I am incredibly proud of our talented teams’ accomplishments, commitment, dedication, and focus. We believe our proven strategic store formats, an accelerated store growth plan, planned store renovations, and several key sales- and traffic-driving initiatives, along with a robust balance sheet, will enable us to deliver long-term value for each of our stakeholders – customers, associates, suppliers, and shareholders.

I wish you and your family good health and many prosperous years to come. Thank you for your interest and continued support of Dollar Tree.

Stay safe and be well,

Michael A. Witynski
President and Chief Executive Officer

Cautionary Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K contains “forward-looking statements” as that term is used in the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the fact that they address future events, developments and results and do not relate strictly to historical facts. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. Forward-looking statements include, without limitation, statements preceded by, followed by or including words such as “believe,” “anticipate,” “expect,” “intend,” “plan,” “view,” “target” or “estimate,” “may,” “will,” “should,” “predict,” “possible,” “potential,” “continue,” “strategy,” and similar expressions. For example, our forward-looking statements include, without limitation, statements regarding:

- The potential effect of general business or economic conditions on our business, including the direct and indirect effects of the COVID-19 pandemic on the economy, consumer spending levels, and unemployment in our markets;
- The uncertainty of the impact of the COVID-19 pandemic and public health measures on our business and results of operations, including uncertainties surrounding possible disruptions in our supply chain or sources of supply, the physical and financial health of our customers, the effectiveness and duration of government assistance programs to individuals, households and businesses to support consumer spending, levels of foot traffic in our stores, changes in customer demand for our consumable and essential products as well as our discretionary products, and increased expenses for higher wages and bonuses paid to associates and the cost of personal protective equipment and additional cleaning supplies and protocols for the safety of our associates;
- Our expectations regarding cost increases in the future, including costs relating to our COVID-19 response initiatives, increases in the minimum wage by states and localities, potential federal minimum wage legislation, increases in shipping rates, domestic freight, other distribution costs, and fuel costs and potential new legal requirements to provide increased pay for associates who work during pandemic restrictions (“hero pay”) and a potential increase in the minimum salary for exempt store managers;
- The disruptions in shipping from China, particularly the shortages in shipping capacity resulting from container shortages, and the resulting delays in having merchandise from China delivered to our distribution centers when needed.
- Our growth plans, including our plans to add, renovate, re-banner, expand, remodel, relocate or close stores and any related costs or charges, our anticipated square footage increase, our leasing strategy for future expansion, and our ability to renew leases at existing store locations;
- Our anticipated sales, comparable store net sales, net sales growth, gross profit margin, costs of goods sold (including product mix), shrink rates, earnings and earnings growth, inventory levels, selling, general and administrative and other fixed costs, and our ability to leverage those costs;
- The expected and possible outcome, costs, and impact of pending or potential litigation, arbitrations, other legal proceedings or governmental investigations (including the proceeding by the Food and Drug Administration);
- The effect of our initiatives to renovate Family Dollar stores to the H2 store format and the performance of that format, the sales mix of consumable and higher margin merchandise in Dollar Tree and Family Dollar stores, including an increase in the number of stores with freezers and coolers and the roll-out of adult beverages, on our results of operations;
- Our plans relating to new store openings and new store concepts such as Dollar Tree *Plus!* and our Combination Store format;
- The impact of trade relations and the ongoing trade dispute between the United States and China, including the actual and potential effect of Section 301 tariffs on Chinese goods imposed by the United States Trade Representative, uncertainties surrounding the policies of the new presidential administration, and other potential impediments to imports;
- The reliability of, and cost associated with, our sources of supply, particularly imported goods such as those sourced from China and domestic goods which are in higher demand as a result of the COVID-19 pandemic;
- The effect of changes in labor laws, and the effect of the Fair Labor Standards Act as it relates to the qualification of our managers for exempt status, minimum wage and health care law;
- Our seasonal sales patterns and customer demand including those relating to the important holiday selling seasons and party merchandise;
- The average size and productivity of our stores, including those to be added in 2021 and beyond;
- Our cash needs, including our ability to fund our future capital expenditures, working capital requirements and repurchases

of common stock under our repurchase program, and our ability to service our debt obligations, including our expected annual interest expense;

- Our expectations regarding the construction of new distribution centers and the capabilities of our distribution center network;
- Our expectations regarding compliance with debt covenants and stock repurchases;
- Our expectations regarding competition and our potential for long-term growth;
- Our assessment of the impact on us of certain actions by activist shareholders and our potential responses to these actions;
- Our assessment of the materiality and impact on our business of recent accounting pronouncements adopted by the Financial Accounting Standards Board;
- Management’s estimates and expectations as they relate to income tax liabilities, deferred income taxes and uncertain tax positions; and
- Management’s estimates associated with our critical accounting policies, including inventory valuation, self-insurance liabilities and valuations for our goodwill and indefinite-lived intangible assets impairment analyses.

A forward-looking statement is neither a prediction nor a guarantee of future results, events or circumstances. You should not place undue reliance on forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K. Our forward-looking statements are all based on currently available operating, financial and business information. The outcome of the events described in these forward-looking statements is subject to a variety of factors, including, but not limited to, the risks and uncertainties discussed under [“Item 1A. Risk Factors,”](#) [“Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations”](#) and elsewhere in this Form 10-K.

We cannot assure you that the results, events and circumstances reflected in the forward-looking statements will be achieved or occur, and actual results, events or circumstances could differ materially from those described in the forward-looking statements. Moreover, new risks and uncertainties emerge from time to time and it is not possible for us to predict all risks and uncertainties that could have an impact on our forward-looking statements.

We do not undertake to publicly update or revise any forward-looking statements after the date of this Form 10-K, whether as a result of new information, future events, or otherwise.

Investors should also be aware that while we do, from time to time, communicate with securities analysts and others, it is against our policy to disclose to them any material, nonpublic information or other confidential commercial information. Accordingly, shareholders should not assume that we agree with any statement or report issued by any securities analyst regardless of the content of the statement or report. Furthermore, we have a policy against confirming projections, forecasts or opinions issued by others. Thus, to the extent that reports issued by securities analysts contain any projections, forecasts or opinions, such reports are not our responsibility.

Introductory Note

Unless otherwise stated, references to “we,” “our” and “us” generally refer to Dollar Tree, Inc. and its direct and indirect subsidiaries on a consolidated basis. Unless specifically indicated otherwise, any references to “2021” or “fiscal 2021,” “2020” or “fiscal 2020,” “2019” or “fiscal 2019,” and “2018” or “fiscal 2018,” relate to as of or for the years ended January 29, 2022, January 30, 2021, February 1, 2020 and February 2, 2019, respectively.

Available Information

Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 are available free of charge on our website at www.dollartree.com as soon as reasonably practicable after electronic filing of such reports with the Securities and Exchange Commission (“SEC”).

PART I

Item 1. Business

Overview

We are a leading operator of discount variety stores. We believe the convenience and value we offer are key factors in serving and growing our base of loyal customers. At January 30, 2021, we operated 15,685 discount variety retail stores. Our stores operate under the brand names of Dollar Tree, Family Dollar and Dollar Tree Canada.

We operate in two reporting business segments: Dollar Tree and Family Dollar. For discussion of the operating results of our reporting business segments, refer to [“Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations”](#) under the caption “Segment Information” and [Note 12](#) to our consolidated financial statements.

Impact of COVID-19

Beginning in fiscal 2020, our business was affected by the COVID-19 pandemic. As an essential business, our stores and distribution centers have remained open during the pandemic; however, our business trends and operations have been impacted in various ways. For example, we have experienced fewer customer visits and higher average ticket and the mix and profit margin of products purchased by our customers has differed from historical patterns. We have seen a shift in our customers’ purchases towards higher-margin discretionary products. We have also experienced changes in when our customers are shopping relative to the dates of seasonal holidays with spending occurring further in advance of the holidays than in previous years.

The future impact of COVID-19 on our customers is difficult to predict as the course of the pandemic, the effectiveness of health measures, and the impact of ongoing economic stabilization efforts is uncertain and government assistance payments may not provide enough funding to support current spending levels. The American Rescue Plan Act of 2021 (“Rescue Act”), which was enacted on March 11, 2021, provides U.S. government funding to address the continuing impact of COVID-19 on the economy, public health, individuals and businesses. Among other things, the Rescue Act provides for \$1,400 direct payments to individuals, continues supplemental unemployment benefits until September 2021, extends a prior increase in food stamp benefits, expands the child tax credit and earned income tax credit, provides for rent and utility assistance, and funds COVID-19 vaccinations, testing, treatment and prevention. An increase in the federal minimum wage was not included in the Rescue Act as enacted. During fiscal 2020, we paid wage premiums to our store and distribution center associates as well as “Thank You” bonuses to our store managers in recognition of their extraordinary efforts during the COVID-19 pandemic, which increased our costs. We currently do not anticipate paying these types of premiums and bonuses in fiscal 2021.

As a result of COVID-19, our supply chain has been strained and our suppliers have faced challenges in keeping up with the unprecedented demand for essential goods, as well as discretionary goods. Recently, the ocean-shipping industry has faced capacity issues resulting in higher costs and delays in the shipment of products from Asia. We continue to make operational changes in an attempt to minimize the impact of these challenges on our business; however, we do not know how long these disruptions will continue. For additional information regarding the impact of COVID-19 on our business, refer to the discussion in this Item 1. below and [“Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.”](#)

Dollar Tree

Our Dollar Tree segment is the leading operator of discount variety stores offering merchandise predominantly at the fixed price point of \$1.00. The Dollar Tree segment includes 7,805 stores operating under the Dollar Tree and Dollar Tree Canada brands, 15 distribution centers in the United States and two in Canada. Our stores predominantly range from 8,000 - 10,000 selling square feet. In our Dollar Tree stores in the United States, we sell items primarily for \$1.00 or less and in our Dollar Tree Canada stores, we sell items principally for \$1.25(CAD) or less. Our revenue and assets in Canada are not material. We are the owners of several trademarks including “Dollar Tree” and the “Dollar Tree” logo.

We strive to exceed our customers’ expectations of the variety and quality of products they can purchase for \$1.00 by offering items we believe typically sell for higher prices elsewhere. We buy approximately 60% to 62% of our merchandise domestically and import the remaining 38% to 40%. Our domestic purchases include basic, home, closeouts and promotional merchandise. We believe our mix of imported and domestic merchandise affords our buyers flexibility that allows them to consistently exceed our customers’ expectations. In addition, direct relationships with manufacturers permit us to select from a broad range of products and customize packaging, product sizes and package quantities that meet our customers’ needs.

We believe that our initiatives positively affect our comparable store net sales. In fiscal 2019, we introduced our Crafter’s Square initiative in more than 650 stores. This offering includes a new expanded assortment of arts and crafts supplies. During fiscal 2020, we expanded this program, completing the roll-out to all of our Dollar Tree stores. The Crafter’s Square assortment carries mark-ups which are higher than our average mark-up. Additionally, for more than a year, we have tested a multi-price initiative referred to as Dollar Tree *Plus!* Beginning in fiscal 2019, we began testing multi-price assortments in more than 100 stores in southwestern markets.

Based on learnings from the test, we made modifications to: the mix of products offered to include primarily discretionary items; the displays and signage to drive awareness and excitement to the stores; the price points to focus on the \$1, \$3 and \$5 price points; and increase the number of offerings above the \$1 price point. We plan to expand this initiative into a total of 500 stores beginning in the first quarter of fiscal 2021. We believe these initiatives have and will continue to enable us to increase sales and earnings.

We carry approximately 7,500 items in our Dollar Tree stores and as of the end of fiscal 2020 approximately 34% of our items are automatically replenished. The remaining items are pushed to the stores and a portion can be reordered by our store managers on a weekly basis. Through automatic replenishment and our store managers' ability to order product, each store manager is able to satisfy the demands of their particular customer base.

We maintain a balanced selection of products within traditional variety store categories. We offer a wide selection of everyday basic products and we supplement these basic, everyday items with seasonal, closeout and promotional merchandise. We attempt to keep certain basic consumable merchandise in our stores continuously to establish our stores as a destination and increase traffic in our stores. Closeout and promotional merchandise is purchased opportunistically and represents less than 10% of our purchases.

The merchandise mix in our Dollar Tree stores consists of:

- consumable merchandise, which includes everyday consumables such as household paper and chemicals, food, candy, health and personal care products, and in many stores, frozen and refrigerated food;
- variety merchandise, which includes toys, durable housewares, gifts, stationery, party goods, greeting cards, softlines, arts and crafts supplies and other items; and
- seasonal goods, which include, among others, Christmas, Easter, Halloween and Valentine's Day merchandise.

For information regarding the amounts and percentages of our net sales contributed by the above merchandise categories for the last three fiscal years, please refer to [Note 12](#) to our consolidated financial statements.

Family Dollar

Our Family Dollar segment operates general merchandise retail discount stores providing customers with a selection of competitively-priced merchandise in convenient neighborhood stores. Our stores predominantly range from 6,000 - 8,000 selling square feet. In our 7,880 Family Dollar stores, we sell merchandise at prices that generally range from \$1.00 to \$10.00. The Family Dollar segment consists of our store operations under the Family Dollar brand and 11 distribution centers. We are the owners of the trademarks "Family Dollar," "Family Dollar Stores" and other names and designs of certain merchandise sold in Family Dollar stores.

Our Family Dollar stores provide customers with a quality, high-value assortment of basic necessities and seasonal merchandise. We offer competitively-priced national brands from leading manufacturers alongside name brand equivalent-value, lower-priced private labels. We purchase merchandise from a wide variety of suppliers and generally have not experienced difficulty in obtaining adequate quantities of merchandise. In fiscal 2020, we purchased approximately 13% of our merchandise through our relationship with McLane Company, Inc., which distributes consumable merchandise from multiple manufacturers. In addition, approximately 16% of our merchandise is imported directly.

We are executing several initiatives in our Family Dollar stores to increase sales. During 2020, we entered into a partnership with Instacart to enable our customers to shop online and receive merchandise without having to visit a store. During 2019, we introduced a new model for both new and renovated Family Dollar stores internally known as H2. This H2 model has significantly improved merchandise offerings, including approximately 20 Dollar Tree \$1.00 merchandise sections and establishing a minimum number of freezer and cooler doors, throughout the store. H2 stores have higher customer traffic and provide an average comparable store net sales lift in excess of 10%, when compared to non-renovated stores, in the first year following renovation. H2 stores perform well in a variety of locations and especially in locations where our Family Dollar stores have been most challenged in the past. As of January 30, 2021, we have approximately 2,385 H2 stores. We plan to renovate at least 1,250 stores to this format in fiscal 2021 and also plan to build new stores in this format.

Building on the success of the H2 format, we have developed a Combination Store which leverages both the Dollar Tree and Family Dollar brands to serve small towns across the country. We are combining Family Dollar's great value and assortment with Dollar Tree's "thrill of the hunt" and fixed price point, creating a new strategic store format targeted for small towns and rural communities with populations of 3,000 to 4,000 residents.

While the number of items in a given store can vary based on the store's size, geographic location, merchandising initiatives and other factors, our typical Family Dollar store generally carries approximately 7,600 basic items alongside items that are ever-changing and seasonally-relevant throughout the year.

The merchandise mix in our Family Dollar stores consists of:

- consumable merchandise, which includes food and beverages, tobacco, health and personal care products, household chemicals, paper products, hardware and automotive supplies, diapers, batteries, and pet food and supplies;
- home products, which include housewares, home décor, giftware, and domestics, including comforters, sheets and towels;
- apparel and accessories merchandise, which includes clothing, fashion accessories and shoes; and
- seasonal and electronics merchandise, which includes Christmas, Easter, Halloween and Valentine’s Day merchandise, personal electronics, including pre-paid cellular phones and services, stationery and school supplies, and toys.

For information regarding the amounts and percentages of our net sales contributed by the above merchandise categories for the last three fiscal years, please refer to [Note 12](#) to our consolidated financial statements.

Business Strategy

Continue to execute our proven and best-in-class retail business strategy. We will continue to execute our proven strategies that have generated a history of success and continued growth for us. Key elements of our strategy include:

- aiming continuously to “Wow” the customer with a compelling, fun and fresh merchandise assortment comprising a variety of the things you want and things you need, all at incredible values in bright, clean and friendly stores;
- maintaining a flexible sourcing merchandise model that allows a variety of products to be sold as long as desired merchandise margin thresholds are met;
- growing and improving both the Dollar Tree and Family Dollar brands;
- pursuing a “more, better, faster” approach to the roll-out of new Dollar Tree and Family Dollar stores to broaden our geographic footprint;
- maintaining customer relevance by ensuring that we reinvent ourselves constantly through new merchandise categories and initiatives;
- leveraging the complementary merchandise expertise of each segment including Dollar Tree’s sourcing and product development expertise and Family Dollar’s consumer package goods and national brands sourcing expertise; and
- maintaining a prudent approach with our use of capital for the benefit of our shareholders.

Operate a diversified and complementary business model across both fixed-price and multi-price point strategies. We plan to operate and grow both the Dollar Tree and Family Dollar brands. We will utilize the reach and scale of our combined company to serve a broader range of customers in more ways, offering better prices and more value for the customer. At Dollar Tree, everything is predominantly \$1.00, offering the customer a balanced mix of things they need and things they want. Our shopping experience will remain fun and friendly as we exceed our customers’ expectations for what they can buy for \$1.00. As noted previously, we plan to expand our Dollar Tree *Plus!* initiative into a total of 500 stores beginning in the first quarter of fiscal 2021. Merchandise in these stores includes select items which retail for more than \$1.00 but not more than \$5.00 and maintain our customers’ expectations of extreme value. Dollar Tree serves a broad range of income customers in suburban locations. Family Dollar stores will continue to operate using multiple price points, serving customers as their “neighborhood discount store,” offering great values on everyday items and a convenient shopping experience. Family Dollar primarily serves a lower than average income customer in urban and rural locations. We expect to benefit from an expanded target customer profile and utilize the store concepts of both Dollar Tree and Family Dollar to serve a broader range of customer demographics to drive further improvements in sales and profitability.

Take advantage of significant white-space opportunity. Over the past decade we have built a solid and scalable infrastructure, which provides a strong foundation for our future growth. We are committed to growing our combined business to take advantage of significant market or white space opportunities that we believe exist for both the Dollar Tree and Family Dollar store concepts. Using our proven real estate strategy across our combined business, we intend to drive future store openings by capitalizing on data-driven insights regarding location, target customer profile, competitive dynamics and cost structure. Over the long-term, we believe that the market can support more than 10,000 Dollar Tree stores and 15,000 Family Dollar stores across the United States, and approximately 1,000 Dollar Tree stores in Canada.

Convenient Locations and Store Size. We focus primarily on opening new Dollar Tree stores in strip shopping centers anchored by large retailers who draw target customers we believe to be similar to ours. Our stores are successful in metropolitan areas, mid-sized cities and small towns. We open new Family Dollar stores in strip shopping centers, freestanding buildings and downtown buildings. The range of our new store sizes, 8,000 - 10,000 selling square feet for Dollar Tree and 7,000 - 10,000 selling square feet

for Family Dollar, allows us to target a particular location with a store that best suits that market and takes advantage of available real estate opportunities. Our stores are attractively designed and create an inviting atmosphere for shoppers by using bright lighting, vibrant colors and decorative signs. We enhance the store design with attractive merchandise displays. We believe this design attracts new and repeat customers and enhances our image as both a destination and impulse purchase store.

Profitable Stores with Strong Cash Flow. We maintain a disciplined, cost-sensitive approach to store site selection in order to minimize the initial capital investment required and maximize our potential to generate high operating margins and strong cash flows. We believe that our Dollar Tree stores and our urban Family Dollar stores have a relatively small shopping radius, which allows us to profitably concentrate multiple stores within a single market. In addition, our rural Family Dollar stores have a larger shopping radius, allowing us to profitably locate in these areas because of our ability to reach customers who live farther from our stores. Our ability to open new stores is dependent upon, among other factors, locating suitable sites and negotiating favorable lease terms.

The strong cash flows generated by our stores allow us to self-fund infrastructure investment and new stores. Typically, our cash flows from operating activities exceed our capital expenditures.

For more information on our results of operations, see [“Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.”](#)

Merchandising Cost Control. We believe that our substantial buying power and our flexibility in making sourcing decisions contributes to our successful purchasing strategy, which includes targeted merchandise margin goals by category. We also believe our ability to negotiate with our vendor partners allows us to minimize the margin impact of economic pressures such as tariffs. We buy products on an order-by-order basis and have no material long-term purchase contracts or other assurances of continued product supply or guaranteed product cost. Historically, no vendor has accounted for more than 10% of total merchandise purchased by us.

Our supply chain systems continue to provide us with valuable sales information to assist our buyers and improve merchandise allocation to our stores. We use this information to target our inventory levels in our distribution centers and stores in order to plan for capacity and labor needs.

Information Systems. We believe that investments in technology help us to increase sales and control costs. Our inventory management system provides information to calculate our estimate of inventory cost under the retail inventory method, which is widely used in the retail industry. Our automated replenishment system replenishes key items, based on actual store-level sales and inventory.

Point-of-sale data allows us to track sales and inventory by merchandise category at the store level and assists us in planning for future purchases of inventory. We believe that this information allows us to ship the appropriate product to stores at the quantities commensurate with selling patterns. Using this point-of-sale data to plan purchases has helped us manage our inventory levels.

Corporate Culture and Values. We believe that honesty and integrity, and treating people fairly and with respect are core values within our corporate culture. We believe that running a business, and certainly a public company, carries with it a responsibility to be above reproach when making operational and financial decisions. Our executive management team visits and shops at our stores like every customer, and ideas and individual creativity on the part of our associates are encouraged, particularly from our store managers who know their stores and their customers. We have standards for store displays, merchandise presentation, and store operations. We maintain an open door policy for all associates. Our distribution centers are operated based on objective measures of performance and virtually everyone in our store support centers is available to assist associates in our stores and distribution centers.

During 2020, we launched an enterprise Executive Diversity Council comprised of diverse leaders from every department within the company who are charged with creating a diversity, equity and inclusion (“DEI”) strategy which is linked with our business goals, catalyzing cultural change throughout the organization and driving accountability at the senior management level for progress on key DEI objectives.

Our disclosure committee meets at least quarterly and monitors our internal controls over financial reporting to ensure that our public filings contain discussions about the potential risks our business faces. We believe that we have appropriate controls in place to be able to certify our financial statements. Additionally, we have complied with the listing requirements for the Nasdaq Global Select Market.

Seasonality. For information on the impact of seasonality, see [“Item 1A. Risk Factors”](#) and [“Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.”](#)

Growth Strategy

Store Openings, Relocations and Square Footage Growth. The primary factors contributing to our net sales growth have been new store openings and an active store relocation, expansion and remodel program. In the last five years, net sales increased at a compound annual growth rate of 5.3%. During this time, our store count and approximate selling square footage increased from

13,851 and 108.4 million square feet at January 30, 2016 to 15,685 and 125.1 million square feet at January 30, 2021. We expect that the majority of our future sales growth will come from new store openings in our Dollar Tree and Family Dollar segments and our store expansion and relocation program as well as our renovation initiatives.

Our growth and productivity statistics are reported based on selling square footage because our management believes the use of selling square footage yields a more accurate measure of store productivity. We expect to increase the selling square footage in our stores in the future by opening new stores in underserved markets and strategically increasing our presence in our existing markets via new store openings and store expansions (expansions include store relocations). In fiscal 2021 and beyond, we plan to predominantly open Dollar Tree stores that are approximately 8,000 - 10,000 selling square feet and Family Dollar stores that are approximately 7,000 - 10,000 selling square feet. We believe these store sizes allow us to achieve our objectives in the markets in which we plan to expand.

In addition to new store openings, we plan to continue our Dollar Tree and Family Dollar store relocation and expansion program to increase our net sales per store and take advantage of market opportunities. We target stores for expansion based on the current sales per selling square foot and changes in market opportunities. Stores targeted for expansion are generally less than 7,000 selling square feet in size. Store expansions generally increase the existing store size by approximately 2,500 selling square feet. At January 30, 2021, 6,591 of our Dollar Tree stores, totaling approximately 88% of our Dollar Tree segment selling square footage, were 7,000 selling square feet or larger.

Since 1995, we have added a total of 695 stores through several mergers and acquisitions, excluding our acquisition of Family Dollar. Historically, our acquisition strategy has been to target companies that have a similar single price point concept that have shown success in operations or companies that provide a strategic advantage. We evaluate potential acquisition opportunities as they become available. In 2015, we completed our acquisition of Family Dollar which allowed us to create a diversified company with complementary business models.

From time to time, we also acquire the rights to store leases through bankruptcy or other proceedings. We will continue to take advantage of these opportunities as they arise depending upon several factors including their fit within our location and selling square footage size parameters.

Merchandising and Distribution. Expanding our customer base is important to our growth plans. We plan to continue to stock our stores with a compelling mix of ever-changing merchandise that our customers have come to appreciate. Consumable merchandise typically leads to more frequent return trips to our stores resulting in increased sales. The presentation and display of merchandise in our stores are critical to communicating value to our customers and creating a more exciting shopping experience. We believe our approach to visual merchandising results in higher sales volume and an environment that encourages impulse purchases. We leverage our merchandising team to source products that can be sold in both Dollar Tree and Family Dollar stores. Our Family Dollar H2 stores include \$1.00 sections of Dollar Tree merchandise and our Dollar Tree *Plus!* stores sell items at the \$1.00, \$3.00 and \$5.00 price points.

A strong and efficient distribution network is critical to our ability to grow and to maintain a low-cost operating structure. In fiscal 2020, we completed construction of our Rosenberg, Texas automated distribution center, which is 1.2 million square feet and currently serves stores in our Dollar Tree segment. Additionally, in fiscal 2020, we completed construction of a 0.5 million square foot distribution center in Ocala, Florida and we began shipping product from this facility during the third quarter of fiscal 2020. We expect to complete an expansion of the Ocala, Florida distribution center in 2023. New distribution sites are strategically located to reduce stem miles, maintain flexibility and improve efficiency in our store service areas.

We currently operate 26 distribution centers in the United States, 15 of which are primarily dedicated to serving our Dollar Tree stores and 11 distribution centers primarily serve our Family Dollar stores. Our St. George, Utah distribution center, which is a legacy Family Dollar facility, services both Dollar Tree and Family Dollar stores and we expect future distribution centers to be built with the capability to service both Dollar Tree and Family Dollar stores.

Our distribution network supports multiple store formats including H2, Combination Stores and Dollar Tree *Plus!* We ship to our H2 format stores from our Family Dollar distribution centers and we ship to our Dollar Tree *Plus!* format stores from our Dollar Tree distribution centers. We ship to our Combination Stores from both Dollar Tree and Family Dollar distribution centers. We believe our distribution center network is currently capable of supporting approximately \$30.2 billion in annual sales in the United States. We also are party to an agreement which provides distribution services from two facilities in Canada.

Our Dollar Tree stores receive approximately 90% of their inventory from our distribution centers via contract carriers and our Family Dollar stores receive approximately 74% of their inventory from our distribution centers. The remaining store inventory, primarily perishable consumable items and other vendor-maintained display items, are delivered directly to our stores from vendors. Our Family Dollar stores receive approximately 13% of their merchandise from McLane Company, Inc. For more information on our distribution center network, see [“Item 2. Properties.”](#)

Competition

Our segment of the retail industry is fragmented and highly competitive and we expect competition to increase in the future. We operate in the discount retail sector, which is currently and is expected to continue to be highly competitive with respect to price, store location, merchandise quality, assortment and presentation, and customer service, including merchandise delivery and checkout options. Our competitors include single-price dollar stores, multi-price dollar stores, mass merchandisers, on-line retailers, discount retailers, drug stores, convenience stores, independently-operated discount stores, grocery stores and a wide variety of other retailers. In addition, several competitors have sections within their stores devoted to “one dollar” price point merchandise, which further increases competition. We believe we differentiate ourselves from other retailers by providing high-value, high-quality, low-cost merchandise in attractively-designed stores that are conveniently located. Our sales and profits could be reduced by increases in competition. There are no significant economic barriers for others to enter our retail sector.

Government Regulation

We are subject to a wide variety of local, state and federal laws and regulations within the United States and Canada. Compliance with these laws and regulations often requires the dedication of our associates’ time and attention, as well as financial resources. In fiscal 2020, compliance with these laws and regulations did not have a material effect on our capital expenditures, earnings or competitive position.

Human Capital Resources

Our business success is built upon our dedicated, passionate and diverse associates who work and live in the communities we serve. Our associates share our corporate values, “Attitude, Judgment, and Commitment.” We recruit and hire in these communities using local job fairs, social media as well as local community service partners to provide part-time and full-time jobs that can become lasting careers. Our Human Resources team, with oversight from our Board of Directors and their Committees, develops and executes programs for compensation and benefits, onboarding and training, professional development, performance management, retention and succession planning. We strive to create and maintain a safe working environment for our associates. We consider our relationship with our associates to be good, and have not experienced significant interruptions of operations due to labor disagreements. We greatly value our people and invest in their personal well-being and professional growth through various human capital programs and initiatives, including the following:

- **Compensation and benefits:** We are committed to providing market-competitive pay for all positions and we are a pay-for-performance organization, offering performance-based compensation opportunities at nearly all levels of the organization, including hourly-paid positions. We strive to ensure gender and racial pay equity for employees performing equal or substantially similar work. Full-time associates can participate in our Retirement Savings Plan, which provides a dollar for dollar match on the first 5% of employee contributions and all associates can participate in our Employee Stock Purchase Plan. All full-time and part-time associates are eligible for competitive health and welfare benefits, including medical, dental, vision, disability, life insurance and other benefits.
- **Health, wellness and family resources:** In addition to making health and welfare benefits available to our associates, we also support our associates and members of their household through our Employee Assistance Program, which includes financial and legal services, as well as expert counsel in areas such as parenting, family issues and resilience skills. We offer primary caregiver and parental leave to support our associates while they are starting or growing their families and we have a program that provides financial support to associates recovering from natural disasters and personal hardships. To support our associates with high school-aged children, we recently launched a scholarship program to provide access to financial support in their pursuit of higher education.
- **Talent development:** We believe in the growth and development of our associates and provide a multitude of professional and leadership development experiences, including online and instructor-led trainings that enable associates to consume relevant learning content for their current role and future career growth. To remove barriers to education, we recently launched an education assistance program that provides tuition reimbursement, as well as discounted tuition at over 200 colleges and universities for our associates and their families. Our associates also receive personalized coaching and advisement on degree programs that meet their needs. Retention of our associates is a focus for all leaders and we continue to strive to improve our turnover rate. We monitor associate turnover as we know our success depends on retaining and engaging talent in all areas of the business. To identify high-potential talent, leadership assesses talent at the store manager level and above on a regular basis through structured talent reviews and succession planning paired with customized development plans. This focus on talent has resulted in more than 35,600 promotions in 2020.
- **Diversity, equity and inclusion:** We believe our associates should mirror our diverse customer base and the communities we serve. In 2020, we launched an enterprise Executive Diversity Council comprised of diverse leaders from every department within the company who are charged with creating a DEI strategy which is linked with our business goals, catalyzing cultural change throughout the organization and driving accountability at the senior management level for

progress on key DEI objectives.

As of January 30, 2021, we employed more than 199,300 associates, as follows:

	Store and Distribution Center Associates		Store Support Center Associates	Total
	Dollar Tree	Family Dollar		
Full-time Associates	27,952	29,862	2,403	60,217
Part-time Associates	97,913	41,184	13	139,110
Total	125,865	71,046	2,416	199,327

Part-time associates work an average of less than 30 hours per week and the number of part-time associates fluctuates depending on seasonal needs.

COVID-19 Response. We implemented several changes to protect our associates and our customers in response to the COVID-19 pandemic and to ensure adherence to Centers for Disease Control and Prevention (CDC) recommendations. We provided personal protective equipment including masks, gloves and sanitizers for our store and distribution center associates, installed plexiglass sneeze guards at all store registers and enabled the majority of our store support center teams to work remotely. We provided wage premiums for store and distribution center hourly associates, provided minimum guaranteed sales bonuses for store managers and pay continuation for associates who tested positive for COVID-19. For additional information on the steps taken to support our associates in response to the COVID-19 pandemic, refer to [“Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.”](#)

Item 1A. Risk Factors

An investment in our common stock involves a high degree of risk. Any failure to meet market expectations, including our comparable store sales growth rate, earnings and earnings per share or new store openings, could cause the market price of our stock to decline. You should carefully consider the specific risk factors listed below together with all other information included or incorporated in this report and other filings that we make from time to time with the SEC, including our consolidated financial statements and accompanying notes. However, the risks and uncertainties that we face are not limited to those described below and those set forth in our SEC filings. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also arise. In such event, our business, financial condition, results of operations or prospects could be materially adversely affected.

Profitability and Operational Risks

Our profitability is vulnerable to cost increases.

Future increases in costs such as wage and benefit costs, ocean shipping rates, domestic freight costs, fuel and energy costs, the cost of merchandise, duties and tariffs, merchandise loss (due to theft, damage, or errors) and store occupancy costs would reduce our profitability. Without respect to COVID-19-related premium pay, we expect material increases in wage rates and labor costs as well as in shipping rates, freight and fuel costs in 2021. Certain states and localities have passed laws to increase the minimum wage beginning in 2021 and are considering “hero pay”, i.e., laws that would require increasing the pay of certain associates if we remain open when certain pandemic restrictions are implemented. In addition, the U.S. Congress is considering whether to pass national minimum wage increases in 2021, and the current administration may consider raising the minimum salary for store managers who have exempt status under the Fair Labor Standards Act. Separately, government or industry actions addressing the impact of climate change may result in increases in merchandise or operating costs.

In our Dollar Tree segment, we do not raise the sales price of our merchandise to offset cost increases because we are committed to selling primarily at the \$1.00 price point to continue to provide value to the customer. We are dependent on our ability to adjust our product assortment, to operate more efficiently or to increase our comparable store net sales in order to offset cost increases. We can give no assurance that we will be able to operate more efficiently or increase our comparable store net sales in the future. Although Family Dollar, unlike Dollar Tree, can raise the price of merchandise, customers may buy fewer products if prices were to increase. Please see “[Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations](#)” for further discussion of the effect of economic factors on our operations.

If the COVID-19 pandemic worsens or continues longer than expected, there could be a material adverse impact on our business and results of operations.

In March 2020, the World Health Organization declared a pandemic arising from a novel strain of coronavirus and its related disease, known as COVID-19. Nations and governments at every level responded with significant actions to attempt to mitigate the public health crisis and the impact of the pandemic on the economy. The continuing COVID-19 pandemic and related public health measures have caused economic disruptions that have adversely affected, and are expected to continue to adversely affect, elements of our business. We have, however, been classified as an essential business and been allowed to remain open but our operational costs have increased significantly because of COVID-19. To date, sales at Family Dollar have increased during the pandemic. However, sales at Dollar Tree have been adversely affected, especially in our party departments and for Easter in 2020 and, as a result of fewer customer trips, in certain consumable departments such as snacks and candy.

There continues to be uncertainty and unpredictability about the impact of the COVID-19 pandemic on our financial and operating results in future periods. If the pandemic worsens or continues longer than expected, governments may reinstate or extend business or personal restrictions, and we could be forced to curtail or restrict operations or incur additional costs. Certain states and localities are considering laws that would require increasing the pay of store associates if we remain open when certain COVID-19 restrictions are implemented. We might also experience new disruptions in our supply chain and sources of supply, suffer facility closures or encounter difficulties in hiring or retaining the workforce required for our business. These circumstances, if applicable for an extended duration or across significant parts of our operating footprint, could have a material adverse effect on our business and results of operations.

The COVID-19 pandemic and public health measures have already contributed to, among other things:

- Increases in the cost of operating our stores and distribution centers, including temporarily higher wages and bonuses paid to associates, enhanced cleaning protocols and the cost of personal protection equipment.
- Disruptions in the patterns of consumer demand, which has led to, among other things, decreased demand for party merchandise and, during 2020, Easter merchandise in the Dollar Tree segment, an increase in consumer demand for household cleaning and other essential supplies and corresponding difficulty in our ability to maintain those items in stock,

fluctuations in demand for discretionary products, and an increase in demand for online sales (which is an insignificant part of our business) and home (which we recently began providing in the Family Dollar segment) or curbside deliveries (which we do not offer).

- Decreasing foot traffic in our stores as a result of the promotion of social distancing, the adoption of various governmental restrictions on personal and business activities and changing consumer attitudes with respect to in-person shopping and changes in shopping patterns.

Reduced consumer demand for holiday, seasonal, party, and other discretionary products that generally carry a higher margin may have a negative impact on our gross profit margin, especially in the later part of the year when they typically form a larger part of our merchandise mix. It is uncertain what effect the COVID-19 pandemic will have on holiday merchandise sales in the future. Also, other sales have decreased in the past, and may decrease in the future when COVID-19 infection rates spike.

Our business and results of operations could be materially harmed if we experience a decline in consumer confidence and spending as a result of continued unfavorable economic conditions, for example because government assistance to households and businesses terminate or are reduced.

Governmental authorities have adopted substantial measures, including fiscal and monetary stimulus, to provide economic assistance to individual households and businesses and support economic stability during the COVID-19 pandemic and the related recession and increase in unemployment. We believe the economic intervention that occurred in fiscal 2020 benefited our sales. While the enactment of the American Rescue Plan Act of 2021 on March 11, 2021 is expected to provide additional economic assistance to individual households and businesses, there can be no assurance that current or future governmental efforts to support the economy during the pandemic will be sufficient to mitigate the negative effect of the pandemic on the economy. If consumer spending on the goods we sell declines as a result, there could be a material adverse impact on our business and results of operations.

We are unable to predict the full extent to which the COVID-19 pandemic will affect the economy and our customers, associates, suppliers, vendors, other business partners or our business, results of operations and financial condition. If the economic consequences of the pandemic are prolonged and/or worsen, it could amplify many of the other risks described in this Form 10-K.

We may continue to encounter higher costs and disruptions in our distribution network.

Our success is dependent on our ability to import or transport merchandise to our distribution centers and then truck merchandise to our stores in a timely and cost-effective manner. We rely heavily on third parties including ocean shippers and truckers in that process. We may not anticipate, respond to or control all of the challenges of operating our distribution network. Additionally, when a shipping or trucking line fails to deliver on its commitments or our distribution centers fail to operate effectively, we could experience increased freight costs or merchandise shortages that could lead to lost sales. We are experiencing ocean shipping disruptions, trucking shortages, increased ocean shipping rates and increased trucking and fuel costs. In the last several years, we have incurred higher distribution costs due to a variety of factors. Some of the factors that could have an adverse effect on our distribution network or costs in 2021 are:

- *Shipping disruptions.* There is currently a shortage of shipping containers in China and other parts of Asia, and as a result we are experiencing significant delays in importing our goods. We are also experiencing issues with port congestion. Our shipping schedules and shipping capacity may be further disrupted or delayed as a result of these or other factors. Although these delays have not yet impacted our sales and we believe we are adequately stocked with merchandise for Easter, the delays could potentially have a material adverse impact on our sales after Easter, especially at Dollar Tree, if the delays do not improve. The global COVID-19 pandemic is also expected to continue to present a risk to trans-Pacific shipping in 2021 and may affect shipping from China, where we buy a significant portion of our merchandise. Our supply chain may be disrupted as a result of the pandemic as well as other international events such as war or acts of terrorism.
- *Shipping costs.* We are experiencing increases in shipping rates from the trans-Pacific ocean carriers. We are currently projecting approximately \$80.0 to \$100.0 million of additional costs in fiscal 2021 as a result of higher shipping and domestic freight costs. Changes in import duties, import quotas and other trade sanctions could also increase our costs.
- *Efficient operations and management.* Distribution centers and other aspects of our distribution network are difficult to operate efficiently, and we have and could experience a reduction in operating efficiency as a result of high turnover and challenges in maintaining a stable workforce, especially if the COVID-19 crisis continues.
- *Diesel fuel costs.* We have experienced volatility in diesel fuel costs over the past few years and are expecting increases this year.
- *Trucking costs.* We have experienced significant increases in trucking costs in recent years due to the truck driver shortage and other factors, and our trucking costs are expected to increase in the future.

- *Vulnerability to natural or man-made disasters, including climate change.* A fire, explosion or natural disaster at a port or any of our distribution facilities could result in a loss of merchandise and impair our ability to adequately stock our stores. Some facilities are vulnerable to earthquakes, hurricanes, tornadoes or floods, and an increase in the severity and frequency of extreme weather events may increase our operating costs or disrupt our supply chain.
- *Labor disagreement.* Labor disagreements, disruptions or strikes, for example at ports, may result in delays in the delivery of merchandise to our distribution centers or stores and increase costs.
- *McLane Company, Inc.* In fiscal 2020, we purchased and delivered approximately 13% of our merchandise for our Family Dollar segment through our relationship with McLane Company, Inc., which distributes consumable merchandise from multiple manufacturers. A disruption in our relationship with McLane Company, Inc. could have a significant near-term impact on our operations.

Risks associated with our domestic and foreign suppliers, including tariffs or restrictions on trade or disruptions arising from the COVID-19 pandemic, could adversely affect our financial performance.

We are dependent on our vendors to supply merchandise in a timely and efficient manner. If a vendor fails to deliver on its commitments due to financial or other difficulties, we could experience merchandise shortages which could lead to lost sales or increased merchandise costs if alternative sources must be used.

We rely on the availability of imported goods at favorable wholesale prices. Merchandise imported directly accounts for approximately 38% to 40% of our Dollar Tree segment's total retail value purchases and 15% to 17% of our Family Dollar segment's total retail value purchases. In addition, we believe that a significant portion of our goods purchased from domestic vendors is imported. Imported goods are generally less expensive than domestic goods and increase our profit margins. A disruption in the flow of our imported merchandise or an increase in the cost of those goods may significantly decrease our profits. Risks associated with our reliance on imported goods may include disruptions in the flow of or increases in the cost of imported goods because of factors such as:

- duties, tariffs or other restrictions on trade, including Section 301 tariffs that have already been imposed on imported Chinese goods, and it is unclear whether the current presidential administration will support rolling back these tariffs. We are currently expecting the amount of Section 301 tariffs we pay in 2021 to increase above 2020 levels because the amount of our imports is expected to increase and we expect to pay tariffs on products which were temporarily excluded from tariffs during 2020;
- raw material shortages, work stoppages, government travel restrictions, strikes and political unrest, including any impact on vendors or shipping arising from epidemics and related travel restrictions, such as the recent COVID-19 pandemic;
- economic crises and international disputes or conflicts;
- changes in currency exchange rates or policies and local economic conditions, including inflation (including energy prices and raw material costs) in the country of origin;
- potential changes to, or withdrawal of the United States from, international trade agreements or the failure of the United States to maintain normal trade relations with China and other countries;
- changes in leadership and the political climate in countries from which we import products and their relations with the United States; and
- failure of manufacturers outside the United States to meet food, drug and cosmetic safety and labeling requirements or environmental standards set by government regulators or consumer expectations.

See "[Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations](#)" for further discussion of the effect of foreign suppliers on our operations.

Our supply chain may be disrupted by changes in United States trade policy with China.

We rely on domestic and foreign suppliers to provide us with merchandise in a timely manner and at favorable prices. Among our foreign suppliers, China is the source of a substantial majority of our imports. A disruption in the flow of our imported merchandise from China or an increase in the cost of those goods may significantly decrease our profits.

The United States has scaled back punitive Section 301 tariffs on certain Chinese imports based on an agreement reached with China in 2020. However, there is uncertainty as to the actions that may be taken under the current presidential administration with respect to U.S. trade policy with China, including whether the administration will support reductions in tariffs. The imposition of any new U.S. tariffs on Chinese imports or the taking of other actions against China in the future, and any responses by China, could

impair our ability to meet customer demand and could result in lost sales or an increase in our cost of merchandise, which would have a material adverse impact on our business and results of operations.

Our growth is dependent on our ability to increase sales in existing stores and to expand our square footage profitably.

Existing store sales growth is critical to good operating results and is dependent on a variety of factors including merchandise quality, relevance and availability, store operations and customer satisfaction. In addition, increased competition could adversely affect our sales. Failure to meet our sales targets, including in our renovated stores, could result in our needing to record material non-cash impairment charges related to our intangible assets. We believe improving sales at Family Dollar depends in significant part on the success of the H2 renovations and other new store concepts.

Our highest sales periods are during the Christmas and Easter seasons, and we generally realize a disproportionate amount of our net sales and our operating and net income during the fourth quarter. In anticipation, we stock extra inventory and hire many temporary employees to prepare our stores. A reduction in sales during these periods could adversely affect our operating results, particularly operating and net income, to a greater extent than if a reduction occurred at other times of the year. Untimely merchandise delays due to receiving or distribution problems could have a similar effect.

When Easter is observed earlier in the year, the selling season is shorter and, as a result, our sales could be adversely affected. Easter was observed on April 12, 2020 and will be observed on April 4, 2021.

Expanding our square footage profitably depends on a number of uncertainties, including our ability to locate, lease, build out and open or expand stores in suitable locations on a timely basis under favorable economic terms. Obtaining an increasing number of profitable stores is an ever-increasing challenge. In addition, our expansion is dependent upon third-party developers' abilities to acquire land, obtain financing, and secure necessary permits and approvals. We also open or expand stores within our established geographic markets, where new or expanded stores may draw sales away from our existing stores. We may not manage our expansion effectively, and our failure to achieve our expansion plans could materially and adversely affect our business, financial condition and results of operations.

Our profitability is affected by the mix of products we sell.

Our gross profit margin decreases when we increase the proportion of higher cost goods we sell. Imported merchandise is generally lower cost than domestic goods. Our supply of goods, including imported goods, could be negatively impacted by the COVID-19 pandemic. In recent years, the percentage of our sales from higher cost consumable products has increased, and we can give no assurance that this trend will not continue.

In our Family Dollar segment, our success also depends on our ability to select and obtain sufficient quantities of relevant merchandise at prices that allow us to sell such merchandise at profitable and appropriate prices. A sales price that is too high causes products to be less attractive to our customers and our sales at Family Dollar could suffer. We are continuing to refine our pricing strategy at Family Dollar to drive customer loyalty and have a strategic pricing team to improve our value and to increase profitability. Inability to successfully implement our pricing strategies at Family Dollar could have a negative effect on our business.

In addition, our Family Dollar segment has a substantial number of private brand items and the number of items has been increasing. We believe our success in maintaining broad market acceptance of our private brands depends on many factors, including our pricing, costs, quality and customer perception. We may not achieve or maintain our expected sales for our private brands and, as a result, our business and results of operations could be adversely impacted. Additionally, the increased number of private brands could negatively impact our existing relationships with our non-private brand suppliers.

We may stop selling or recall certain products for safety-related issues.

We may stop selling or recall certain products produced by certain manufacturers for safety-related issues, including product contamination, product content such as lead, spoilage or other adulteration, improper manufacturing processes, improper testing, product mislabeling or product tampering. For example, we may stop selling or recall products if the products or operations of our suppliers violate applicable laws or regulations, including food, drug and cosmetic safety laws, or when our suppliers' products cause injury, illness or death. In addition, our marketing of adulterated products could subject us to claims of false or deceptive advertising or other criticism. A significant product liability or other legal judgment against us, a related regulatory enforcement action or a widespread product recall could materially and adversely affect our reputation and results of operations. Moreover, even if a product liability, consumer fraud or other claim is unsuccessful, has no merit or is not pursued, the negative publicity surrounding assertions against the products we sell could materially and adversely affect our business, reputation and profitability.

Pressure from competitors may reduce our sales and profits.

The retail industry is highly competitive. The marketplace is highly fragmented as many different retailers compete for market share by utilizing a variety of store formats and merchandising strategies, including mobile and online shopping. We expect

competition to increase in the future. There are no significant economic barriers for others to enter our retail sector. Some of our current or potential competitors have greater financial resources than we do. We cannot guarantee that we will continue to be able to compete successfully against existing or future competitors or that doing so will not require substantial capital expenditures. Please see “[Item 1. Business](#)” for further discussion of the effect of competition on our operations.

A downturn or adverse change in economic conditions could impact our sales or profitability.

A deterioration in economic conditions, whether related to the COVID-19 pandemic or otherwise, could reduce consumer spending or cause customers to shift their spending to products we either do not sell or do not sell as profitably. Adverse economic conditions could disrupt consumer spending and significantly reduce our sales, decrease our inventory turnover, cause greater markdowns or reduce our profitability due to lower margins. Other factors that could result in or exacerbate adverse economic conditions include a prolonged or deep recession, inflation, higher unemployment, consumer debt levels, trade disputes, as well as adverse climate or weather conditions, epidemics, terrorism or international conflict.

Furthermore, factors that could adversely affect consumer disposable income could decrease our customers’ spending on products we sell. Factors that could reduce our customers’ disposable income and over which we exercise no influence include but are not limited to, the pandemic and other adverse economic conditions described above as well as increases in fuel or other energy costs and interest rates, lack of available credit, higher tax rates and other changes in tax laws, increasing healthcare costs, and changes in, decreases in, or elimination of, government subsidies such as unemployment and food assistance programs.

Many of the factors identified above that affect disposable income, as well as commodity rates, transportation costs (including the costs of diesel fuel), costs of labor, insurance and healthcare, foreign exchange rate fluctuations, lease costs, barriers or increased costs associated with international trade and other economic factors also affect our ability to implement our corporate strategy effectively, our cost of goods sold and our selling, general and administrative expenses, and may have other adverse consequences which we are unable to fully anticipate or control, all of which may adversely affect our sales or profitability. We have limited or no ability to control many of these factors.

Our business could be adversely affected if we fail to attract and retain qualified associates and key personnel.

Our growth and performance is dependent on the skills, experience and contributions of our associates, executives and key personnel for both Dollar Tree and Family Dollar. Various factors, including the ongoing pandemic, integration of our segments, constraints on overall labor availability, wage rates, regulatory or legislative impacts, and benefit costs could impact our ability to attract and retain qualified associates at our stores, distribution centers and corporate offices.

Risks Relating to Strategic Initiatives

We may not be successful in implementing important strategic initiatives, which may have an adverse impact on our business and financial results.

We have adopted important strategic initiatives that are designed to create growth, improve our results of operations and drive long-term shareholder value, including:

- our plans relating to new store openings for Dollar Tree and Family Dollar;
- the continued integration of the operations of Family Dollar with Dollar Tree;
- the renovation of Family Dollar stores to the H2 format;
- the testing and implementation of a multi-price initiative in Dollar Tree stores referred to as Dollar Tree *Plus!*;
- the introduction of selected Dollar Tree merchandise into Family Dollar stores; and
- the testing and roll-out of a new store format that combines a Dollar Tree store and Family Dollar store in a single location.

The implementation of these strategic initiatives are subject to various risks and uncertainties, including consumer acceptance of new store concepts and merchandise offerings, construction and permitting delays relating to new and renovated stores, the success of our integration strategies, the availability of desirable real estate locations for lease at reasonable rates, the impact of the COVID-19 pandemic and other factors beyond our control. In addition, several of these initiatives depend on the continued success of our integration of Family Dollar merchandising, supply chain and operations with those of Dollar Tree. There can be no assurance that we will be able to implement important strategic initiatives in accordance with our expectations or that they will generate expected returns, which may result in an adverse impact on our business and financial results.

We could incur losses due to impairment of long-lived assets, goodwill and intangible assets.

Under U.S. generally accepted accounting principles, we review our long-lived assets for impairment whenever economic events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Identifiable intangible assets with an indefinite useful life, including goodwill, are not amortized but are evaluated annually for impairment. A more frequent evaluation is performed if events or circumstances indicate that impairment could have occurred.

In fiscal 2019 and 2018, we recorded a \$313.0 million and a \$2.73 billion non-cash pre-tax and after-tax goodwill impairment charge, respectively, related to our Family Dollar reporting unit. These impairments were a result of business challenges including slower sales growth, higher freight, shrink and store labor costs. Should we experience similar business challenges or significant negative industry or general economic trends, we could recognize additional impairments to our goodwill, intangible assets and other long-lived assets. We monitor key assumptions and other factors utilized in our goodwill impairment analysis, and if business or other market conditions develop that are materially different than we currently anticipate, we will conduct an additional impairment evaluation. Any reduction in or impairment of the value of goodwill or intangible assets will result in a charge against earnings, which could have a material adverse impact on our reported results of operations and financial condition. For additional information on goodwill impairments please refer to [Note 3](#) to our consolidated financial statements.

Cybersecurity and Technology Risks

We rely on computer and technology systems in our operations, and any material failure, inadequacy, interruption or security failure of those systems including because of a cyber-attack could harm our ability to effectively operate and grow our business and could adversely affect our financial results.

We rely extensively on our computer and technology systems and, in certain cases, those of third-party service providers to manage inventory, process credit card and customer transactions and summarize results. Our ability to effectively manage our business and coordinate the distribution and sale of our merchandise depends significantly on the confidentiality, integrity and availability of these systems and on our ability to successfully integrate the Dollar Tree and Family Dollar systems. We also rely on third-party providers and platforms for some of these computer and technology systems and support.

Although we have operational safeguards in place, they may not be effective in preventing the failure of these systems or platforms to operate effectively and be available to us. This may be as the result of deliberate breach in the security of these systems or platforms by bad actors, including through malicious software, ransomware and other cyber-attacks. Failures may also be caused by various other factors, including power outages, catastrophic events, physical theft, computer and network failures, inadequate or ineffective redundancy, problems with transitioning to upgraded or replacement systems or platforms, flaws in third-party software or services, errors or improper use by our employees or third party service providers.

If these systems are damaged or fail to function properly, we may incur substantial costs to repair or replace them, may experience loss of critical data and interruptions or delays in our ability to manage inventories or process customer transactions and may receive negative publicity, which could adversely affect our results of operations and business. In addition, remediation of any problems with our systems could take an extensive amount of time and could result in significant, unplanned expenses.

The potential unauthorized access to customer information may violate privacy laws and could damage our business reputation, subject us to negative publicity, litigation and costs, and adversely affect our results of operations or business.

Many of our information technology systems, such as those we use for our point-of-sale, web and mobile platforms, including online and mobile payment systems, and for administrative functions, including human resources, payroll, accounting, and internal and external communications, contain personal, financial or other confidential information that is entrusted to us by our customers and associates as well as proprietary and other confidential information related to our business and suppliers.

We have procedures and technology in place to safeguard our customers' personal information (including debit and credit card information), our associates' private data, suppliers' data, and our business records and intellectual property and other sensitive information. Despite these measures, we have experienced attempted and ongoing cyber-attacks, which are rapidly evolving. Perpetrators, who may include well-funded state actors, are becoming increasingly sophisticated and difficult to detect. We and/or our third party suppliers may be vulnerable to, and unable to anticipate, detect and appropriately respond to such cyber-security attacks, including data security breaches and data loss.

We are subject to laws and regulations in various jurisdictions in which we operate regarding privacy, data protection and data security, including those related to the collection, storage, handling, use, disclosure, transfer and security of personal data. For example, the California Consumer Privacy Act ("CCPA"), which became effective on January 1, 2020, imposes responsibilities on us for the handling, disclosure and deletion of personal information for consumers who reside in California. The CCPA permits California to assess potentially significant fines for violating CCPA and creates a right for individuals to bring class action suits seeking damages for violations. Our efforts to comply with CCPA and other privacy and data protection laws may impose significant

costs and challenges that are likely to increase over time, and we could incur substantial penalties or be subject to litigation related to violation of existing or future data privacy laws and regulations.

Likewise, we are subject to the Payment Card Industry Data Security Standards (“PCI-DSS”) which is mandated by the card brands and administered through the Payment Card industry Security Standards Council. Failure to meet requirements and maintain compliance could result in a loss of credibility or reputation and our inability to continue to accept credit cards as a tender type materially impacting our ability to sell our products. There exists the potential to have recurring and accumulating fines levied against us as a result of not meeting compliance until compliance is achieved. Considerable investments to strengthen our information security could also be required should we ever be deemed to be non-compliant. As a Level 1 Merchant, we are subject to assessment and attestation for PCI-DSS compliance on an annual basis.

In addition, our reputation within the business community and with our customers may be affected, which could result in our customers discontinuing the use of debit or credit cards in our stores or not shopping in our stores altogether.

Moreover, significant capital investments and other expenditures could also be required to remedy cyber-security problems and prevent future security breaches, including costs associated with additional security technologies, personnel, experts and services (e.g., credit-monitoring services) for those whose data has been breached. These costs, which could be material, could adversely impact our results of operations in the period in which they are incurred and may not meaningfully limit the success of future attempts to breach our information technology systems.

The unavailability of our information technology systems or the failure of those systems or software to perform as anticipated for any reason and any inability to respond to, or recover from, such an event, could disrupt our business, decrease performance and increase overhead costs. If we are unable to secure our customers’ credit card and confidential information, or other private data relating to our associates, suppliers or our business, we could be subject to negative publicity, costly government enforcement actions or private litigation and increased costs. Any of these factors could have a material adverse effect on our results of operations or business.

Legal and Regulatory Risks

Litigation and arbitration may adversely affect our business, financial condition and results of operations.

Our business is subject to the risk of litigation and arbitration involving employees, consumers, suppliers, competitors, shareholders, government agencies, or others through private actions, class actions, governmental investigations, administrative proceedings, regulatory actions, mass arbitration or other similar actions. Our products could also cause illness or injury, harm our reputation, and subject us to litigation. We are dependent on our vendors to ensure that the products we buy comply with all applicable safety standards. However, product liability, personal injury or other claims may be asserted against us relating to product contamination, product tampering, mislabeling, recall and other safety issues with respect to the products that we sell. We seek but may not be successful in obtaining contractual indemnification and insurance coverage from our vendors, and if we do not have adequate contractual indemnification or insurance available, such product liability or safety claims could adversely affect our business, financial condition and results of operations. Our ability to obtain the benefit of contractual indemnification from foreign vendors may be hindered by our ability to enforce contractual indemnification obligations against such vendors. Our litigation-related expenses could increase as well, which also could have a materially negative impact on our results of operations even if a product liability claim is unsuccessful or is not fully pursued.

The outcome of such matters is difficult to assess or quantify. Plaintiffs in these types of lawsuits or proceedings may seek recovery of very large or indeterminate amounts, and the magnitude of the potential loss may remain unknown for substantial periods of time. In addition, certain of these matters, if decided adversely to us or settled by us, may result in an expense that may be material to our financial statements as a whole or may negatively affect our operating results if changes to our business operations are required. The cost to defend current and future litigation or proceedings, including arbitrations, may be significant. There also may be adverse publicity associated with litigation, including litigation related to product or food safety, customer information and environmental or safety requirements, which could negatively affect customer perception of our business, regardless of whether the allegations are valid or whether we are ultimately found liable.

For a discussion of current legal matters, please see “[Item 3. Legal Proceedings](#)” and [Note 5](#) to our consolidated financial statements under the caption “Contingencies.” Resolution of these matters, if decided against us, could have a material adverse effect on our results of operations, accrued liabilities or cash flows.

Changes in laws and government regulations, or our failure to adequately estimate the impact of such changes, could increase our expenses, expose us to legal risks or otherwise adversely affect us.

Our business is subject to a wide array of laws and regulations, and changes to those laws and regulations could have an adverse effect on our business. In 2021, the new presidential administration and Congress are expected to have public policy positions and

legislative priorities that are significantly different than the positions and priorities of the prior presidential administration including, among other things, such matters as climate change and sustainability, wage and labor laws, health care, tax policy and less focus on deregulation. The possible enactment of new environmental laws and regulations and potential new carbon taxes or energy efficiency standards could increase our costs. In addition, certain states and local governments have passed laws to increase the minimum wage beginning in 2021, and the minimum wage may increase nationally depending on the outcome of future legislation proposed in Congress.

Significant legislative changes in laws or regulations that impact our relationship with our workforce, such as minimum wage increases, “hero pay,” health care, labor laws or workplace safety, could increase our expenses and adversely affect our operations. Changes in other regulatory areas, such as consumer credit, privacy and information security, product and food safety, energy or environmental protection, among others, could cause our expenses to increase or product recalls. In addition, if we fail to comply with applicable laws and regulations, including wage and hour laws, we could be subject to legal risk, including government enforcement action and class action civil litigation, which could adversely affect our results of operations.

Risks Relating to Indebtedness

Our substantial indebtedness could adversely affect our financial condition, limit our ability to obtain additional financing, restrict our operations and make us more vulnerable to economic downturns and competitive pressures.

As of January 30, 2021, our total indebtedness is \$3.25 billion. In addition, we have \$1.25 billion of additional borrowing availability under our revolving credit facility, less amounts outstanding for letters of credit totaling \$98.7 million.

Our level of debt could have significant consequences, including the following:

- limiting our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions or other general corporate purposes;
- requiring a substantial portion of our cash flows to be dedicated to debt service payments, instead of other purposes, thereby reducing the amount of cash flows available for working capital, capital expenditures, acquisitions and other general corporate purposes;
- limiting our ability to refinance our indebtedness on terms acceptable to us or at all;
- imposing restrictive covenants on our operations;
- placing us at a competitive disadvantage to competitors carrying less debt; and
- making us more vulnerable to economic downturns and limiting our ability to withstand competitive pressures.

In addition, our credit ratings impact the cost and availability of future borrowings and, accordingly, our cost of capital. Our ratings reflect the opinions of the ratings agencies of our financial strength, operating performance and ability to meet our debt obligations. There can be no assurance that we will achieve a particular rating or maintain a particular rating in the future.

The terms of the agreements governing our indebtedness may restrict our current and future operations and could adversely affect our capital resources, financial condition and liquidity.

The agreements that govern our indebtedness contain a number of restrictive covenants that impose significant operating and financial restrictions on us and may limit our ability to engage in acts that may be in our long-term best interests. In addition, certain of these agreements require us to comply with certain financial maintenance covenants. Our ability to satisfy these financial maintenance covenants can be affected by events beyond our control, and we cannot assure you that we will meet them.

A breach of the covenants under these agreements could result in an event of default under the applicable indebtedness, which, if not cured or waived, could result in us having to repay our borrowings before their due dates. Such default may allow the debt holders to accelerate the related debt and may result in the acceleration of any other debt to which a cross-acceleration or cross-default provision applies. If we are forced to refinance these borrowings on less favorable terms or if we were to experience difficulty in refinancing the debt prior to maturity, our results of operations or financial condition could be materially affected. In addition, an event of default under our credit facilities may permit the lenders under our credit facilities to terminate all commitments to extend further credit under such credit facilities. In the event our lenders or holders of notes accelerate the repayment of such borrowings, we cannot assure you that we will have sufficient assets to repay such indebtedness.

As a result of these restrictions, we may be:

- limited in how we conduct our business;

- unable to raise additional debt or equity financing to operate during general economic or business downturns; or
- unable to compete effectively, take advantage of new business opportunities or grow in accordance with our plans.

Risks Relating to Our Common Stock

Our business or the value of our common stock could be negatively affected as a result of actions by activist shareholders.

We value constructive input from investors and regularly engage in dialogue with our shareholders regarding strategy and performance. The Board of Directors and management team are committed to acting in the best interests of all of our shareholders. There is no assurance that the actions taken by the Board of Directors and management in seeking to maintain constructive engagement with our shareholders will be successful. Activist shareholders who disagree with our strategy or the way we are managed have sought to effect change, and may seek to effect change in the future, through various strategies that range from private engagement to publicity campaigns, proxy contests, efforts to force transactions not supported by the Board of Directors and litigation.

Responding to these actions may be costly and time-consuming, disrupt our operations, divert the attention of our Board of Directors, management and employees, and interfere with our ability to execute our strategic plan and attract and retain qualified executive leadership. A contested election, for example, could also require us to incur substantial legal and public relations fees and proxy solicitation expenses. The perceived uncertainty as to our future direction resulting from activist strategies could also affect the market price and volatility of our common stock.

The price of our common stock is subject to market and other conditions and may be volatile.

The market price of our common stock may fluctuate significantly in response to a number of factors. These factors, some of which may be beyond our control, include the perceived prospects and actual results of operations of our business; changes in estimates of our results of operations by analysts, investors or us; trading activity by our large shareholders; trading activity by sophisticated algorithms (high-frequency trading); our actual results of operations relative to estimates or expectations; actions or announcements by us or our competitors; litigation and judicial decisions; legislative or regulatory actions or changes; and changes in general economic or market conditions. In addition, the stock market in general has from time to time experienced extreme price and volume fluctuations. These market fluctuations could reduce the market price of our common stock for reasons unrelated to our operating performance.

Certain provisions in our Articles of Incorporation and By-Laws could delay or discourage a change of control transaction that may be in a shareholder's best interest.

Our Articles of Incorporation and By-Laws currently contain provisions that may delay or discourage a takeover attempt that a shareholder might consider in his/her best interest. These provisions, among other things:

- provide that only the Board of Directors, the chairman of the Board or the chief executive officer may call special meetings of the shareholders;
- establish certain advance notice procedures for nominations of candidates for election as directors and for shareholder proposals to be considered at shareholders' meetings; and
- permit the Board of Directors, without further action of the shareholders, to issue and fix the terms of preferred stock, which may have rights senior to those of the common stock.

However, we believe that these provisions allow our Board of Directors to negotiate a higher price in the event of a takeover attempt which would be in the best interest of our shareholders.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

As of January 30, 2021, we operated 15,455 stores across the contiguous United States and the District of Columbia and operated 230 stores within five Canadian provinces.

The Dollar Tree segment includes 7,805 stores operating under the Dollar Tree and Dollar Tree Canada brands with stores predominantly ranging from 8,000 - 10,000 selling square feet. The Family Dollar segment includes 7,880 stores operating under the Family Dollar brand with stores predominantly ranging from 6,000 - 8,000 selling square feet. For additional information on store counts and square footage by segment for the years ended January 30, 2021 and February 1, 2020, see “[Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations](#)” under the caption “Overview.”

We lease the vast majority of our stores and expect to lease the majority of our new stores as we expand. Our leases typically provide for a short initial lease term, generally five years, with options to extend; however, in some cases we have initial lease terms of seven to fifteen years. We believe this leasing strategy enhances our flexibility to pursue various expansion opportunities resulting from changing market conditions. As current leases expire, we believe that we will be able to obtain lease renewals, if desired, for present store locations, or to obtain leases for equivalent or better locations in the same general area.

Our network of distribution centers is strategically located throughout the United States to support our stores. As of January 30, 2021, we operated 26 distribution centers occupying a total of 24.0 million square feet, 15 of which are primarily dedicated to serving our Dollar Tree stores and 11 distribution centers primarily serve our Family Dollar stores. Our St. George, Utah distribution center services both Family Dollar and Dollar Tree stores and we expect future distribution centers to be built with the capability to service both Dollar Tree and Family Dollar stores. Our distribution network supports multiple store formats including H2, Combination Stores and Dollar Tree *Plus!* We ship to our H2 format stores from our Family Dollar distribution centers and we ship to our Dollar Tree *Plus!* format stores from our Dollar Tree distribution centers. We ship to our Combination Stores from both Dollar Tree and Family Dollar distribution centers. We believe our distribution center network is currently capable of supporting approximately \$30.2 billion in annual sales in the United States. Except for 0.4 million square feet of our distribution center in San Bernardino, California, all of our distribution center capacity is owned.

Each of our distribution centers contains advanced materials handling technologies, including radio-frequency inventory tracking equipment and specialized information systems. With the exception of four of our facilities, each of our distribution centers in the United States also contains automated conveyor and sorting systems.

Distribution services in Canada are provided by a third party from facilities in British Columbia and Ontario.

During fiscal 2019, we consolidated our Matthews, North Carolina store support center with our store support center in Chesapeake, Virginia, which is located in an approximately 0.5 million square foot office tower that we own in the Summit Pointe development in Chesapeake, Virginia. We are also developing additional parcels on our Summit Pointe property for mixed-use purposes and began leasing some portions during 2020.

For more information on financing of our new and expanded stores, distribution centers and the Summit Pointe development activities, see “[Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations](#)” under the caption “Funding Requirements.”

Item 3. Legal Proceedings

From time to time, we are defendants in ordinary, routine litigation or proceedings incidental to our business, including allegations regarding:

- employment-related matters;
- infringement of intellectual property rights;
- personal injury/wrongful death claims;
- real estate matters;
- environmental and safety issues; and
- product safety matters, which may include regulatory matters.

In addition, we are currently defendants in national and state proceedings described in [Note 5](#) to our consolidated financial statements under the caption “Contingencies.”

We will vigorously defend ourselves in these matters. We do not believe that any of these matters will, individually or in the aggregate, have a material effect on our business or financial condition. We cannot give assurance, however, that one or more of these matters will not have a material effect on our results of operations for the period or year in which they are reserved or resolved. Based on the information available, including the amount of time remaining before trial, the results of discovery and the judgment of internal and external counsel, we may be unable to express an opinion as to the outcome of those matters which are not close to being resolved and may be unable to estimate a loss or potential range of loss.

Item 4. Mine Safety Disclosures

None.

PART II**Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

Our common stock is traded on **The Nasdaq Global Select Market®** under the symbol “DLTR.” As of March 10, 2021, we had 2,288 shareholders of record.

Issuer Purchases of Equity Securities

The following table presents our share repurchase activity during the fourth quarter of 2020:

Fiscal Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs (in millions)
November 1, 2020 - November 28, 2020	—	\$ —	—	\$ 600.0
November 29, 2020 - January 2, 2021	896,698	109.23	896,698	502.1
January 3, 2021 - January 30, 2021	931,476	109.56	931,476	400.0
Total	1,828,174	\$ 109.40	1,828,174	\$ 400.0

During fiscal 2020 and 2019, we repurchased 3,982,478 and 1,967,355 shares of common stock, respectively, on the open market at a total cost of \$400.0 million and \$200.0 million, respectively. We did not repurchase any shares of common stock in fiscal 2018.

As of January 30, 2021, we had \$400.0 million remaining under the Board repurchase authorization. Subsequently, on March 2, 2021, the Board increased the share repurchase authorization by \$2.0 billion resulting in a total share repurchase authorization of \$2.4 billion. The repurchase authorization does not have an expiration date.

Stockholder Matters

We anticipate that substantially all of our cash flow from operations in the foreseeable future will be retained for the development and expansion of our business, the repayment of indebtedness and, as authorized by our Board of Directors, the repurchase of stock. We do not anticipate paying cash dividends on our common stock in the foreseeable future.

Stock Performance Graph

The following graph sets forth the yearly percentage change in the cumulative total shareholder return on our common stock during the five fiscal years ended January 30, 2021, compared with the cumulative total returns of the S&P 500 Index and the S&P Retailing Index. The comparison assumes that \$100 was invested in our common stock on January 30, 2016, and, in each of the foregoing indices on January 30, 2016, and that dividends were reinvested. The stock price performance shown in the graph is not necessarily indicative of future price performance.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among Dollar Tree, Inc., the S&P 500 Index, and S&P Retailing Index

*\$100 invested on 1/30/16 in stock or 1/31/16 index, including reinvestment of dividends. Indexes calculated on month-end basis.

Item 6. Selected Financial Data

The following table presents a summary of our selected financial data for the fiscal years ended January 30, 2021, February 1, 2020, February 2, 2019, February 3, 2018, and January 28, 2017. Fiscal 2017 included 53 weeks, commensurate with the retail calendar, while all other fiscal years reported in the table contain 52 weeks. The selected statement of operations and balance sheet data have been derived from our consolidated financial statements that have been audited by our independent registered public accounting firm. This information should be read in conjunction with the consolidated financial statements and related notes, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial information found elsewhere in this report.

Our net sales are derived from the sale of merchandise. Two major factors tend to affect our net sales trends. First is our success at opening new stores. Second is the performance of stores once they are open. Sales vary at our existing stores from one year to the next. We refer to this as a change in comparable store net sales, because we include only those stores that are open throughout both of the periods being compared, beginning after the first fifteen months of operation. We include sales from stores expanded or remodeled during the year in the calculation of comparable store net sales, which has the effect of increasing our comparable store net sales. The term ‘expanded’ also includes stores that are relocated. Stores that have been re-bannered are considered to be new stores and are not included in the calculation of the comparable store net sales change until after the first fifteen months of operation under the new brand. We report our comparable store net sales on a constant currency basis. Constant currency basis refers to the calculation excluding the impact of currency exchange rate fluctuations. We calculated the constant currency basis increase by translating the current year’s comparable store net sales in Canada using the prior year’s currency exchange rates. We believe that the constant currency basis provides a more accurate measure of comparable store net sales performance.

Both our Dollar Tree stores and our acquired Family Dollar stores are included in the comparable store net sales calculation for the years ended February 3, 2018 and forward. For all prior years, only our Dollar Tree stores are included in the comparable store net sales calculation.

Net sales per selling square foot is calculated based on total net sales for the reporting period divided by the average selling square footage during the period. Selling square footage excludes the storage, receiving and office space that generally occupies approximately 20% of the total square footage of our stores. We believe that net sales per selling square foot more accurately depicts the productivity and operating performance of our stores as it isolates that portion of our footprint that is dedicated to selling merchandise. Net sales per store and net sales per selling square foot are calculated for stores open throughout the period presented.

In the fourth quarter of 2019 and 2018, we recorded non-cash pre-tax and after-tax goodwill impairment charges related to our Family Dollar reporting unit of \$313.0 million and \$2.73 billion, respectively. These impairment charges are reflected in “Selling, general and administrative expenses” in the accompanying consolidated statements of operations for the years ended February 1, 2020 and February 2, 2019. As a result of these goodwill impairment charges, diluted earnings per share decreased by \$1.31 and \$11.46 per share for the years ended February 1, 2020 and February 2, 2019, respectively. For additional information regarding the impairment of the Family Dollar goodwill, refer to [Note 3](#) to our consolidated financial statements.

As a result of the enactment of the Tax Cuts and Jobs Act (“TCJA”) in 2017, net income and diluted net income per share for the year ended February 3, 2018 increased by \$583.7 million and \$2.45 per share, respectively.

Amounts in the following tables are in millions, except per share data, number of stores data, net sales per selling square foot data and inventory turns.

	Year Ended

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

This section of Form 10-K generally discusses 2020 and 2019 events and results and year-to-year comparisons between 2020 and 2019. Discussions of 2018 items and year-to-year comparisons between 2019 and 2018 that are not included in this Form 10-K can be found in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended February 1, 2020.

In Management’s Discussion and Analysis, we explain the general financial condition and the results of operations for our company, including, factors that affect our business, analysis of annual changes in certain line items in the consolidated financial statements, performance of each of our operating segments, expenditures incurred for capital projects and sources of funding for future expenditures. As you read Management’s Discussion and Analysis, please refer to our consolidated financial statements and related notes, included in “[Item 8. Financial Statements and Supplementary Data](#)” of this Form 10-K.

Key Events and Recent Developments

Several key events have had or are expected to have a significant effect on our operations. They are listed below:

- **Impact of COVID-19**

The COVID-19 pandemic has materially affected, and likely will continue to affect, our financial condition and results of operations for the foreseeable future. As you review the Management’s Discussion and Analysis of Financial Condition and Results of Operations, please keep in mind the following.

As an essential business, our stores and distribution centers have remained open during the pandemic; however, our business trends and financial results are materially different than what we expected. We estimate that our increased costs related to COVID-19 for premium pay including bonuses, supplies, protective equipment, and similar items in fiscal 2020 was \$279.0 million. Although we believe that the pandemic has resulted in higher sales at Family Dollar, we also believe it has resulted in significantly lower sales at Dollar Tree during the Easter season in 2020 and in our party departments. In addition, as a result of fewer customer trips, sales in certain consumable departments such as snacks and candy have been lower. We have experienced fewer customer visits and higher average ticket. The mix and profit margin of products being purchased by our customers has been different and has changed during 2020. As demand for essential goods, including cleaning supplies and sanitizer, household products, paper goods, food and over-the-counter medicine, increased to unprecedented levels, both our domestic suppliers and distribution centers were stressed to keep up with the demand. We expect this disruption with certain vendors and SKUs to continue into 2021. The effect of COVID-19-related stimulus purchases for some other non-essential items may create additional disruptions.

We have implemented several changes to support our associates in adhering to CDC recommendations. We have:

- Activated our Business Response Team to communicate, assess and address potential exposure throughout the organization;
- Provided personal protective equipment including masks, gloves and sanitizers for our store and distribution center associates;
- Deployed plexiglass sneeze guards for all registers at all stores;
- Deployed hand sanitizer stands in each of our stores;
- Equipped stores, distribution centers and the store support center with necessary supplies for enhanced cleaning protocol;
- Provided wage premiums for all store and distribution center hourly associates, excluding hourly-paid store managers;
- Provided minimum guaranteed sales bonuses for each store manager as well as “Thank You” bonuses and bonuses for certain salaried associates in our field operations and distribution centers;
- Provided pay continuation for associates who test positive or who are Group 1 associates who have to self-quarantine;
- Created a “store” within each distribution center to allow our associates to shop for needed supplies at work when supplies were scarce in retail locations;
- Eliminated all non-essential air travel;
- Utilized technology options for all large group meetings;
- Prohibited external visitors’ access to the store support center;
- Enabled the majority of our store support center teams to work remotely;
- Enabled contactless payments to our POS systems for our customers;

- Followed local municipality, county, and state guidelines and regulations needed to be open as an essential business;
- Encouraged safe social distancing protocols for our customers with signing, graphics and communications;
- Enabled health prescreening questionnaire for all store and distribution associates before entering work; and
- Established temperature check protocols for our associates at all distribution centers and the store support center.

Given the level of volatility and uncertainty surrounding the future impact of COVID-19 on our customers, suppliers and the broader economies in the locations that we operate as well as uncertainty around the future impact on our supply chain, it is challenging to predict our future operations and financial results. Following is a discussion of the impacts that we have seen and the factors which could influence our future performance.

During March 2020, our Dollar Tree and Family Dollar stores began to experience a significant increase in customer demand and sales related to essential products and comparable store net sales increased significantly. However, beginning the last week of March 2020 and continuing into April during the peak of the Easter selling season, comparable store net sales at our Dollar Tree stores decreased. Beginning in mid-April, comparable store net sales at our Dollar Tree stores increased as the comparable Easter period from 2019 had passed. For fiscal 2020, enterprise comparable store net sales increased 6.1% resulting from an increase in average ticket of 20.0%, partially offset by decreased traffic of 11.6%. After the Easter selling season, in both banners, we saw an increase in demand for and sales of discretionary products and our seasonal business for the other holidays throughout the year was strong.

The future impact of COVID-19 on our customers and our business is difficult to predict. The course of the pandemic, the effectiveness of health measures such as vaccines, and the impact of ongoing economic stabilization efforts is uncertain and government assistance payments may not provide enough funding to support current spending. The American Rescue Plan Act of 2021 (“Rescue Act”), which was enacted on March 11, 2021, provides U.S. government funding to address the continuing impact of COVID-19 on the economy, public health, individuals and businesses. Among other things, the Rescue Act provides for \$1,400 direct payments to individuals, continues supplemental unemployment benefits until September 2021, extends a prior increase in food stamp benefits, expands the child tax credit and earned income tax credit, provides for rent and utility assistance, and funds COVID-19 vaccinations, testing, treatment and prevention. An increase in the federal minimum wage was not included in the Rescue Act as enacted.

The demand for essential supplies has increased and we are dependent on our suppliers to replenish the goods in our stores. Disruptions in our supply chain or sources of supply could adversely impact our sales.

Our new store openings in fiscal 2020 were affected by construction delays due to challenges with the permitting process during COVID-19. During 2020, we opened 341 new Dollar Tree stores and 156 new Family Dollar stores compared to an original plan of 350 new Dollar Tree stores and 200 new Family Dollar stores.

With the increase in customer activity in our Family Dollar stores and COVID-19-related travel restrictions, we paused the roll-out of our H2 stores during the first quarter of 2020. We resumed the roll-out during the second quarter of 2020 and renovated approximately 770 stores to this format in fiscal 2020 compared with our original plan of 1,250 renovations. Also, as a result of COVID-19-related delays in obtaining permits, we added adult beverage product to approximately 570 stores in fiscal 2020 compared with our original plan of 1,000.

For further discussion of the impacts that COVID-19 had on our financial condition and results of operations during fiscal 2020, refer to “Results of Operations” in this Item 7. below.

- **Family Dollar**

- In 2018, based on our strategic and operational reassessment of the Family Dollar segment following challenges that the business experienced that impacted our ability to grow the business at the originally estimated rate when we acquired Family Dollar in 2015, management determined there were indicators that the goodwill of the business may be impaired. Accordingly, a goodwill impairment test was performed in the fourth quarter of fiscal 2018 and we recorded a \$2.73 billion non-cash pre-tax and after-tax goodwill impairment charge. The results of our 2019 annual impairment test showed that the fair value of the Family Dollar reporting unit was lower than its carrying value resulting in a \$313.0 million non-cash pre-tax and after-tax goodwill impairment charge.
- In March 2019, we announced plans for a store optimization program for Family Dollar. For fiscal 2019, this program included rolling out a new model for both new and renovated Family Dollar stores, internally known as H2, re-bannering selected stores to the Dollar Tree brand, closing under-performing stores, and installing adult beverages and expanding freezers and coolers in selected stores. In fiscal 2020, we continued to roll out the H2

concept to more stores, increased the number of stores with adult beverages and expanded freezers and coolers in selected stores and plan to continue these initiatives in fiscal 2021.

- In fiscal 2019, we substantially completed our consolidation of our store support centers in Matthews, North Carolina and Chesapeake, Virginia to our Summit Pointe development in Chesapeake, Virginia.
- Building on the success of the H2 format, we have developed a Combination Store which leverages both the Dollar Tree and Family Dollar brands to serve small towns across the country. We are taking Family Dollar's great value and assortment and blending in select Dollar Tree merchandise categories, creating a new store format targeted for small towns and rural communities with populations of 3,000 to 4,000 residents.
- **Supply Chain**
 - In the third quarter of 2019, we opened a new 1.2 million square foot distribution center in Morrow County, Ohio.
 - In the third quarter of 2020, we opened a new 1.2 million square foot distribution center in Rosenberg, Texas and opened the first phase of our new Ocala, Florida distribution center.
- **Long-term Debt**
 - During the first quarter of 2018, we redeemed our \$750.0 million acquisition notes and accelerated the amortization of debt-issuance costs associated with the notes of \$6.1 million.
 - During the first quarter of 2018, we refinanced our long-term debt obligations as follows:
 - We completed the registered offering of \$750.0 million of Senior Floating Rate Notes due 2020, \$1.0 billion of 3.70% Senior Notes due 2023, \$1.0 billion of 4.00% Senior Notes due 2025 and \$1.25 billion of 4.20% Senior Notes due 2028;
 - We entered into a credit agreement for a \$782.0 million term loan facility and a \$1.25 billion revolving credit facility;
 - We used the proceeds of the above offerings to repay the \$2,182.7 million outstanding under our senior secured credit facilities and redeem the remaining \$2.5 billion outstanding under our acquisition debt, resulting in the acceleration of the expensing of \$41.2 million of deferred financing costs and our incurring \$114.3 million in prepayment penalties.
 - During the fourth quarter of 2018, we prepaid the \$782.0 million outstanding under the term loan facility and accelerated the expensing of \$1.5 million of deferred financing costs.
 - During the fourth quarter of 2019, we prepaid \$500.0 million of the \$750.0 million Senior Floating Rate Notes due 2020 and accelerated the expensing of \$0.3 million of deferred financing costs.
 - During the first quarter of 2020, we repaid the remaining \$250.0 million outstanding under the Senior Floating Rate Notes.
 - During the first quarter of 2020, we preemptively drew \$750.0 million on our revolving credit facility to reduce our exposure to potential short-term liquidity risk in the banking system as a result of the COVID-19 pandemic, all of which was repaid by the end of the third quarter of 2020.
 - During the fourth quarter of 2020, we repaid the \$300.0 million 5.00% Senior Notes that we assumed upon the acquisition of Family Dollar.

Overview

We are a leading operator of more than 15,600 retail discount stores and we conduct our operations in two reporting segments. Our Dollar Tree segment is the leading operator of discount variety stores offering merchandise predominantly at the fixed price of \$1.00. Our Family Dollar segment operates general merchandise retail discount stores providing consumers with a selection of competitively-priced merchandise in convenient neighborhood stores.

Our net sales are derived from the sale of merchandise. Two major factors tend to affect our net sales trends. First is our success at opening new stores. Second is the performance of stores once they are open. Sales vary at our existing stores from one year to the next. We refer to this as a change in comparable store net sales, because we include only those stores that are open throughout both of the periods being compared, beginning after the first fifteen months of operation. We include sales from stores expanded or remodeled during the year in the calculation of comparable store net sales, which has the effect of increasing our comparable store net sales. The term 'expanded' also includes stores that are relocated. Stores that have been re-bannered are considered to be new stores and are not included in the calculation of the comparable store net sales change until after the first fifteen months of operation under the new brand.

At January 30, 2021, we operated stores in 48 states and the District of Columbia, as well as stores in five Canadian provinces. A breakdown of store counts and square footage by segment for the years ended January 30, 2021 and February 1, 2020 is as follows:

	Year Ended					
	January 30, 2021			February 1, 2020		
	Dollar Tree	Family Dollar	Total	Dollar Tree	Family Dollar	Total
Store Count:						
Beginning	7,505	7,783	15,288	7,001	8,236	15,237
New stores	341	156	497	348	170	518
Re-bannered stores	(4)	5	1	200	(200)	—
Closings	(37)	(64)	(101)	(44)	(423)	(467)
Ending	7,805	7,880	15,685	7,505	7,783	15,288
Relocations	49	39	88	47	15	62
Selling Square Feet (in millions):						
Beginning	64.6	56.7	121.3	60.3	59.8	120.1
New stores	3.1	1.3	4.4	3.0	1.3	4.3
Re-bannered stores	(0.1)	0.1	—	1.5	(1.5)	—
Closings	(0.3)	(0.5)	(0.8)	(0.4)	(2.9)	(3.3)
Relocations	0.1	0.1	0.2	0.2	—	0.2
Ending	67.4	57.7	125.1	64.6	56.7	121.3

Stores are included as re-banners when they close or open, respectively. Comparable store net sales for Dollar Tree may be negatively affected when a Family Dollar store is re-bannered near an existing Dollar Tree store.

The average size of stores opened in 2020 was approximately 8,640 selling square feet (or about 10,800 gross square feet) for the Dollar Tree segment and 8,460 selling square feet (or about 10,360 gross square feet) for the Family Dollar segment. For 2021, we continue to plan to open stores that are 8,000 - 10,000 selling square feet (or about 10,000 - 12,000 gross square feet) for the Dollar Tree segment and 7,000 - 10,000 selling square feet (or about 9,000 - 12,000 gross square feet) for the Family Dollar segment. We believe that these size stores are in the ranges of our optimal sizes operationally and give our customers a shopping environment which invites them to shop longer, buy more and make return visits.

Fiscal 2020, fiscal 2019 and fiscal 2018 each included 52 weeks.

The percentage change in comparable store net sales on a constant currency basis for the fiscal year ended January 30, 2021, as compared with the preceding year, is as follows:

	Year Ended January 30, 2021		
	Sales Growth	Change in Customer Traffic	Change in Average Ticket
Consolidated	6.1 %	(11.6)%	20.0 %
Dollar Tree Segment	2.2 %	(13.3)%	17.9 %
Family Dollar Segment	10.5 %	(9.1)%	21.5 %

Constant currency basis refers to the calculation excluding the impact of currency exchange rate fluctuations. We calculated the constant currency basis change by translating the current year's comparable store net sales in Canada using the prior year's currency exchange rates. We believe that the constant currency basis provides a more accurate measure of comparable store net sales performance. Comparable store net sales are positively affected by our expanded and relocated stores, which we include in the calculation, and are negatively affected when we open new stores, re-banner stores or expand stores near existing stores.

Dollar Tree Initiatives

We believe that our Dollar Tree initiatives continue to positively affect our comparable store net sales. In fiscal 2019, we introduced our Crafter's Square initiative in more than 650 stores. This offering includes a new expanded assortment of arts and crafts supplies. During fiscal 2020, we expanded this program, completing the roll-out to all of our Dollar Tree stores. The Crafter's Square assortment carries mark-ups which are higher than our average mark-up. Additionally, for more than a year, we have tested a multi-price initiative referred to as Dollar Tree *Plus!* Beginning in fiscal 2019, we began testing multi-price assortments in more than 100 stores in southwestern markets. Based on learnings from the test, we made modifications to: the mix of products offered to include

primarily discretionary items; the displays and signage to drive awareness and excitement to the stores; the price points to focus on the \$1, \$3 and \$5 price points; and increase the number of offerings above the \$1 price point. We plan to expand this initiative into a total of 500 stores beginning in the first quarter of fiscal 2021. We believe these initiatives have and will continue to enable us to increase sales and earnings.

Family Dollar Initiatives

We are executing several initiatives in our Family Dollar stores to increase sales. During 2020, we entered into a partnership with Instacart to enable our customers to shop online and receive merchandise without having to visit a store. In fiscal 2019, we executed a store optimization program for our Family Dollar stores to improve performance. Included in that program was a roll-out of a new model for both new and renovated Family Dollar stores internally known as H2. The H2 model has significantly improved merchandise offerings, including approximately 20 Dollar Tree \$1.00 merchandise sections and establishing a minimum number of freezer and cooler doors, throughout the store. H2 stores have higher customer traffic and provide an average comparable store net sales lift in excess of 10%, when compared to non-renovated stores, in the first year following renovation. H2 stores perform well in a variety of locations and especially in locations where our Family Dollar stores have been most challenged in the past. As of January 30, 2021, we have approximately 2,385 H2 stores. We plan to renovate at least 1,250 stores to this format in fiscal 2021 and also plan to build new stores in this format. In addition, we installed adult beverage product in approximately 570 stores in fiscal 2020 and plan to add it to approximately 1,000 stores in fiscal 2021. We believe the addition of adult beverage to our assortment will drive traffic to our stores.

Building on the success of the H2 format, we have developed a Combination Store which leverages both the Dollar Tree and Family Dollar brands to serve small towns across the country. We are taking Family Dollar's great value and assortment and blending in select Dollar Tree merchandise categories, creating a new store format targeted for small towns and rural communities with populations of 3,000 to 4,000 residents.

Other Items

Additionally, the following items have already impacted or could impact our business or results of operations during 2021 or in the future:

- We are experiencing delays in receiving import merchandise as a result of worldwide container and other equipment shortages and issues with port congestion. In the United States, the port congestion is resulting in ships not returning to Asia in a timely manner as well as impacting equipment availability. This is resulting in delays in product being loaded and shipped from overseas locations. Although this has not yet impacted our sales and we believe we are adequately stocked with merchandise for Easter, the delays could potentially have a material adverse impact on our sales after Easter, especially at Dollar Tree, if the delays do not improve. In addition to creating business uncertainty, this disruption in the import transportation process is also resulting in higher costs. We are also seeing increases in the cost to ship domestic freight from our suppliers to our distribution centers. We are currently projecting approximately \$80.0 to \$100.0 million of additional costs in fiscal 2021 as a result of higher shipping and domestic freight costs.
- In 2021, the minimum wage has increased in certain States and localities and may increase nationally depending on the outcome of future legislation proposed in Congress. The currently scheduled minimum wage increases are estimated to increase store payroll by \$45.0 million to \$50.0 million in 2021, which is less than the COVID-19-related payroll increases in 2020. Additional minimum wage increases and other wage and hour law changes in the future could materially impact our results of operations.
- The amount of COVID-19-related costs for premium pay including bonuses, supplies, protective equipment, and similar items was \$279.0 million in fiscal 2020; the amount of these costs for 2021 is highly uncertain. Among other things, the duration and severity of the pandemic is uncertain, and a number of States and localities are considering legislation that could require premium pay for certain essential workers during certain government mandated restricted work periods.

We must continue to control our merchandise costs, inventory levels and our general and administrative expenses as increases in these items could negatively impact our operating results.

Results of Operations

Our results of operations as a percentage of net sales and year-over-year changes are discussed in the following section.

Net Sales

(dollars in millions)	Year Ended			Percentage Change
	January 30, 2021	February 1, 2020	February 2, 2019	Fiscal 2020 vs. Fiscal 2019
Net sales	\$ 25,509.3	\$ 23,610.8	\$ 22,823.3	8.0 %
Comparable store net sales change, on a constant currency basis	6.1 %	1.8 %	1.7 %	

The increase in net sales from 2019 to 2020 was a result of comparable store net sales increases in the Family Dollar and Dollar Tree segments and sales of \$852.4 million at new stores. These sales increases were partially offset by lost sales resulting from store closures during fiscal 2019 in connection with our Family Dollar segment store optimization program.

Enterprise comparable store net sales increased 6.1% on a constant currency basis in 2020, as a result of a 20.0% increase in average ticket and an 11.6% decrease in customer traffic. Comparable store net sales increased 6.0% when including the impact of Canadian currency fluctuations. On a constant currency basis, comparable store net sales increased 10.5% in the Family Dollar segment and 2.2% in the Dollar Tree segment. Lower traffic resulting from the COVID-19 pandemic negatively affected Easter sales in the Dollar Tree segment in the first quarter of fiscal 2020.

Gross Profit

(dollars in millions)	Year Ended			Percentage Change
	January 30, 2021	February 1, 2020	February 2, 2019	Fiscal 2020 vs. Fiscal 2019
Gross profit	\$ 7,788.3	\$ 7,040.7	\$ 6,947.5	10.6 %
Gross profit margin	30.5 %	29.8 %	30.4 %	0.7 %

The increase in gross profit margin from 2019 to 2020 was a result of the net of the following:

- Occupancy costs decreased 40 basis points as a result of the leverage from the increase in comparable store net sales.
- Markdown costs decreased 25 basis points resulting primarily from the prior year including markdowns related to Family Dollar store closures and clearance sales as well as lower promotional activity in the current year on the Family Dollar segment as a result of the increase in sales of discretionary product. Both segments also had higher sell-through of both Christmas and Halloween merchandise. These decreases were partially offset by \$10.4 million of uninsured markdown costs for stores affected by civil unrest during 2020 and higher seasonal markdowns in the Dollar Tree segment in the first quarter of 2020 due to the lower than planned sell-through on Easter merchandise as a result of the COVID-19 pandemic.
- Merchandise cost, including freight, decreased 20 basis points in 2020 compared to 2019 resulting from higher sales of higher margin discretionary merchandise and improved initial mark-on, partially offset by incremental tariff costs of \$30.7 million.
- Shrink costs decreased 15 basis points resulting from favorable inventory reconciliations on the Family Dollar segment in the current year, partially offset by unfavorable physical inventory results in relation to accruals on the Dollar Tree segment.
- Distribution costs increased 30 basis points resulting primarily from higher distribution center payroll and depreciation costs. We paid our hourly distribution center associates a wage premium for all hours worked from March 8, 2020 through January 2, 2021. Total distribution center COVID-19-related expenses were \$36.3 million, or 15 basis points of this increase.

Selling, General and Administrative Expenses

(dollars in millions)	Year Ended			Percentage Change
	January 30, 2021	February 1, 2020	February 2, 2019	Fiscal 2020 vs. Fiscal 2019
Selling, general and administrative expenses	\$ 5,900.4	\$ 5,778.5	\$ 7,887.0	2.1 %
As a percentage of Net sales	23.1 %	24.5 %	34.5 %	(1.4)%

We recorded non-cash goodwill impairment charges of \$313.0 million and \$2,727.0 million in fiscal 2019 and fiscal 2018, respectively. The goodwill impairments are discussed further in [Note 3](#) to our consolidated financial statements. Excluding the goodwill impairment charges in 2019 and 2018, selling, general and administrative expenses were 23.2% and 22.6%, as a percentage of net sales, in 2019 and 2018, respectively. The decrease in selling, general and administrative expenses, as a percentage of net sales, from 2019 to 2020, excluding the goodwill impairment charge from 2019, was the result of the net of the following:

- Other selling, general and administrative expenses decreased 40 basis points as a result of the leverage from the comparable store net sales increase, higher costs in the prior year related to the disposal of fixed assets in connection with the store optimization program on the Family Dollar segment, lower promotional advertising on the Family Dollar segment, decreases in travel due to the COVID-19 pandemic, lower legal expenses and higher costs in the prior year for the store support center consolidation. These improvements were partially offset by an increase in store supplies expenses due to the COVID-19 pandemic. Fiscal 2020 included \$26.5 million, or 10 basis points, of costs for the installation of plexiglass sneeze guards at all registers in our stores as well as incremental costs for masks, gloves and cleaning supplies due to the COVID-19 pandemic and \$2.7 million of uninsured costs associated with stores damaged in civil unrest.
- Store facility costs decreased 20 basis points due to leverage from the comparable store net sales increase and lower electricity costs. Fiscal 2020 included \$1.3 million of COVID-19-related expenses and \$4.5 million of expenses for stores damaged in civil unrest.
- Depreciation costs decreased 5 basis points due primarily to the leverage from the comparable store net sales increase.
- Payroll expenses increased 65 basis points primarily due to incremental costs associated with the COVID-19 pandemic and increases in incentive compensation, store sales bonuses and stock compensation expenses resulting from improved operating performance in the Family Dollar segment. These increases were partially offset by leverage from the comparable store net sales increase, lower benefits costs and lower temporary help expenses as a result of the prior year including higher expenses to support store-level initiatives. Office payroll costs also decreased resulting from the store support center consolidation in the prior year and other leadership changes made in the fourth quarter of fiscal 2019. Incremental payroll costs associated with the COVID-19 pandemic, including a wage premium paid to all store hourly associates for all hours worked March 8, 2020 through September 26, 2020, bonuses for certain field management associates, guaranteed bonus payouts and “Thank You” bonuses for store managers, quarantine pay and sick pay as well as the related payroll taxes, totaled \$212.6 million, or 85 basis points.

Operating Income (Loss)

(dollars in millions)	Year Ended			Percentage Change
	January 30, 2021	February 1, 2020	February 2, 2019	Fiscal 2020 vs. Fiscal 2019
Operating income (loss)	\$ 1,887.9	\$ 1,262.2	\$ (939.5)	49.6 %
Operating income margin	7.4 %	5.3 %	(4.1)%	2.1 %

Excluding the non-cash goodwill impairment charges in 2019 and 2018, operating income margin was 6.7% in 2019 and 7.8% in 2018. Operating income margin increased to 7.4% in fiscal 2020 compared to 6.7% in fiscal 2019, excluding the goodwill impairment charge, as operating income margin in the Family Dollar segment increased 330 basis points, partially offset by a 140 basis point decrease in the Dollar Tree segment operating income margin. Operating income in fiscal 2020 includes \$279.0 million of COVID-19-related expenses and \$18.2 million of uninsured expenses related to civil unrest.

Interest Expense, Net

(dollars in millions)	Year Ended			Percentage Change
	January 30, 2021	February 1, 2020	February 2, 2019	Fiscal 2020 vs. Fiscal 2019
Interest expense, net	\$ 147.3	\$ 162.1	\$ 370.0	(9.1)%

Interest expense, net decreased \$14.8 million in fiscal 2020 compared to the prior year, resulting from lower average debt outstanding in the current year, partially offset by lower interest income.

In fiscal 2018, we refinanced our debt, resulting in the acceleration of the expensing of \$41.2 million of amortizable non-cash deferred financing costs and prepayment penalties totaling \$114.3 million.

Provision for Income taxes

(dollars in millions)	Year Ended			Percentage Change
	January 30, 2021	February 1, 2020	February 2, 2019	Fiscal 2020 vs. Fiscal 2019
Provision for income taxes	\$ 397.9	\$ 271.7	\$ 281.8	46.4 %
Effective tax rate	22.9 %	24.7 %	21.5 %	(1.8)%

The effective tax rate for 2020 was 22.9% compared to 24.7% for 2019. The 2020 effective rate decreased compared to the prior year rate as the \$313.0 million goodwill impairment charge in 2019 was not tax deductible. Partially offsetting that decrease, the 2020 rate reflects higher state tax rates, higher income amounts taxed at the statutory rate and additional tax expense for restricted stock vestings due to the stock price for certain grants being lower at the vest date than the grant date. The 2019 effective tax rate also includes the benefit of the reversal of a valuation allowance of \$24.6 million.

Segment Information

We operate a chain of more than 15,600 retail discount stores in 48 states and five Canadian provinces. Our operations are conducted in two reporting business segments: Dollar Tree and Family Dollar. We define our segments as those operations whose results our chief operating decision maker (“CODM”) regularly reviews to analyze performance and allocate resources.

We measure the results of our segments using, among other measures, each segment’s net sales, gross profit and operating income. The CODM reviews these metrics for each of our reporting segments. We may revise the measurement of each segment’s operating income, as determined by the information regularly reviewed by the CODM. If the measurement of a segment changes, prior period amounts and balances are reclassified to be comparable to the current period’s presentation. Corporate, support and Other consists primarily of store support center costs that are considered shared services and therefore these selling, general and administrative costs are excluded from our two reporting business segments. These costs include operating expenses for our store support centers in Chesapeake, Virginia and Matthews, North Carolina. During fiscal 2019, we consolidated our Matthews, North Carolina store support center with our store support center in Chesapeake, Virginia. Corporate, support and Other also includes the results of operations for our Summit Pointe property in Chesapeake, Virginia. Prior year amounts have been reclassified to be comparable to the current year presentation.

Dollar Tree

The following table summarizes the operating results of the Dollar Tree segment:

(in millions)	Year Ended						Percentage Change
	January 30, 2021		February 1, 2020		February 2, 2019		Fiscal 2020 vs. Fiscal 2019
	\$	% of Net Sales	\$	% of Net Sales	\$	% of Net Sales	
Net sales	\$ 13,265.0		\$ 12,507.9		\$ 11,712.1		
Gross profit	4,543.8	34.3 %	4,342.9	34.7 %	4,137.5	35.3 %	(0.4)%
Operating income	1,598.0	12.0 %	1,670.2	13.4 %	1,657.4	14.2 %	(1.4)%

Net sales for the Dollar Tree segment increased 6.1%, or \$757.1 million, in 2020 compared to 2019 due to sales from new stores of \$591.0 million and a 2.2% increase in comparable store net sales. Average ticket increased 17.9% and customer traffic declined 13.3% in 2020.

Gross profit margin for the Dollar Tree segment decreased to 34.3% in 2020 from 34.7% in 2019. The decrease is due to the net of the following:

- Distribution costs increased 50 basis points resulting primarily from higher distribution center payroll and depreciation costs. We paid our hourly distribution center associates a wage premium for all hours worked from March 8, 2020 through January 2, 2021. Total distribution center COVID-19-related expenses were \$21.3 million, or 15 basis points of this increase.
- Shrink costs increased 5 basis points resulting from unfavorable physical inventory results in relation to accruals in the current year and an increase in the shrink accrual rate.
- Markdown costs were flat as a percentage of net sales compared to the prior year as lower markdowns from higher seasonal merchandise sell-through in the third and fourth quarters of 2020 were offset by higher markdowns from the lower sell-through of Easter merchandise as a result of the COVID-19 pandemic in the first quarter of 2020, and \$2.9 million of uninsured markdown costs for stores affected by civil unrest.
- Merchandise cost, including freight, decreased 10 basis points primarily due to increased sales of higher margin discretionary merchandise and increased initial mark-on, partially offset by incremental tariffs of \$23.7 million. Discretionary merchandise sales were a higher proportion of total sales in the second, third and fourth quarters of 2020 while they were a lower proportion in the first quarter of 2020 as a result of the lower Easter sales due to the COVID-19 pandemic.

Operating income margin for the Dollar Tree segment decreased to 12.0% in 2020 compared to 13.4% in 2019. The decrease in operating income margin in 2020 was the result of lower gross profit margin as noted above and higher selling, general and administrative expenses as a percentage of net sales. Selling, general and administrative expenses, as a percentage of net sales, increased to 22.3% in 2020 compared to 21.3% in 2019 as a result of the net of the following:

- Payroll expenses increased 100 basis points primarily due to incremental costs associated with the COVID-19 pandemic and higher incentive compensation and store sales bonuses. Incremental payroll costs associated with the COVID-19 pandemic included a wage premium paid to all store hourly associates for all hours worked from March 8, 2020 through September 26, 2020, bonuses for certain field management associates, guaranteed bonus payouts and “Thank You” bonuses for store managers, quarantine pay and sick pay as well as the related payroll taxes. These costs totaled \$124.2 million, or 95 basis points, in fiscal 2020. These increases were partially offset by leverage from the comparable store net sales increase and lower benefits costs.
- Other selling, general and administrative expenses decreased 5 basis points as a result of decreased travel costs due to the COVID-19 pandemic and lower legal expenses, partially offset by an increase in store supplies costs resulting from the COVID-19 pandemic. Fiscal 2020 includes \$14.9 million, or 10 basis points, of costs for the installation of plexiglass sneeze guards at all registers in our stores as well as incremental costs for masks, gloves and cleaning supplies due to the COVID-19 pandemic.
- Store facility costs decreased 10 basis points due to leverage from the comparable store net sales increase. Fiscal 2020 includes \$1.7 million of expenses for repairs to stores damaged in civil unrest.

Operating income in fiscal 2020 includes \$161.1 million of COVID-19-related expenses and \$5.4 million of uninsured costs related to civil unrest.

Family Dollar

The following table summarizes the operating results of the Family Dollar segment:

(in millions)	Year Ended						Percentage Change Fiscal 2020 vs. Fiscal 2019
	January 30, 2021		February 1, 2020		February 2, 2019		
	\$	% of Net Sales	\$	% of Net Sales	\$	% of Net Sales	
Net sales	\$12,243.4		\$11,102.9		\$11,111.2		
Gross profit	3,243.6	26.5 %	2,697.8	24.3 %	2,810.0	25.3 %	2.2 %
Operating income (loss)	655.6	5.4 %	(74.9)	(0.7)%	(2,312.8)	(20.8)%	6.1 %

Net sales for the Family Dollar segment increased \$1,140.5 million or 10.3% in 2020 compared to 2019 due to a comparable store net sales increase of 10.5% and \$261.4 million of new store sales, partially offset by lost sales resulting from store closures during

fiscal 2019 in connection with our store optimization program. Average ticket increased 21.5% and customer traffic declined 9.1% in 2020.

Gross profit margin for the Family Dollar segment increased to 26.5% in 2020 compared to 24.3% in 2019. The increase is due to the net of the following:

- Occupancy costs decreased 80 basis points as a result of the leverage from the comparable store net sales increase.
- Markdowns at cost decreased 55 basis points primarily due to higher store closure and clearance sale markdowns in the prior year and lower promotional activity in the current year as a result of the increase in sales of discretionary product. Family Dollar also had higher sell-through of both Christmas and Halloween merchandise. These markdown reductions were partially offset by \$7.5 million of uninsured markdown costs for stores affected by civil unrest.
- Merchandise cost, including freight, decreased 50 basis points primarily due to increased sales of higher margin discretionary merchandise and improved initial mark-on, partially offset by incremental tariffs of \$7.1 million.
- Shrink expense decreased 45 basis points resulting from favorable physical inventory results in relation to accruals in the current year and a decrease in the accrual rate compared to an increase in the accrual rate in the prior year.
- Distribution costs increased 5 basis points resulting primarily from higher distribution center payroll costs. We paid our hourly distribution center associates a wage premium for all hours worked from March 8, 2020 through January 2, 2021. Total distribution center COVID-19-related expenses were \$15.0 million, or 10 basis points of this increase.

Excluding the \$313.0 million and \$2,727.0 million non-cash goodwill impairment charges in 2019 and 2018, respectively, operating income margin for the Family Dollar segment was 2.1% in 2019 and 3.7% in 2018. Operating income margin increased to 5.4% in fiscal 2020 compared to 2.1% in fiscal 2019, excluding the goodwill impairment charge, resulting from the gross margin increase noted above and a decrease in selling, general and administrative expenses, as a percentage of net sales. Selling, general and administrative expenses were 21.1%, as a percentage of net sales, in 2020 compared to 22.2% in 2019, excluding the goodwill impairment charge. The decrease in selling, general and administrative expenses, as a percentage of net sales, was due to the following:

- Other selling, general and administrative expenses decreased 60 basis points primarily due to a decrease in promotional advertising, less travel during the COVID-19 pandemic, higher costs in the prior year related to the disposal of fixed assets in connection with the store optimization program, lower legal expenses, and leverage associated with the increase in comparable store net sales during the period, partially offset by an increase in store supplies expense. Fiscal 2020 included \$11.6 million or 10 basis points of costs for the installation of plexiglass sneeze guards at all registers in our stores as well as incremental costs for masks, gloves and cleaning supplies due to the COVID-19 pandemic and \$2.1 million of expenses primarily for fixed asset disposals for stores damaged by civil unrest.
- Store facility costs decreased 25 basis points primarily due to leverage from the comparable store net sales increase and lower electricity costs. Fiscal 2020 included \$2.8 million of incremental repairs and maintenance expenses for stores damaged by civil unrest.
- Depreciation and amortization expense decreased 15 basis points primarily due to leverage from the comparable store net sales increase.
- Payroll expenses decreased 5 basis points as incremental costs associated with the COVID-19 pandemic and increased incentive compensation and store sales bonus expenses resulting from the improved Family Dollar operating performance were more than offset by leverage from the comparable store net sales increase, lower temporary help expenses as a result of the prior year including higher expenses to support store-level initiatives, a decrease in workers' compensation expenses and lower benefits costs. Incremental costs associated with the COVID-19 pandemic, including a wage premium paid to all store hourly associates for all hours worked from March 8, 2020 to September 26, 2020, bonuses for certain field management associates, guaranteed bonus payouts and "Thank You" bonuses for store managers, quarantine pay and sick pay as well as the related payroll taxes totaled \$88.4 million or 70 basis points.

Operating income in fiscal 2020 includes \$115.5 million for COVID-19-related expenses and \$12.8 million of uninsured costs related to civil unrest.

Liquidity and Capital Resources

Our business requires capital to build and open new stores, expand and renovate existing stores, expand our distribution network and operate our existing stores. Our working capital requirements for existing stores are seasonal in nature and typically reach their peak in the months of September and October. Historically, we have satisfied our seasonal working capital requirements for existing

stores and have funded our store opening and distribution network expansion programs from internally generated funds and borrowings under our credit facilities.

The following table compares cash-flow related information for the years ended January 30, 2021, February 1, 2020 and February 2, 2019:

(in millions)	Year Ended		
	January 30, 2021	February 1, 2020	February 2, 2019
Net cash provided by (used in):			
Operating activities	\$ 2,716.3	\$ 1,869.8	\$ 1,766.0
Investing activities	(889.7)	(1,020.2)	(816.7)
Financing activities	(949.9)	(709.8)	(1,599.9)

Operating Activities

Net cash provided by operating activities increased \$846.5 million in 2020 compared to 2019 primarily as a result of higher accounts payable, current liabilities and other liabilities and lower inventory levels at January 30, 2021, and higher earnings before depreciation and amortization in the current year.

Investing Activities

Net cash used in investing activities decreased \$130.5 million in 2020 compared with 2019 primarily due to 2019 including higher capital expenditures related to the Family Dollar segment store optimization program, including H2 renovations and re-banners. H2 renovations were slowed in the current year due to the COVID-19 pandemic. The decrease was partially offset by increased capital expenditures related to distribution center projects in the current year and grant funds received from state and local governments for our Summit Pointe development in the prior year.

Financing Activities

Net cash used in financing activities increased \$240.1 million in 2020 compared to 2019 primarily due to \$400.0 million of stock repurchases in 2020 compared to \$200.0 million in 2019. In 2020, we also repaid the remaining \$250.0 million of our \$750.0 million Floating Rate Notes and the \$300.0 million 5% Senior Notes. In fiscal 2019, we prepaid \$500.0 million of our \$750.0 million Floating Rate Notes.

At January 30, 2021, our long-term borrowings were \$3.25 billion and we had \$1.25 billion available under our revolving credit facility, less amounts outstanding for standby letters of credit totaling \$98.7 million. For additional detail on our long-term borrowings and other commitments, refer to the discussion of Funding Requirements below, as well as [Note 5](#) and [Note 6](#) to our consolidated financial statements.

Share Repurchases

We repurchased 3,982,478 shares of common stock on the open market for \$400.0 million in fiscal 2020 and we repurchased 1,967,355 shares of common stock on the open market for \$200.0 million in fiscal 2019. There were no shares repurchased in fiscal 2018. At January 30, 2021, we had \$400.0 million remaining under Board repurchase authorization. Subsequently, on March 2, 2021, the Board increased the share repurchase authorization by \$2.0 billion resulting in a total share repurchase authorization of \$2.4 billion.

Funding Requirements

Overview

We expect our cash needs for opening new stores and expanding and renovating existing stores in fiscal 2021 to total approximately \$592.7 million, which includes capital expenditures, initial inventory and pre-opening costs.

Our estimated capital expenditures for fiscal 2021 are approximately \$1.2 billion, including planned expenditures for our new and expanded stores, approximately 1,250 planned H2 renovations of Family Dollar segment stores, distribution center expansions and the development of additional parcels on our Summit Pointe property, located in Chesapeake, Virginia, for mixed-use purposes. We believe that we can adequately fund our working capital requirements and planned capital expenditures for the foreseeable future from net cash provided by operations and potential borrowings under our revolving credit facility.

The following tables summarize our material contractual obligations at January 30, 2021, including both on- and off-balance sheet arrangements, and our commitments, including interest on long-term borrowings (in millions):

Contractual Obligations	Total	2021	2022	2023	2024	2025	Thereafter
Lease Financing							
Operating lease obligations	\$ 7,459.5	\$ 1,480.1	\$ 1,396.4	\$ 1,184.1	\$ 965.0	\$ 731.2	\$ 1,702.7
Long-term Borrowings							
Principal	3,250.0	—	—	1,000.0	—	1,000.0	1,250.0
Interest	639.2	129.1	129.1	104.8	92.0	64.1	120.1
Total obligations	\$ 11,348.7	\$ 1,609.2	\$ 1,525.5	\$ 2,288.9	\$ 1,057.0	\$ 1,795.3	\$ 3,072.8
Commitments							
	Total	Expiring in 2021	Expiring in 2022	Expiring in 2023	Expiring in 2024	Expiring in 2025	Thereafter
Letters of credit and surety bonds	\$ 404.8	\$ 378.5	\$ 25.7	\$ 0.5	\$ 0.1	\$ —	\$ —

Lease Financing

Operating lease obligations. Refer to [Note 7](#) to our consolidated financial statements for information on our operating leases. The obligation above includes amounts for leases that were signed prior to January 30, 2021 for stores that were not yet open on January 30, 2021.

Long-term Borrowings

In the first quarter of 2018, we redeemed our \$750.0 million acquisition notes and accelerated the amortization of debt-issuance costs associated with the notes of \$6.1 million.

Additionally, in the first quarter of 2018, we completed the registered offering of \$750.0 million aggregate principal amount of Senior Floating Rate Notes due 2020, \$1.0 billion aggregate principal amount of 3.70% Senior Notes due 2023, \$1.0 billion aggregate principal amount of 4.00% Senior Notes due 2025 and \$1.25 billion aggregate principal amount of 4.20% Senior Notes due 2028. We also entered into a credit agreement with JPMorgan Chase Bank, N.A., as administrative agent, providing for \$2.03 billion in senior credit facilities, consisting of a \$1.25 billion revolving credit facility and a \$782.0 million term loan facility. We used the proceeds of these borrowings and cash on hand to repay all of the outstanding loans under our then-existing senior secured credit facilities and acquisition notes, resulting in the acceleration of the expensing of \$41.2 million of deferred financing costs and our incurring \$114.3 million in prepayment penalties. In the fourth quarter of 2018, we prepaid in full the \$782.0 million term loan facility. In the fourth quarter of 2019, we prepaid \$500.0 million of the \$750.0 million Senior Floating Rate Notes and repaid the remaining \$250.0 million outstanding in the first quarter of 2020.

In addition, upon the acquisition of Family Dollar in 2015, we assumed the liability for \$300.0 million of 5.00% senior notes, which we repaid in the fourth quarter of 2020.

The interest on our long-term borrowings represents the interest payments on the foregoing long-term borrowings that were outstanding at January 30, 2021 using the interest rates for each at January 30, 2021.

For additional information on our long-term borrowings, please refer to [Note 6](#) to our consolidated financial statements.

Commitments

Letters of credit and surety bonds. We have \$356.5 million in Letter of Credit Reimbursement and Security Agreements with various financial institutions, under which \$209.6 million was committed to letters of credit issued for routine purchases of imported merchandise at January 30, 2021.

We also have \$98.7 million of letters of credit outstanding that serve as collateral for our large-deductible insurance programs and \$96.5 million of surety bonds outstanding primarily for certain utility payment obligations at some of our stores and self-insured insurance programs.

Purchase obligations. We have commitments totaling \$189.8 million related to agreements for software licenses and support, telecommunication services and store technology assets and maintenance for our stores.

Critical Accounting Policies

The preparation of financial statements requires the use of estimates. Certain of our estimates require a high level of judgment and have the potential to have a material effect on the financial statements if actual results vary significantly from those estimates. Following is a discussion of the policies that we consider critical.

Inventory Valuation

As discussed in [Note 1](#) to our consolidated financial statements under the caption “Merchandise Inventories,” inventories at the distribution centers are stated at the lower of cost or net realizable value with cost determined on a weighted-average basis. Cost is assigned to store inventories using the retail inventory method on a weighted-average basis. Under the retail inventory method, the valuation of inventories at cost and the resulting gross margins are computed by applying a calculated cost-to-retail ratio to the retail value of inventories. The retail inventory method is an averaging method that is widely used in the retail industry and results in valuing inventories at lower of cost or market when markdowns are taken as a reduction of the retail value of inventories on a timely basis.

Inventory valuation methods require certain management estimates and judgments, including estimates of future merchandise markdowns and shrink, which significantly affect the ending inventory valuation at cost as well as the resulting gross margins. The averaging required in applying the retail inventory method and the estimates of shrink and markdowns could, under certain circumstances, result in costs not being recorded in the proper period.

We estimate our markdown reserve based on the consideration of a variety of factors, including, but not limited to, quantities of slow moving or seasonal carryover merchandise on hand, historical markdown statistics and future merchandising plans. The accuracy of our estimates can be affected by many factors, some of which are outside of our control, including changes in economic conditions and consumer buying trends. Historically, we have not experienced significant differences in our estimated reserve for markdowns compared with actual results.

Our accrual for shrink is based on the actual, historical shrink results of our most recent physical inventories adjusted, if necessary, for current economic conditions and business trends. These estimates are compared to actual results as physical inventory counts are taken and reconciled to the general ledger. Our physical inventory counts are generally taken between January and October of each year; therefore, the shrink accrual recorded at January 30, 2021 is based on estimated shrink for most of 2020, including the fourth quarter. The amounts recorded in the current year reflect the Dollar Tree and Family Dollar segments’ historical results. We periodically adjust our shrink estimates to reflect our best estimates based on the factors described.

Our management believes that our application of the retail inventory method results in an inventory valuation that reasonably approximates cost and results in carrying inventory at the lower of cost or market each year on a consistent basis.

Self-Insurance Liabilities

The liabilities related to our self-insurance programs for workers’ compensation and general liability are estimates that require judgment and the use of assumptions. Semiannually, we obtain third-party actuarial valuations to aid in valuing the liabilities and in determining the amount to accrue during the year. These actuarial valuations are estimates based on our historical loss development factors and the related accruals are adjusted as management’s estimates change.

Management’s estimate for self-insurance liabilities could vary from the ultimate loss sustained given the difficulty in predicting future events; however, historically, the net total of these differences has not had a material effect on our financial condition or results of operations.

Goodwill and Indefinite-Lived Intangible Assets

Goodwill and indefinite-lived intangible assets are initially recorded at their fair values. These assets are not amortized but are evaluated annually for impairment. A more frequent evaluation is performed if events or circumstances indicate that impairment could have occurred. Such events or circumstances could include, but are not limited to, significant negative industry or economic trends, unanticipated changes in the competitive environment and a significant sustained decline in the market price of our stock.

For purposes of our goodwill impairment evaluation, the reporting units are Family Dollar, Dollar Tree and Dollar Tree Canada. Goodwill has been assigned to the reporting units based on prior business combinations related to the brands. In the event a qualitative assessment of the fair value of a reporting unit indicates it is more likely than not that the fair value is less than the carrying amount, we then estimate the fair value using a combination of a market multiple method and a discounted cash flow method. Under the market multiple approach, we estimate a fair value based on comparable companies’ market multiples of revenues and earnings before interest, taxes, depreciation and amortization (“EBITDA”) and adjusted for a control premium. Under the discounted cash flow approach, we project future cash flows which are discounted using a weighted-average cost of capital analysis that reflects current market conditions, adjusted for specific reporting unit risks (primarily the uncertainty of achieving projected operating cash flows). If

the carrying amount of a reporting unit exceeds its estimated fair value, an impairment loss is recognized in an amount equal to that excess.

The Family Dollar goodwill and trade name comprise a substantial portion of our goodwill and indefinite-lived intangible assets and management's judgment utilized in the Family Dollar goodwill and trade name impairment evaluations is critical. The computations require management to make estimates and assumptions and actual results may differ significantly, particularly if there are significant adverse changes in the operating environment. Critical assumptions that are used as part of the Family Dollar goodwill evaluation include:

- *The potential future revenue, EBITDA and cash flows of the reporting unit.* The projections use management's assumptions about economic and market conditions over the projected period as well as our estimates of future performance and reporting unit revenue, gross margin, expenses and other factors. The resulting revenue, EBITDA and cash flow estimates are based on our most recent business operating plans, and various growth rates have been assumed for years beyond the current business plan period. We believe that the assumptions, estimates and rates used in our fiscal 2020 impairment evaluations are reasonable; however, variations in the assumptions, estimates and rates could result in significantly different estimates of fair value.
- *Selection of an appropriate discount rate.* Calculating the present value of future cash flows requires the selection of an appropriate discount rate, which is based on a weighted-average cost of capital analysis. The discount rate is affected by changes in short-term interest rates and long-term yield as well as variances in the typical capital structure of marketplace participants. Given current economic conditions, it is possible that the discount rate will fluctuate in the near term. We engaged third party experts to assist in the determination of the weighted-average cost of capital used to discount the cash flows for our Family Dollar reporting unit. The weighted-average cost of capital used to discount the cash flows for our evaluation was 8.25% for our fiscal 2020 analysis.

Indefinite-lived intangible assets, such as the Family Dollar trade name, are not subject to amortization but are reviewed at least annually for impairment. The indefinite-lived intangible asset impairment evaluations are performed by comparing the fair value of the indefinite-lived intangible assets to their carrying values. We estimate the fair value of our trade name intangible asset based on an income approach using the relief-from-royalty method. This approach is dependent upon a number of factors, including estimates of future growth and trends, royalty rates, discount rates and other variables. We base our fair value estimates on assumptions we believe to be reasonable, but which are inherently uncertain. The discount rate includes a premium compared to the discount used for the Family Dollar goodwill impairment evaluation due to the inherently higher risk profile of intangible assets compared to the overall reporting unit.

Our evaluation of goodwill did not result in an impairment charge being recorded in fiscal 2020. Non-cash impairment charges of \$313.0 million and \$2.73 billion were recorded in fiscal 2019 and 2018, respectively, related to the Family Dollar reporting unit. Our evaluation of the Family Dollar trade name did not result in impairment charges during fiscal 2020, 2019 or 2018. Based on the results of the 2020 evaluation, the fair value of the Family Dollar reporting unit exceeded its carrying value by a significant margin and the fair value of the Family Dollar trade name exceeded its carrying value by approximately 7.5%.

For additional information related to goodwill and indefinite-lived intangible assets, including the related impairment evaluations, refer to [Note 3](#) to our consolidated financial statements. For additional information related to uncertainties associated with the key assumptions and any potential events and/or circumstances that could have a negative effect on the key assumptions, please refer to "[Item 1A. Risk Factors](#)" and elsewhere within this "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations." If our assumptions and related estimates change in the future, we may be required to record impairment charges against earnings in future periods. Any impairment charges that we may take in the future could be material to our results of operations and financial condition.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to various types of market risk in the normal course of our business, including the impact of interest rate changes and diesel fuel cost changes. We may enter into interest rate or diesel fuel swaps to manage exposure to interest rate and diesel fuel price changes. We do not enter into derivative instruments for any purpose other than cash flow hedging and we do not hold derivative instruments for trading purposes.

Interest Rate Risk

Our exposure to interest rate risk relates to our revolving credit facility, as borrowings under the revolving credit facility bear interest at LIBOR, reset periodically, plus 1.00% to 1.50% as determined by our credit ratings and leverage ratio. At January 30, 2021, there were no borrowings outstanding under the revolving credit facility.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Dollar Tree, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Dollar Tree, Inc. and subsidiaries (the Company) as of January 30, 2021 and February 1, 2020, the related consolidated statements of operations, comprehensive income (loss), shareholders' equity, and cash flows for each of the years in the three-year period ended January 30, 2021, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of January 30, 2021 and February 1, 2020, and the results of its operations and its cash flows for each of the years in the three-year period ended January 30, 2021, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of January 30, 2021, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated March 16, 2021 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Change in Accounting Principle

As discussed in Note 1 to the consolidated financial statements, the Company has changed its method of accounting for leases as of February 3, 2019, due to the adoption of Accounting Standards Codification (ASC) Topic 842, *Leases*.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Valuation of goodwill and trade name intangible asset in the Family Dollar operating segment

As discussed in Notes 1 and 3 to the consolidated financial statements, the Company performs goodwill and trade name intangible asset impairment testing on an annual basis and when events and changes in circumstances indicate possible impairment of these assets. Total recorded goodwill as of January 30, 2021 was \$2.0 billion. Of this amount, the goodwill balance for the Family Dollar reporting unit, which is also the Family Dollar operating segment, was \$1.6 billion. The Family Dollar trade name intangible asset was \$3.1 billion as of January 30, 2021.

We identified the assessment of the valuation of goodwill and trade name intangible asset in the Family Dollar operating segment as a critical audit matter. The assumptions utilized to calculate the fair value of the operating segment, which included revenue growth rates and discount rate, as well as the assumptions used to calculate the fair value of the trade name intangible asset, which included revenue growth rates, discount rate, and royalty rate, required subjective auditor judgment. Minor changes to these assumptions could have a significant effect on the assessment of the carrying value of the goodwill and trade name, which resulted

in a high degree of subjectivity in performing the associated audit procedures.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the Company's goodwill and trade name impairment assessment process, including controls related to the determination of the fair value of the assets, the development of the revenue growth rates, discount rates, and royalty rate. We performed a sensitivity analysis over the revenue growth rate assumptions to assess their impact on the Company's determination of the fair values of the Family Dollar reporting unit and the trade name intangible asset. To assess the Company's ability to accurately forecast, we compared the Company's historical forecasts to actual results. We evaluated the Company's revenue growth rates reflected in the forecasted revenues for the Family Dollar operating segment by comparing the store sales growth assumptions to historical results. We also evaluated assumptions related to new store openings and renovations through comparison to the Company's forecasted capital expenditures and its known store openings and renovations. We involved valuation professionals with specialized skills and knowledge who assisted in:

- evaluating the Company's revenue growth rates based on publicly available market data for comparable entities;
- assessing the Company's discount rates and royalty rate by comparing the Company's inputs to the discount and royalty rates to publicly available market data for comparable companies and assessing the resulting rates; and
- evaluating (1) the Family Dollar operating segment's fair value using the related cash flow forecast and discount rate, as well as (2) the trade name's fair value using the related discount rate and royalty rate, and comparing the results to the Company's fair value estimate.

Estimated self-insurance liability

As discussed in Note 1 to the consolidated financial statements, the Company employs an actuary to estimate its self-insurance liability. As of January 30, 2021, the Company recorded an estimated liability of \$319 million.

We identified the evaluation of the estimated self-insurance liability as a critical audit matter. The estimation process involves auditor judgment and actuarial expertise to evaluate the actuarial methods and assumptions that are used to estimate future claim payments. Specifically, the evaluation includes the assumptions related to the loss development factors and expected loss rates which are primarily driven by historical claims paid and incurred data.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the Company's self-insurance liability estimation process. This included controls related to (1) the selection of the actuarial methods, and the development of the loss development factors and expected loss rates used to calculate the liability, and (2) the completeness and accuracy of historical claims paid and incurred data. We assessed the Company's estimate of the liability by testing a selection of certain data, including claims data, utilized by the Company's actuary by comparing it to relevant documentation. We involved actuarial professionals with specialized skills and knowledge, who assisted in:

- assessing the Company's actuarial methods by comparing them to generally accepted actuarial methodologies; and
- evaluating the Company's actuarial estimates and assumptions related to the loss development factors and expected loss rates, by comparing them to generally accepted actuarial methodologies and the Company's historical data and trends.

/s/ KPMG LLP

We have served as the Company's auditor since 1987.

DOLLAR TREE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

Description of Business

Unless otherwise stated, references to “we,” “us,” and “our” in this annual report on Form 10-K refer to Dollar Tree, Inc. and its direct and indirect subsidiaries on a consolidated basis.

We are a leading operator of discount retail stores in the United States and Canada. Below are those accounting policies that we consider to be significant.

Principles of Consolidation

The consolidated financial statements include the financial statements of Dollar Tree, Inc., and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

Segment Information

At January 30, 2021, we operate more than 15,600 retail discount stores in 48 states and five Canadian provinces. Our operations are conducted in two reporting business segments: Dollar Tree and Family Dollar. We define our segments as those operations whose results our chief operating decision maker (“CODM”) regularly reviews to analyze performance and allocate resources.

The Dollar Tree segment is the leading operator of discount variety stores offering merchandise predominantly at the fixed price point of \$1.00. The Dollar Tree segment includes our operations under the “Dollar Tree” and “Dollar Tree Canada” brands, 15 distribution centers in the United States and two distribution centers in Canada.

The Family Dollar segment operates a chain of general merchandise retail discount stores providing consumers with a selection of competitively-priced merchandise in convenient neighborhood stores. The Family Dollar segment consists of our operations under the “Family Dollar” brand and 11 distribution centers.

Refer to [Note 12](#) for additional information regarding our operating segments.

Foreign Currency

The functional currencies of certain of our international subsidiaries are the local currencies of the countries in which the subsidiaries are located. Foreign currency denominated assets and liabilities are translated into U.S. dollars using the exchange rates in effect at the consolidated balance sheet date. Results of operations and cash flows are translated using the average exchange rates throughout the period. The effect of exchange rate fluctuations on translation of assets and liabilities is included as a component of shareholders’ equity in accumulated other comprehensive loss. Gains and losses from foreign currency transactions, which are included in “Other expense (income), net” have not been significant.

Fiscal Year

Our fiscal year is a 52-week or 53-week period ending on the Saturday closest to January 31. References to “2020” or “fiscal 2020,” “2019” or “fiscal 2019,” and “2018” or “fiscal 2018” relate to the 52-week fiscal years ended January 30, 2021, February 1, 2020, and February 2, 2019, respectively.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents at January 30, 2021 and February 1, 2020 includes \$1,135.0 million and \$287.6 million, respectively, of investments primarily in money market securities which are valued at cost, which approximates fair value. We consider all highly-liquid debt instruments with original maturities of three months or less to be cash equivalents. The majority of payments due from financial institutions for the settlement of debit card and credit card transactions process within three business days, and therefore are classified as cash and cash equivalents.

Merchandise Inventories

Merchandise inventories at our distribution centers are stated at the lower of cost or net realizable value, determined on a weighted-average cost basis. Cost is assigned to store inventories using the retail inventory method on a weighted-average basis. Under the retail inventory method, the valuation of inventories at cost and the resulting gross margins are computed by applying a calculated cost-to-retail ratio to the retail value of inventories.

Costs directly associated with warehousing and distribution are capitalized as merchandise inventories. Total warehousing and distribution costs capitalized into inventory amounted to \$172.7 million and \$169.7 million at January 30, 2021 and February 1, 2020, respectively.

Property, Plant and Equipment

Property, plant and equipment are stated at cost and depreciated using the straight-line method over the estimated useful lives of the respective assets as follows:

Buildings	39 to 40 years
Furniture, fixtures and equipment	3 to 15 years

Leasehold improvements are amortized over the shorter of the estimated useful lives of the respective assets or the related lease terms. Amortization is included in “Selling, general and administrative expenses” in the accompanying consolidated statements of operations.

Costs incurred related to software developed for internal use are capitalized and amortized, generally over three years.

Capitalized Interest

We capitalize interest on borrowed funds during the construction of certain property and equipment. We capitalized \$3.2 million, \$2.4 million and \$4.2 million of interest costs in the years ended January 30, 2021, February 1, 2020 and February 2, 2019, respectively.

Insurance Reserves and Restricted Cash

We utilize a combination of insurance and self-insurance programs, including a wholly-owned captive insurance entity, to provide for the potential liabilities for certain risks, including workers’ compensation, general liability and automobile liability. Liabilities associated with the risks that are retained by us are not discounted and are estimated, in part, by considering claims experience, exposure and severity factors and other actuarial assumptions.

Dollar Tree Insurance, Inc., a South Carolina-based wholly-owned captive insurance subsidiary of ours, charges the operating subsidiary companies premiums to insure the retained workers’ compensation, general liability and automobile liability exposures. Pursuant to South Carolina insurance regulations, Dollar Tree Insurance, Inc. maintains certain levels of cash and cash equivalents related to its self-insured exposures.

We also maintain certain cash balances related to our insurance programs, which are held in trust and restricted as to withdrawal or use.

Lease Accounting

In the first quarter of fiscal 2019, we adopted Accounting Standards Update (“ASU”) No. 2016-02, “*Leases (Topic 842)*” and subsequent amendments, using the optional effective date transition method provided by accounting pronouncement, ASU No. 2018-11, “*Leases (Topic 842): Targeted Improvements*” and recorded a cumulative effect adjustment to beginning retained earnings. Our reporting for the fiscal 2018 comparative period presented in the consolidated financial statements continues to be in accordance with Accounting Standards Codification (“ASC”) Topic 840, “*Leases.*” Adoption of the standard resulted in the recognition of Operating lease right-of-use assets and Operating lease liabilities of \$6.2 billion and \$6.1 billion, respectively, and a reduction to Retained earnings of \$65.3 million, net of tax, as of February 3, 2019. For fiscal 2019, the adoption of the standard did not have a material impact on our consolidated statements of operations or consolidated statements of cash flows.

Our lease portfolio primarily consists of leases for our retail store locations and we also lease vehicles and trailers, as well as distribution center space and equipment. We determine if an arrangement is a lease at inception by evaluating whether the arrangement conveys the right to use an identified asset and whether we obtain substantially all of the economic benefits from and have the ability to direct the use of the asset. Leases with an initial term of 12 months or less are not recorded on the consolidated balance sheets. We recognize expense for these leases on a straight-line basis over the lease term. For leases with an initial term in excess of 12 months, operating lease right-of-use assets and operating lease liabilities are recognized based on the present value of the future lease payments

over the committed lease term at the lease commencement date.

As most of our leases do not provide an implicit rate, we use our incremental borrowing rate in determining the present value of future lease payments. Inputs to the calculation of our incremental borrowing rate include the valuations and yields of our outstanding senior notes and their credit spreads over comparable U.S. Treasury rates, adjusted to a collateralized basis by estimating the credit spread improvement that would result from an upgrade of one ratings classification. Most leases include one or more options to renew and the exercise of renewal options is at our sole discretion. We do not include renewal options in our determination of the lease term unless the renewals are deemed to be reasonably certain. Operating lease expense for lease payments not yet paid is recognized on a straight-line basis over the lease term. The operating lease right-of-use asset is reduced by lease incentives, which has the effect of lowering the operating lease expense. Operating lease right-of-use assets are periodically reviewed for impairment losses. We use the long-lived assets impairment guidance in ASC Subtopic 360-10, "*Property, Plant, and Equipment - Overall*," to determine whether a right-of-use asset is impaired, and if so, the amount of the impairment loss to recognize.

We have real estate leases that typically include payments related to non-lease components, such as common area maintenance, as well as payments for real estate taxes and insurance which are not considered components of the lease. These payments are generally variable and based on actual costs incurred by the lessor. These costs are expensed as incurred as variable lease costs and excluded for the purpose of calculating the right-of-use asset and lease liability. A smaller number of real estate leases contain fixed payments for common area maintenance, real estate taxes and insurance. These fixed payments are considered part of the lease payment and included in the right-of-use asset and lease liability. In addition, certain of our lease agreements include rental payments based on a percentage of retail sales over contractual levels and others include rental payments adjusted periodically for inflation. These payments are expensed as incurred as variable lease costs. Our lease agreements do not contain any material residual value guarantees or material restrictive financial covenants.

Purchased leases with terms which were either favorable or unfavorable as compared to prevailing market rates at the date of acquisition are amortized over the remaining lease terms, including, in some cases, an assumed renewal. Amortization expense, net of \$48.1 million, \$52.9 million and \$65.4 million was recognized in "Selling, general and administrative expenses" in 2020, 2019 and 2018, respectively, related to these lease rights.

Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of

We review our long-lived assets and certain identifiable intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of an asset to future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets based on discounted cash flows or other readily available evidence of fair value, if any. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. In fiscal 2020, 2019 and 2018, we recorded charges of \$4.6 million, \$9.1 million and \$13.0 million, respectively, to write down certain assets, including \$3.8 million and \$8.5 million in fiscal 2020 and fiscal 2019, respectively, to write down Operating lease right-of-use assets. These charges are recorded as a component of "Selling, general and administrative expenses" in the accompanying consolidated statements of operations.

Goodwill and Nonamortizing Intangible Assets

Goodwill and nonamortizing intangible assets, including the Family Dollar trade name, are not amortized, but rather tested for impairment at least annually. In addition, goodwill and nonamortizing intangible assets will be tested on an interim basis if an event or circumstance indicates that it is more likely than not that an impairment loss has been incurred.

We perform a qualitative assessment to determine whether it is more likely than not that the Family Dollar trade name is impaired. If we determine that it is more likely than not that an impairment exists, we evaluate the Family Dollar trade name for impairment by comparing its fair value, based on an income approach using the relief-from-royalty method, to its carrying value. If the carrying value of the asset exceeds its estimated fair value, an impairment loss is recognized in an amount equal to that excess.

Subsequent to the evaluation of the Family Dollar trade name for impairment, we perform a goodwill impairment evaluation. In the event that a qualitative assessment of the fair value of a reporting unit indicates it is more likely than not that the fair value is less than the carrying amount, we then estimate the fair value of the reporting unit using a combination of a market multiple method and a discounted cash flow method. We recognize goodwill impairment for the amount by which the reporting unit's carrying amount exceeds its estimated fair value, not to exceed the total carrying amount of goodwill allocated to the reporting unit.

Our reporting units are determined in accordance with the provisions of ASC Topic 350, "*Intangibles - Goodwill and Other*." We perform our annual impairment testing of goodwill and nonamortizing intangible assets during the fourth quarter of each year. Refer to [Note 3](#) for additional information on the results of the impairment tests.

Revenue Recognition

We recognize sales revenue, net of estimated returns and sales tax, at the time the customer tenders payment for and takes control of the merchandise.

Taxes Collected

We report taxes assessed by a governmental authority that are directly imposed on revenue-producing transactions (i.e., sales tax) on a net (excluded from revenue) basis.

Cost of Sales

We include the cost of merchandise, warehousing and distribution costs, and certain occupancy costs in cost of sales.

Vendor Allowances

We receive vendor support in the form of cash payments or allowances through a variety of reimbursements such as purchase discounts, cooperative advertising, markdowns, scandowns and volume rebates. We have agreements with vendors setting forth the specific conditions for each allowance or payment. We either recognize the allowance as a reduction of current costs or defer the payment over the period the related merchandise is sold. If the payment is a reimbursement for costs incurred, it is offset against those related costs; otherwise, it is treated as a reduction to the cost of merchandise.

Pre-Opening Costs

We expense pre-opening costs for new, expanded, relocated and re-bannered stores and for distribution centers, as incurred.

Advertising Costs

We expense advertising costs as they are incurred and they are included in “Selling, general and administrative expenses” within the accompanying consolidated statements of operations. Advertising costs, net of co-op recoveries from vendors, were \$80.8 million, \$102.9 million and \$99.9 million in fiscal 2020, 2019 and 2018, respectively.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date of such change.

We recognize a financial statement benefit for a tax position if we determine that it is more likely than not that the position will be sustained upon examination.

We include interest and penalties in the provision for income tax expense and income taxes payable. We do not provide for any penalties associated with tax contingencies unless they are considered probable of assessment.

Stock-Based Compensation

We recognize expense for all share-based payments to employees and non-employee directors based on their fair values. Total stock-based compensation expense for 2020, 2019 and 2018 was \$83.9 million, \$61.4 million and \$63.3 million, respectively.

We recognize expense related to the fair value of restricted stock units (RSUs) and stock options over the requisite service period on a straight-line basis or a shorter period based on the retirement eligibility of the grantee. The fair value of RSUs is determined using the closing price of our common stock on the date of grant. The fair value of stock option grants is estimated on the date of grant using the Black-Scholes option pricing model. We account for forfeitures when they occur.

Net Income (Loss) Per Share

Basic net income (loss) per share has been computed by dividing net income (loss) by the weighted average number of shares outstanding. Diluted net income (loss) per share reflects the potential dilution that could occur assuming the inclusion of dilutive potential shares and has been computed by dividing net income (loss) by the weighted average number of shares and dilutive potential shares outstanding. Dilutive potential shares include all outstanding stock options and unvested RSUs after applying the treasury stock method.

Note 2 - Supplemental Balance Sheet Information

Property, Plant and Equipment, Net

Property, plant and equipment, net, as of January 30, 2021 and February 1, 2020 consists of the following:

(in millions)	January 30, 2021	February 1, 2020
Land	\$ 238.7	\$ 233.5
Buildings	1,524.0	1,395.5
Leasehold improvements	2,631.7	2,335.1
Furniture, fixtures and equipment	4,229.4	3,813.2
Construction in progress	257.5	298.6
Total property, plant and equipment	8,881.3	8,075.9
Less: accumulated depreciation	4,765.0	4,194.1
Total property, plant and equipment, net	<u>\$ 4,116.3</u>	<u>\$ 3,881.8</u>

Depreciation expense was \$631.1 million, \$581.9 million, and \$555.7 million for the years ended January 30, 2021, February 1, 2020, and February 2, 2019, respectively.

Other Current Liabilities

Other current liabilities as of January 30, 2021 and February 1, 2020 consist of the following:

(in millions)	January 30, 2021	February 1, 2020
Taxes (other than income taxes)	\$ 305.0	\$ 183.3
Compensation and benefits	162.8	102.8
Insurance	115.4	112.0
Accrued construction costs	44.9	51.1
Accrued utilities	27.8	22.0
Other	159.4	146.8
Total other current liabilities	<u>\$ 815.3</u>	<u>\$ 618.0</u>

Note 3 - Goodwill and Nonamortizing Intangible Assets

Goodwill allocated to our reportable segments and changes in the net carrying amount of goodwill for the years ended January 30, 2021 and February 1, 2020 are as follows:

(in millions)	Dollar Tree	Family Dollar	Total
Balance at February 2, 2019	\$ 376.5	\$ 1,920.1	\$ 2,296.6
Foreign currency translation adjustments	(0.3)	—	(0.3)
Goodwill reassignment for re-bannered stores	47.6	(47.6)	—
Goodwill impairment	—	(313.0)	(313.0)
Balance at February 1, 2020	423.8	1,559.5	1,983.3
Foreign currency translation adjustments	1.1	—	1.1
Balance at January 30, 2021	<u>\$ 424.9</u>	<u>\$ 1,559.5</u>	<u>\$ 1,984.4</u>

Goodwill is reassigned between segments when previously acquired stores are re-bannered between segments. The goodwill related to previously acquired re-bannered stores in 2020 was not material. In 2019, we reassigned \$47.6 million of goodwill from Family Dollar to Dollar Tree as a result of re-bannering. Re-bannered stores are treated as new stores.

Goodwill and other indefinite-lived intangible assets must be evaluated for impairment annually and may also be tested on an interim basis upon the occurrence of a triggering event or a change in circumstances that would more likely than not reduce the fair value of a reporting unit below its carrying amount. The annual goodwill impairment evaluation in 2020 did not result in impairment. The 2019 and 2018 goodwill impairment evaluations indicated that the fair value of the Family Dollar reporting unit was lower than

its carrying value resulting in \$313.0 million and \$2.73 billion non-cash pre-tax and after-tax goodwill impairment charges in the fourth quarters of fiscal 2019 and 2018, respectively, which were recorded as a component of “Selling, general and administrative expenses” in the accompanying consolidated statements of operations.

Our annual impairment evaluation of the Family Dollar trade name did not result in impairment charges during fiscal 2020, 2019 or 2018.

Note 4 - Income Taxes

The provision for income taxes consists of the following:

(in millions)	Year Ended		
	January 30, 2021	February 1, 2020	February 2, 2019
Current taxes:			
Federal	\$ 279.5	\$ 210.1	\$ 245.6
State	87.4	52.5	47.8
Foreign	0.2	0.1	0.4
Total current taxes	367.1	262.7	293.8
Deferred taxes:			
Federal	32.6	39.2	0.3
State	(3.8)	(5.6)	(12.3)
Foreign	2.0	(24.6)	—
Total deferred taxes	30.8	9.0	(12.0)
Provision for income taxes	\$ 397.9	\$ 271.7	\$ 281.8

A reconciliation of the statutory U.S. federal income tax (benefit) rate and the effective tax rate follows:

	Year Ended		
	January 30, 2021	February 1, 2020	February 2, 2019
Statutory U.S. federal income tax (benefit) rate	21.0 %	21.0 %	(21.0)%
Effect of:			
State and local income taxes, net of federal income tax benefit	3.2	3.7	3.0
Non-deductible executive compensation	0.4	—	—
Incremental tax expense (benefit) of exercises/vesting of equity-based compensation	0.2	(0.4)	0.1
State tax reserve release	(0.5)	—	—
Work Opportunity Tax Credit	(1.6)	(2.7)	(2.0)
Goodwill impairment	—	6.0	43.7
Deferred tax rate change	—	0.1	—
Change in valuation allowance	—	(2.2)	0.3
Tax Cuts and Jobs Act	—	—	(1.3)
Other, net	0.2	(0.8)	(1.3)
Effective tax rate	22.9 %	24.7 %	21.5 %

Goodwill Impairment

In the fourth quarters of 2019 and 2018, we recorded goodwill impairment charges of \$313.0 million and \$2.73 billion, respectively, related to the Family Dollar goodwill, as further discussed in [Note 3](#). As the purchase of Family Dollar was a stock acquisition, carryover basis applied for tax purposes. The impairment charges are not deductible for federal or state tax purposes and therefore there is no tax benefit related to the impairments.

Foreign Taxes

United States income taxes have not been provided on accumulated but undistributed earnings of our foreign subsidiaries as we intend to permanently reinvest earnings. We do not consider the tax on the mandatory deemed repatriation of undistributed foreign earnings and profits to be material.

Deferred Income Taxes

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Significant components of our net deferred tax assets (liabilities) follow:

(in millions)	January 30, 2021	February 1, 2020
Deferred tax assets:		
Operating lease liabilities	\$ 1,658.4	\$ 1,621.8
Accrued expenses	72.9	26.0
Net operating losses, interest expense and credit carryforwards	95.5	102.2
Accrued compensation expense	47.2	31.6
State tax election	17.4	19.3
Other	3.2	2.4
Total deferred tax assets	1,894.6	1,803.3
Valuation allowance	(16.8)	(18.5)
Deferred tax assets, net	1,877.8	1,784.8
Deferred tax liabilities:		
Property and equipment	(410.5)	(304.3)
Operating lease right-of-use assets	(1,587.2)	(1,550.1)
Other intangibles	(840.4)	(852.2)
Inventory	(4.8)	(14.4)
Prepays	(25.2)	(24.1)
Total deferred tax liabilities	(2,868.1)	(2,745.1)
Deferred income taxes, net	\$ (990.3)	\$ (960.3)

At January 30, 2021, we had certain state tax credit carryforwards, net operating loss carryforwards and capital loss carryforwards totaling \$95.5 million. Some of these carryforwards will expire, if not utilized, beginning in 2021 through 2040.

A valuation allowance of \$16.8 million, net of federal tax benefits, has been provided principally for certain state credit carryforwards and net operating loss carryforwards. Since February 1, 2020, the valuation allowance has been decreased to reflect capital loss carryforwards, state credits and net operating losses expected to be utilized over the carryforward period. In assessing the realizability of deferred tax assets, we consider whether it is more likely than not that some portion or all of the deferred taxes will not be realized. Based upon the availability of carrybacks of future deductible amounts and our projections for future taxable income over the periods in which the deferred tax assets are deductible, we believe it is more likely than not the remaining existing deductible temporary differences will reverse during periods in which carrybacks are available or in which we generate net taxable income.

Uncertain Tax Positions

We are participating in the IRS Compliance Assurance Program (“CAP”) for fiscal 2020 and we have been accepted into the program for fiscal 2021. This program accelerates the examination of key transactions with the goal of resolving any issues before the tax return is filed. Our federal tax returns have been examined and all issues have been settled through the fiscal 2019 tax year. Several states completed their examinations during fiscal 2020. In general, fiscal 2017 and forward are within the statute of limitations for state tax purposes. The statute of limitations is still open prior to fiscal 2017 for some states. For fiscal 2020, we are participating in the CAP under the IRS’s bridge year program and as a result, the IRS will not be completing an audit on the 2020 tax return.

The balance for unrecognized tax benefits at January 30, 2021 was \$22.6 million. The total amount of unrecognized tax benefits at January 30, 2021 that, if recognized, would affect the effective tax rate was \$17.9 million (net of the federal tax benefit).

The following is a reconciliation of our total gross unrecognized tax benefits:

(in millions)	January 30, 2021	February 1, 2020
Beginning Balance	\$ 28.9	\$ 35.4
Additions, based on tax positions related to current year	1.2	0.9
Additions for tax positions of prior years	3.4	4.8
Lapses in statutes of limitation	(10.9)	(12.2)
Ending balance	<u>\$ 22.6</u>	<u>\$ 28.9</u>

We believe it is reasonably possible that \$6.0 million to \$7.0 million of the reserve for uncertain tax positions may be reduced during the next 12 months principally as a result of the effective settlement of outstanding issues. It is also possible that state tax reserves will be reduced for audit settlements and statute expirations within the next 12 months. At this point it is not possible to estimate a range associated with the resolution of these audits. We do not expect any change to have a material impact to our consolidated financial statements.

As of January 30, 2021, we have recorded a liability for potential interest and penalties of \$2.6 million.

Note 5 – Commitments and Contingencies

Purchase Obligations

We have commitments totaling \$189.8 million related to agreements for software licenses and support, telecommunication services and store technology assets and maintenance for its stores.

Letters of Credit

We have \$356.5 million in Letter of Credit Reimbursement and Security Agreements with various financial institutions, under which \$209.6 million was committed to these letters of credit issued for routine purchases of imported merchandise at January 30, 2021.

At January 30, 2021, we also have \$98.7 million in standby letters of credit that serve as collateral for our large-deductible insurance programs and expire in fiscal 2021.

Surety Bonds

We have issued various surety bonds that primarily serve as collateral for utility payments at our stores and self-insured insurance programs. These bonds total \$96.5 million and are committed through various dates through fiscal 2024.

Contingencies

We are defendants in legal proceedings including the class, collective, representative and large cases described below as well as individual claims in arbitration. We will vigorously defend ourselves in these matters. We do not believe that any of these matters will, individually or in the aggregate, have a material effect on our business or financial condition. We cannot give assurance, however, that one or more of these matters will not have a material effect on our results of operations for the quarter or year in which they are resolved.

We assess our legal proceedings monthly and reserves are established if a loss is probable and the amount of such loss can be reasonably estimated. For matters that have settled, we reserve the estimated settlement amount even if the settlement has not been approved by the court. Many, if not substantially all, of our legal proceedings are subject to significant uncertainties and, therefore, determining the likelihood of a loss and the measurement of any loss can be complex and subject to judgment. With respect to legal proceedings where we have determined that a loss is reasonably possible but not probable, we are unable to estimate the amount or range of the reasonably possible loss due to the inherent difficulty of predicting the outcome of and uncertainties regarding legal proceedings. Our assessments are based on estimates and assumptions that have been deemed reasonable by management, but that may prove to be incomplete or inaccurate, and unanticipated events and circumstances may occur that might cause us to change those estimates and assumptions. Management's assessment of legal proceedings could change because of future determinations or the discovery of facts which are not presently known. Accordingly, the ultimate costs of resolving these proceedings may be substantially higher or lower than currently estimated.

Dollar Tree Active Matters

The Food and Drug Administration ("FDA") has alleged that we improperly sold certain topically applied, over the counter

("OTC") products manufactured by certain Chinese factories that were on an import "alert" restriction issued by the FDA. We responded to the FDA by proposing enhanced procedures and processes for any OTC products we import from China.

In December 2020, a former store manager brought a class action in California state court alleging we failed to reimburse employees for business expenses and in so failing, engaged in unfair competition.

Actual or threatened California state court lawsuits have been filed against Dollar Tree and Family Dollar for similar employment-related claims brought under Private Attorney General Act ("PAGA"). These cases may allege violations such as failure to provide employees with compliant rest and meal breaks, suitable seating and overtime pay, reimburse business expenses, pay minimum wages for all time worked, provide accurate wage statements, and timely pay wages as well as other potential labor code violations.

Lawsuits have been filed against Dollar Tree, Family Dollar and our vendors alleging that personal talc powder products caused cancer. We do not believe the products we sold caused the illnesses. We believe these lawsuits are insured and we are being indemnified by our third party vendors.

Dollar Tree Resolved Matters

In April 2015, a distribution center employee filed a class action in California state court with allegations concerning wages, meal and rest breaks, recovery periods, wage statements and timely termination pay. We have reached an agreement and received final approval from the court.

In August 2018, a former employee brought suit in California state court as a class action and as a PAGA representative suit alleging we failed to provide all non-exempt California store employees with compliant rest and meal breaks, accrued vacation, accurate wage statements and final pay upon termination of employment. We have reached an agreement to settle the matter and have received the court's approval.

In June 2020, a current employee filed a class action in California state court on behalf of herself and other non-exempt store employees in California alleging we failed to provide an effective illness and injury prevention program in our California stores and failed to provide personal protective equipment to our store employees thereby engaging in unfair business practices and creating a public nuisance. The court granted our request to compel arbitration which resolves the class action matter.

The consumer dismissed the January 2020 class action that was filed against us in New York relating to Almond Milk sold by us.

Family Dollar Active Matters

In August 2020, a consumer class action was filed against us in New York alleging Smoked Almonds sold by us are mislabeled because the almonds do not go through a smoking process but rather acquire their smoky taste through the use of smoked flavoring. The legal claims include New York consumer protection laws, negligent misrepresentations, breach of warranties, fraud and unjust enrichment.

In late 2019 and early 2020, personal injury and consumer class actions were filed alleging that we sold Zantac containing N-Nitrosodimethylamine, which is classified by the FDA as a probable carcinogen. Although all the suits were dismissed in December, 2020, on February 8, 2021, an Amended Master Personal Injury Complaint was filed against us and other retailers, manufacturers, and distributors alleging unjust enrichment, physical harm, loss of consortium, and death.

In January 2021, a consumer class action was filed against us in Georgia for breach of warranty based on the allegation that the coffee we sold was mislabeled because the canister did not contain enough coffee to make the number of cups of coffee stated on the label.

Please see the description above for talc and PAGA lawsuits against Family Dollar.

Family Dollar Resolved Matters

The court dismissed a January 2017 lawsuit filed as a class action in federal court in Illinois alleging we violated various state consumer fraud laws as well as express and implied warranties by selling a product that purported to contain aloe when it did not.

We have reached a tentative settlement, which will have to be approved by the court, of multiple class actions that were brought under the Americans with Disabilities Act.

Note 6 - Long-Term Debt

Long-term debt at January 30, 2021 and February 1, 2020 consists of the following:

(in millions)	January 30, 2021		February 1, 2020	
	Principal	Unamortized Debt Discount and Issuance Costs	Principal	Unamortized Debt Discount, Premium and Issuance Costs
5.00% Senior Notes, due 2021	\$ —	\$ —	\$ 300.0	\$ (2.4)
\$1.25 billion Revolving Credit Facility, interest payable at LIBOR, reset periodically, plus 1.125%, which was 1.24% at January 30, 2021	—	5.3	—	7.7
Senior Floating Rate Notes, due 2020	—	—	250.0	0.2
3.70% Senior Notes, due 2023	1,000.0	4.2	1,000.0	5.9
4.00% Senior Notes, due 2025	1,000.0	5.1	1,000.0	6.2
4.20% Senior Notes, due 2028	1,250.0	9.2	1,250.0	10.2
Total	\$ 3,250.0	\$ 23.8	\$ 3,800.0	\$ 27.8

Maturities of long-term debt are as follows (in millions):

2021	2022	2023	2024	2025	Thereafter
\$ —	\$ —	\$ 1,000.0	\$ —	\$ 1,000.0	\$ 1,250.0

Senior Credit Facilities

On April 19, 2018, we entered into a credit agreement (the “Credit Agreement”) with JPMorgan Chase Bank, N.A., as administrative agent, providing for \$2.03 billion in senior credit facilities (the “Senior Credit Facilities”), consisting of a \$1.25 billion revolving credit facility (the “Revolving Credit Facility”), of which up to \$350.0 million is available for letters of credit, and a \$782.0 million term loan facility (the “Term Loan Facility”), which was scheduled to mature on April 19, 2020. The loans under the Term Loan Facility bore interest at an initial interest rate of LIBOR, reset periodically, plus 1.00%, subject to adjustment based on (i) our credit ratings and (ii) our leverage ratio. We borrowed the entire \$782.0 million Term Loan Facility on April 19, 2018 and repaid the entire amount in January 2019.

The Revolving Credit Facility matures on April 19, 2023, subject to extensions permitted under the Credit Agreement. The loans under the Revolving Credit Facility bore interest at an initial interest rate of LIBOR, reset periodically, plus 1.25%, subject to adjustment based on (i) our credit ratings and (ii) our leverage ratio. Based on these factors, interest on the loans under the Revolving Credit Facility may range from LIBOR plus 1.00% to 1.50%. At January 30, 2021, the Revolving Credit Facility bore interest at LIBOR plus 1.125%. We pay certain commitment fees in connection with the Revolving Credit Facility. The Senior Credit Facilities allow voluntary repayment of outstanding loans at any time without premium or penalty, other than customary breakage costs with respect to LIBOR loans.

The Senior Credit Facilities contain a number of affirmative and negative covenants that, among other things, and subject to certain significant baskets and exceptions, restrict our ability to incur subsidiary indebtedness, incur liens, sell all or substantially all of our (including our subsidiaries’) assets and consummate certain fundamental changes. The Senior Credit Facilities also contain a maximum rent-adjusted leverage ratio covenant and a minimum fixed charge coverage ratio covenant. The Credit Agreement provides for certain events of default which, if any of them occurs, would permit or require the loans under the Senior Credit Facilities to be declared due and payable and the commitments thereunder to be terminated.

In the first quarter of fiscal 2020, we preemptively drew \$750.0 million on our Revolving Credit Facility to reduce our exposure to potential short-term liquidity risk in the banking system as a result of the COVID-19 pandemic, all of which was repaid by the end of the third quarter of fiscal 2020.

Senior Notes

On April 19, 2018, we completed the registered offering of \$750.0 million aggregate principal amount of Senior Floating Rate Notes due 2020 (the “Floating Rate Notes”), \$1.0 billion aggregate principal amount of 3.70% Senior Notes due 2023 (the “2023 Notes”), \$1.0 billion aggregate principal amount of 4.00% Senior Notes due 2025 (the “2025 Notes”) and \$1.25 billion aggregate principal amount of 4.20% Senior Notes due 2028 (the “2028 Notes” and together with the 2023 Notes and the 2025 Notes, the “Fixed Rate Notes”; and the Fixed Rate Notes together with the Floating Rate Notes, the “Notes”).

The Notes were issued pursuant to an indenture, dated as of April 2, 2018, between us and U.S. Bank National Association, as trustee, as supplemented by the First Supplemental Indenture dated as of April 19, 2018 (the “First Supplemental Indenture”).

The Notes are unsecured, unsubordinated obligations of ours and rank equal in right of payment to all of our existing and future debt and other obligations that are not, by their terms, expressly subordinated in right of payment to the Notes.

The 2023 Notes mature on May 15, 2023 and bear interest at the rate of 3.70% annually. The 2025 Notes mature on May 15, 2025 and bear interest at the rate of 4.00% annually. The 2028 Notes mature on May 15, 2028 and bear interest at the rate of 4.20% annually. We are required to pay interest on the Fixed Rate Notes semiannually, in arrears, on May 15 and November 15 of each year, beginning on November 15, 2018, to holders of record on the preceding May 1 and November 1, respectively. The Floating Rate Notes matured on April 17, 2020 and bore interest at a floating rate, reset quarterly, equal to LIBOR plus 70 basis points. We were required to pay interest on the Floating Rate Notes quarterly, in arrears, on January 17, April 17, July 17 and October 17 of each year, beginning on July 17, 2018, to holders of record on the preceding January 3, April 3, July 3 and October 3, respectively.

We may redeem the Fixed Rate Notes of each series in whole or in part, at our option, at any time and from time to time prior to (i) in the case of the 2023 Notes, April 15, 2023, (ii) in the case of the 2025 Notes, March 15, 2025 and (iii) in the case of the 2028 Notes, February 15, 2028 (each such date with respect to the applicable series, the “Applicable Par Call Date”), in each case, at a “make-whole” price described in the First Supplemental Indenture plus accrued and unpaid interest to, but excluding, the date of redemption. In addition, on or after the Applicable Par Call Date, we may redeem the Fixed Rate Notes of the applicable series, at any time in whole or from time to time in part, at a redemption price equal to 100% of the principal amount thereof.

In the event of a Change of Control Triggering Event, as defined in the indenture, with respect to any series, the holders of the Notes of such series may require us to purchase for cash all or a portion of their Notes of such series at a purchase price equal to 101% of the principal amount of such Notes, plus accrued and unpaid interest, if any, to, but excluding, the date of repurchase. The indenture limits our ability and that of our subsidiaries, subject to significant baskets and exceptions, to incur certain secured debt. The First Supplemental Indenture also provides for events of default which, if any of them occurs, would permit or require the principal of and accrued interest on the Notes to become or to be declared due and payable, as applicable.

Upon the acquisition of Family Dollar in 2015, we assumed the liability for \$300.0 million of 5.00% Senior Notes that were due February 1, 2021.

Repayments of Long-term Debt

During the first quarter of 2018, we redeemed our \$750.0 million acquisition notes and accelerated the amortization of debt-issuance costs associated with the notes of \$6.1 million, which is included in “Interest expense, net” within the accompanying consolidated statements of operations for the year ended February 2, 2019.

In connection with entry into the Credit Agreement and the offering of the Notes discussed above, we used the proceeds of borrowings under the Senior Credit Facilities, together with the net proceeds from the offering of the Notes and cash on hand to repay the \$2.2 billion then outstanding under our existing senior secured credit facilities and to redeem the remaining \$2.5 billion then outstanding under our acquisition debt. This resulted in the acceleration of the expensing of \$41.2 million of amortizable non-cash deferred financing costs and our incurring \$114.3 million in prepayment penalties, which are reflected in “Interest expense, net” within the accompanying consolidated statements of operations for the year ended February 2, 2019.

In the fourth quarter of 2019, we prepaid \$500.0 million of our \$750.0 million Floating Rate Notes and we repaid the remaining \$250.0 million outstanding in the first quarter of 2020.

In the fourth quarter of 2020, we repaid the \$300.0 million 5.00% Senior Notes.

Debt Covenants

As of January 30, 2021, we were in compliance with our debt covenants.

Note 7 - Leases

The lease cost for operating leases that was recognized in the accompanying consolidated statements of operations was as follows:

(in millions)	Year Ended	
	January 30, 2021	February 1, 2020
Operating lease cost	\$ 1,551.2	\$ 1,520.5
Variable lease cost	391.4	375.9
Short-term lease cost	9.7	14.8
Total lease cost*	<u>\$ 1,952.3</u>	<u>\$ 1,911.2</u>

*Excludes sublease income, which is immaterial

As previously disclosed in our Annual Report on Form 10-K for the year ended February 2, 2019 and in accordance with ASC 840, rental expense for the year ended February 2, 2019 was \$1,411.3 million.

As of January 30, 2021, maturities of lease liabilities were as follows:

	(in millions)
2021	\$ 1,467.5
2022	1,372.0
2023	1,159.0
2024	939.9
2025	706.3
Thereafter	1,578.0
Total undiscounted lease payments	<u>7,222.7</u>
Less interest	809.0
Present value of lease liabilities	<u>\$ 6,413.7</u>

The future lease payments above exclude \$236.8 million of legally binding minimum lease payments for leases signed but not yet commenced as of January 30, 2021.

Information regarding the weighted-average remaining lease term and the weighted-average discount rate for operating leases is as follows:

	January 30, 2021	February 1, 2020
Weighted-average remaining lease term (years)	6.1	6.4
Weighted-average discount rate	3.9 %	4.3 %

The following represents supplemental information pertaining to our operating lease arrangements:

(in millions)	Year Ended	
	January 30, 2021	February 1, 2020
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$ 1,519.4	\$ 1,433.4
Right-of-use assets obtained in exchange for new operating lease liabilities	1,440.2	1,286.1

Distribution Center Lease and Related Bonds

In May 2017, we entered into a long-term property lease (“Missouri Lease”) which includes land and the construction of a 1.2 million square foot distribution center in Warrensburg, Missouri (“Distribution Center Project”). The Distribution Center Project was completed in 2018 and our investment in the project of \$96.9 million as of January 30, 2021 is reflected in “Property, plant and equipment, net.” The Missouri Lease commenced upon its execution in May 2017 and expires on December 1, 2032. We have two options to extend the Missouri Lease term for up to a combined additional ten years. Following the expiration of the lease, the property reverts back to us.

In addition to being a party to the Missouri Lease, we are also the owner of bonds which were issued in May 2017, are secured by the Missouri Lease and expire December 1, 2032 (“Missouri Bonds”). The Missouri Bonds are debt issued by the lessor in the Missouri Lease. Therefore, we hold the debt instrument pertaining to our Missouri Lease obligation. Because a legal right of offset exists, we are accounting for the Missouri Bonds as a reduction of our Missouri Lease obligation in the accompanying consolidated balance sheets.

Note 8 - Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, a fair value hierarchy has been established that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities;

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and

Level 3 - Unobservable inputs in which there is little or no market data which require the reporting entity to develop its own assumptions.

As required, financial assets and liabilities are classified in the fair value hierarchy in their entirety based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Certain assets and liabilities are measured at fair value on a nonrecurring basis; that is, the assets and liabilities are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (e.g., when there is evidence of impairment). We review certain store assets for evidence of impairment. The fair values are determined based on the income approach, in which we utilize internal cash flow projections over the life of the underlying lease agreements discounted based on our risk-adjusted rate. These measures of fair value, and related inputs, are considered a Level 3 approach under the fair value hierarchy. Refer to [Note 1](#) under the caption “Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of” for information regarding the impairment charges recorded in fiscal 2020, 2019 and 2018.

Our indefinite-lived intangible assets are recorded at carrying value, and, if impaired, are adjusted to fair value using Level 3 inputs. See [Note 3](#) for further information regarding the process of determining the fair value of these assets.

Fair Value of Financial Instruments

The carrying amounts of Cash and cash equivalents, Restricted cash and Accounts payable as reported in the accompanying consolidated balance sheets approximate fair value due to their short-term maturities.

The aggregate fair values and carrying values of our long-term borrowings were as follows:

(in millions)	January 30, 2021		February 1, 2020	
	Fair Value	Carrying Value	Fair Value	Carrying Value
Level 1				
Senior Notes	\$ 3,654.4	\$ 3,231.5	\$ 4,064.5	\$ 3,779.9

The fair values of our Senior Notes were determined using Level 1 inputs as quoted prices in active markets for identical assets or liabilities are available. The carrying value of our Revolving Credit Facility approximates its fair value because the interest rates vary with market interest rates.

Note 9 - Shareholders' Equity

Preferred Stock

We are authorized to issue 10,000,000 shares of Preferred Stock, \$0.01 par value per share. No preferred shares are issued and outstanding at January 30, 2021 and February 1, 2020.

Net Income (Loss) Per Share

The following table sets forth the calculations of basic and diluted net income (loss) per share:

(in millions, except per share data)	Year Ended		
	January 30, 2021	February 1, 2020	February 2, 2019
Basic net income (loss) per share:			
Net income (loss)	\$ 1,341.9	\$ 827.0	\$ (1,590.8)
Weighted average number of shares outstanding	236.4	237.2	237.9
Basic net income (loss) per share	<u>\$ 5.68</u>	<u>\$ 3.49</u>	<u>\$ (6.69)</u>
Diluted net income (loss) per share:			
Net income (loss)	\$ 1,341.9	\$ 827.0	\$ (1,590.8)
Weighted average number of shares outstanding	236.4	237.2	237.9
Dilutive effect of stock options and restricted stock (as determined by applying the treasury stock method)	0.9	1.1	—
Weighted average number of shares and dilutive potential shares outstanding	237.3	238.3	237.9
Diluted net income (loss) per share	<u>\$ 5.65</u>	<u>\$ 3.47</u>	<u>\$ (6.69)</u>

At January 30, 2021 and February 1, 2020, substantially all of the stock options outstanding were included in the calculation of the weighted average number of shares and dilutive potential shares outstanding. As a result of the net loss for the year ended February 2, 2019, diluted net income (loss) per share excludes the impact of stock options and restricted stock (as determined by applying the treasury stock method) because the effect would be anti-dilutive.

Share Repurchase Programs

We repurchased 3,982,478 shares of common stock on the open market for \$400.0 million in fiscal 2020 and we repurchased 1,967,355 shares of common stock on the open market for \$200.0 million in fiscal 2019. We did not repurchase any shares of common stock in fiscal 2018. At January 30, 2021, we had \$400.0 million remaining under Board repurchase authorization.

Subsequently, on March 2, 2021, the Board increased the share repurchase authorization by \$2.0 billion resulting in a total share repurchase authorization of \$2.4 billion.

Note 10 – Employee Benefit Plans

Dollar Tree Retirement Savings Plan

We maintain a defined contribution profit sharing and 401(k) plan which is available to all full-time, United States-based employees over 21 years of age. Eligible employees may make elective salary deferrals. We may make contributions, at our discretion, to eligible employees who have completed one year of service in which they have worked at least 1,000 hours.

Contributions to and reimbursements by us of expenses of the plan were recorded in the accompanying consolidated statements of operations as follows:

(in millions)	Year Ended		
	January 30, 2021	February 1, 2020	February 2, 2019
Cost of sales	\$ 7.4	\$ 8.1	\$ 8.7
Selling, general and administrative expenses	19.0	17.0	32.7
Total	<u>\$ 26.4</u>	<u>\$ 25.1</u>	<u>\$ 41.4</u>

Eligible employees vest in our profit sharing contributions based on the following schedule:

- 20% after two years of service
- 40% after three years of service
- 60% after four years of service
- 100% after five years of service

All eligible employees are immediately vested in any company match contributions under the 401(k) portion of the plan.

Note 11 - Stock-Based Compensation Plans

Fixed Stock-Based Compensation Plans

Under our 2011 Omnibus Incentive Plan (“Omnibus Plan”), we may grant to our employees, including executive officers and independent contractors, up to 4.0 million shares of our Common Stock plus any shares available under former plans which were previously approved by the shareholders. The Omnibus Plan permits us to grant equity awards in the form of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock awards, restricted stock units (“RSUs”), performance bonuses, performance share units (“PSUs”), non-employee director stock options and other equity-related awards. These awards generally vest over a three-year period with a maximum term of 10 years. No awards may be granted under the Omnibus Plan after March 16, 2021.

Stock appreciation rights may be awarded alone or in tandem with stock options. When the stock appreciation rights are exercisable, the holder may surrender all or a portion of the unexercised stock appreciation right and receive in exchange an amount equal to the excess of the fair market value at the date of exercise over the fair market value at the date of the grant. No stock appreciation rights have been granted to date.

Any restricted stock, RSUs or PSUs awarded are subject to certain general restrictions. The restricted stock shares or units may not be sold, transferred, pledged or disposed of until the restrictions on the shares or units have lapsed or have been removed under the provisions of the plan. In addition, if a holder of restricted shares or units ceases to be employed by us, any shares or units in which the restrictions have not lapsed will be forfeited.

The 2013 Director Deferred Compensation Plan permits any of our directors who receive a retainer or other fees for Board or Board committee service to defer all or a portion of such fees until a future date, at which time they may be paid in cash or shares of our common stock, or receive all or a portion of such fees in non-statutory stock options. Deferred fees that are paid out in cash will earn interest at the 30-year Treasury Bond Rate. If a director elects to be paid in common stock, the number of shares will be determined by dividing the deferred fee amount by the closing market price of a share of our common stock on the date of deferral. The number of options issued to a director will equal the deferred fee amount divided by 33% of the price of a share of our common stock. The exercise price will equal the fair market value of our common stock at the date the option is issued. The options are fully vested when issued and have a term of 10 years.

In conjunction with the acquisition of Family Dollar in 2015, we assumed the Family Dollar Stores, Inc. 2006 Incentive Plan (the “2006 Plan”). The 2006 Plan permitted the granting of a variety of compensatory award types, including stock options and performance share rights.

Total stock-based compensation expense was recorded in the accompanying consolidated statements of operations as follows:

(in millions)	Year Ended		
	January 30, 2021	February 1, 2020	February 2, 2019
Cost of sales	\$ 15.4	\$ 12.9	\$ 12.1
Selling, general and administrative expenses	68.5	48.5	51.2
Total stock-based compensation expense	\$ 83.9	\$ 61.4	\$ 63.3
Excess tax benefit (deficit) on stock-based compensation recognized in the Provision for income taxes	\$ (2.8)	\$ 3.8	\$ (1.3)

Restricted Stock

We issue service-based RSUs to employees and officers and issue PSUs to certain of our officers. We recognize expense based on the estimated fair value of the RSUs or PSUs granted over the requisite service period, which is generally three years, on a straight-line basis or a shorter period based on the retirement eligibility of the grantee. The fair value of RSUs and PSUs is determined using our closing stock price on the date of grant.

Service-Based RSUs

The following table summarizes the status of service-based RSUs as of January 30, 2021 and changes during the year then ended:

	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested at February 1, 2020	1,049,081	\$ 95.17
Granted	850,132	73.24
Vested	(533,032)	91.05
Forfeited	(100,965)	82.78
Nonvested at January 30, 2021	<u>1,265,216</u>	<u>\$ 83.16</u>

The total fair value of the service-based restricted shares vested during the years ended January 30, 2021, February 1, 2020 and February 2, 2019 was \$48.5 million, \$55.5 million and \$50.2 million, respectively. The weighted average grant date fair value of the RSUs granted in 2020, 2019 and 2018 was \$73.24, \$103.55 and \$94.30, respectively. As of January 30, 2021, there was \$53.5 million of total unrecognized compensation expense related to these RSUs which is expected to be recognized over a weighted-average period of 1.4 years.

PSUs

The following table summarizes the status of PSUs as of January 30, 2021 and changes during the year then ended:

	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested at February 1, 2020	320,500	\$ 99.29
Granted	428,377	74.46
Vested	(221,876)	88.12
Forfeited	(103,729)	85.84
Nonvested at January 30, 2021	<u>423,272</u>	<u>\$ 82.67</u>

The total fair value of the PSUs vested during the years ended January 30, 2021, February 1, 2020 and February 2, 2019 was \$19.6 million, \$3.3 million and \$4.2 million, respectively. The weighted average grant date fair value of the PSUs granted in 2020, 2019 and 2018 was \$74.46, \$103.71 and \$94.90, respectively. As of January 30, 2021, there was \$17.2 million of total unrecognized compensation expense related to these RSUs which is expected to be recognized over a weighted-average period of one year.

Stock Options

Stock options are valued using the Black-Scholes option-pricing model and compensation expense is recognized on a straight-line basis over the requisite service period. Options granted in 2020, 2019 and 2018 are immaterial.

Certain of our directors elected to defer their compensation into stock options under the 2013 Director Deferred Compensation Plan. These options vest immediately and are expensed on the grant date.

The following tables summarize information about options outstanding at January 30, 2021 and changes during the year then ended:

	Number of Shares	Weighted Average Per Share Exercise Price	Weighted Average Remaining Term (Years)	Aggregate Intrinsic Value (in millions)
Outstanding, beginning of period	205,893	\$ 76.87		
Granted	6,412	89.77		
Exercised	(94,890)	74.19		
Forfeited	(358)	76.97		
Outstanding, end of period	<u>117,057</u>	<u>\$ 79.75</u>	4.4	\$ 2.6
Options vested and exercisable at January 30, 2021	<u>117,057</u>	<u>\$ 79.75</u>	4.4	\$ 2.6

The intrinsic value of options exercised during 2020, 2019 and 2018 was \$0.9 million, \$1.6 million and \$12.3 million, respectively.

Note 12 – Segments and Disaggregated Revenue

We operate a chain of more than 15,600 retail discount stores in 48 states and five Canadian provinces. Our operations are conducted in two reporting business segments: Dollar Tree and Family Dollar. We define our segments as those operations whose results our CODM regularly reviews to analyze performance and allocate resources.

We measure the results of our segments using, among other measures, each segment's net sales, gross profit and operating income. The CODM reviews these metrics for each of our reporting segments. We may revise the measurement of each segment's operating income, as determined by the information regularly reviewed by the CODM. If the measurement of a segment changes, prior period amounts and balances are reclassified to be comparable to the current period's presentation. Corporate, support and Other consists primarily of store support center costs that are considered shared services and therefore these selling, general and administrative costs are excluded from our two reporting business segments. These costs include operating expenses for our store support centers in Chesapeake, Virginia and Matthews, North Carolina. During fiscal 2019, we consolidated our Matthews, North Carolina store support center with our store support center in Chesapeake, Virginia. Corporate, support and Other also includes the results of operations for our Summit Pointe property in Chesapeake, Virginia. Amounts for the years ended February 1, 2020 and February 2, 2019 have been reclassified to be comparable to the current year presentation.

Information for our segments, as well as for Corporate, support and Other, including the reconciliation to Income (loss) before income taxes, is as follows:

(in millions)	Year Ended		
	January 30, 2021	February 1, 2020	February 2, 2019
Consolidated Statements of Operations Data:			
Net sales:			
Dollar Tree	\$ 13,265.0	\$ 12,507.9	\$ 11,712.1
Family Dollar	12,243.4	11,102.9	11,111.2
Corporate, support and Other	0.9	—	—
Consolidated Net sales	<u>\$ 25,509.3</u>	<u>\$ 23,610.8</u>	<u>\$ 22,823.3</u>
Gross profit:			
Dollar Tree	\$ 4,543.8	\$ 4,342.9	\$ 4,137.5
Family Dollar	3,243.6	2,697.8	2,810.0
Corporate, support and Other	0.9	—	—
Consolidated Gross profit	<u>\$ 7,788.3</u>	<u>\$ 7,040.7</u>	<u>\$ 6,947.5</u>
Operating income (loss):			
Dollar Tree	\$ 1,598.0	\$ 1,670.2	\$ 1,657.4
Family Dollar	655.6	(74.9)	(2,312.8)
Corporate, support and Other	(365.7)	(333.1)	(284.1)
Consolidated Operating income (loss)	1,887.9	1,262.2	(939.5)
Interest expense, net	147.3	162.1	370.0
Other expense (income), net	0.8	1.4	(0.5)
Income (loss) before income taxes	<u>\$ 1,739.8</u>	<u>\$ 1,098.7</u>	<u>\$ (1,309.0)</u>
Depreciation and amortization expense:			
Dollar Tree	\$ 302.3	\$ 277.7	\$ 254.0
Family Dollar	352.6	337.9	345.3
Corporate, support and Other	31.8	30.1	22.1
Consolidated depreciation and amortization expense	<u>\$ 686.7</u>	<u>\$ 645.7</u>	<u>\$ 621.4</u>

(in millions)	As of	
	January 30, 2021	February 1, 2020
Consolidated Balance Sheet Data:		
Goodwill:		
Dollar Tree	\$ 424.9	\$ 423.8
Family Dollar	1,559.5	1,559.5
Consolidated Goodwill	<u>\$ 1,984.4</u>	<u>\$ 1,983.3</u>
Total assets:		
Dollar Tree	\$ 8,669.3	\$ 7,694.0
Family Dollar	11,562.2	11,484.9
Corporate, support and Other	464.5	395.7
Consolidated Total assets	<u>\$ 20,696.0</u>	<u>\$ 19,574.6</u>
Additions to property, plant and equipment:		
Dollar Tree	\$ 470.4	\$ 547.5
Family Dollar	362.1	425.2
Corporate, support and Other	66.3	62.1
Consolidated additions to property, plant and equipment	<u>\$ 898.8</u>	<u>\$ 1,034.8</u>

Goodwill is reassigned between segments when previously acquired stores are re-bannered between segments. The goodwill related to previously acquired re-bannered stores in 2020 was not material. In 2019, we reassigned \$47.6 million of goodwill from Family Dollar to Dollar Tree as a result of re-bannering. In addition, in the fourth quarters of 2019 and 2018, we recorded goodwill impairment charges of \$313.0 million and \$2.73 billion, respectively, to write down the Family Dollar goodwill. Refer to [Note 3](#) for additional detail regarding impairment of the Family Dollar goodwill.

Disaggregated Revenue

The following table summarizes net sales by merchandise category for our segments:

(in millions)	Year Ended					
	January 30, 2021		February 1, 2020		February 2, 2019	
Dollar Tree segment net sales by merchandise category:						
Consumable	\$ 6,407.0	48.3 %	\$ 6,155.3	49.2 %	\$ 5,703.8	48.7 %
Variety	6,194.8	46.7 %	5,732.1	45.8 %	5,457.8	46.6 %

Family Dollar segment net sales by merchandise category:						
Consumable	\$ 9,367.8	76.5 %	\$ 8,604.7	77.5 %	\$ 8,466.7	76.2 %
Home products	1,078.1	8.8 %	866.0	7.8 %	911.1	8.2 %
Apparel and accessories	690.1	5.6 %	644.0	5.8 %	700.0	6.3 %
Seasonal and electronics	1,107.4	9.1 %	988.2	8.9 %	1,033.4	9.3 %
Total Family Dollar segment net sales	<u>\$ 12,243.4</u>	<u>100.0 %</u>	<u>\$ 11,102.9</u>	<u>100.0 %</u>	<u>\$ 11,111.2</u>	<u>100.0 %</u>

Note 13 - Quarterly Financial Information (Unaudited)

The following table sets forth certain items from our unaudited consolidated statements of operations for each quarter of fiscal year 2020 and 2019. The unaudited information has been prepared on the same basis as the audited consolidated financial statements appearing elsewhere in this report and includes all adjustments, consisting only of normal recurring adjustments, which management considers necessary for a fair presentation of the financial data shown. The operating results for any quarter are not necessarily indicative of results for a full year or for any future period.

(dollars in millions, except diluted net income per share data)	First Quarter ¹	Second Quarter	Third Quarter	Fourth Quarter
Fiscal 2020:				
Net sales	\$ 6,286.8	\$ 6,277.6	\$ 6,177.0	\$ 6,767.9
Gross profit	\$ 1,794.9	\$ 1,916.2	\$ 1,924.4	\$ 2,152.8
Operating income	\$ 365.9	\$ 374.9	\$ 465.5	\$ 681.6
Net income	\$ 247.6	\$ 261.5	\$ 330.0	\$ 502.8
Diluted net income per share	\$ 1.04	\$ 1.10	\$ 1.39	\$ 2.13
Stores open at end of quarter	15,370	15,479	15,606	15,685
Comparable store net sales change ²	7.0 %	7.2 %	5.1 %	4.9 %
Fiscal 2019:				
Net sales	\$ 5,808.7	\$ 5,740.6	\$ 5,746.2	\$ 6,315.3
Gross profit	\$ 1,727.2	\$ 1,648.5	\$ 1,704.5	\$ 1,960.5
Operating income ^{3,4}	\$ 385.5	\$ 268.9	\$ 358.4	\$ 249.4
Net income ^{3,4,5}	\$ 267.9	\$ 180.3	\$ 255.8	\$ 123.0
Diluted net income per share ^{3,4,5}	\$ 1.12	\$ 0.76	\$ 1.08	\$ 0.52
Stores open at end of quarter	15,264	15,115	15,262	15,288
Comparable store net sales change ²	2.2 %	2.4 %	2.5 %	0.4 %

¹ Easter was observed on April 12, 2020 and April 21, 2019.

² The comparable store net sales change calculation includes only those stores that are open throughout both of the periods being compared, beginning after the first fifteen months of operation.

³ In 2019, the results of the annual goodwill impairment test showed that the fair value of the Family Dollar reporting unit was lower than its carrying value, resulting in a \$313.0 million non-cash pre-tax and after-tax goodwill impairment charge in the fourth quarter of fiscal 2019. This goodwill impairment charge reduced diluted net income per share by \$1.32 per share in the fourth quarter of 2019.

⁴ In the fourth quarter of 2019, we recorded an \$18.0 million charge to our litigation reserve. The recognition of this liability reduced diluted net income per share in the fourth quarter of 2019 by \$0.06.

⁵ In the fourth quarter of 2019, we evaluated our foreign net operating loss carryforwards and determined that we expect to utilize the carryforwards for which we previously had provided a valuation allowance. The reduction of the valuation allowance increased net income and diluted net income per share in the fourth quarter of 2019 by \$24.6 million and \$0.10 per share, respectively.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 (Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply our judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Our management has carried out, with the participation of our Chief Executive Officer and Chief Financial Officer, an evaluation of the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Exchange Act as of the end of the period covered by this report. Based upon this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that, as of January 30, 2021, our disclosure controls and procedures were designed and functioning effectively to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding disclosure.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f). Our management conducted an assessment of our internal control over financial reporting based on the framework established by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control - Integrated Framework (2013)*. Based on this assessment, our management has concluded that, as of January 30, 2021, our internal control over financial reporting is effective.

Our independent registered public accounting firm, KPMG LLP, has audited our consolidated financial statements and has issued an attestation report on the effectiveness of our internal control over financial reporting. Their report appears below.

Changes in Internal Controls

There were no changes in our internal control over financial reporting that occurred during our most recently completed fiscal quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors

Dollar Tree, Inc.:

Opinion on Internal Control Over Financial Reporting

We have audited Dollar Tree, Inc.'s and subsidiaries (the Company) internal control over financial reporting as of January 30, 2021, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 30, 2021, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of January 30, 2021 and February 1, 2020, the related consolidated statements of operations, comprehensive income (loss), shareholders' equity, and cash flows for each of the years in the three-year period ended January 30, 2021, and the related notes (collectively, the consolidated financial statements), and our report dated March 16, 2021 expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information concerning our Directors and Executive Officers required by this Item is incorporated by reference to Dollar Tree, Inc.’s Proxy Statement relating to our 2021 Annual Meeting (“Proxy Statement”), under the captions “Director Biographies” and “Executive Officers.”

To the extent disclosure of any delinquent report under Section 16(a) of the Securities Exchange Act of 1934 is made by us, such disclosure will be set forth under the caption “Delinquent Section 16(a) Reports” in our Proxy Statement, which is incorporated herein by reference.

The information concerning our audit committee and audit committee financial experts required by this Item is incorporated herein by reference to the Proxy Statement, under the caption “The Board and Its Committees.”

The information concerning our code of ethics required by this Item is incorporated by reference to the Proxy Statement, under the caption “Code of Ethics.”

Item 11. Executive Compensation

Information set forth in the Proxy Statement under the caption “Compensation of Executive Officers,” “Compensation Discussion and Analysis” and “Pay Ratio Disclosure” with respect to executive compensation, is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Equity Compensation Plans

The following table summarizes information regarding shares issuable as of January 30, 2021, under our equity compensation plans, including the number of shares of common stock subject to options, restricted stock units, deferred shares and other rights granted to employees, consultants and members of our Board of Directors; the weighted-average exercise price of outstanding options; and the number of shares remaining available for future award grants under these plans. Additional information regarding our equity compensation plans can be found in [Note 11](#) to our consolidated financial statements.

Equity compensation plan category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Plans approved by security holders ¹	1,854,600	\$ 97.47	19,062,707
Plans not approved by security holders ²	—	—	—

(a) Amounts represent outstanding options, restricted stock units and deferred (“phantom”) shares as of January 30, 2021.

(b) Not included in the calculation of weighted-average exercise price are (i) 1,688,488 restricted stock units and (ii) 150,197 director deferred shares.

(c) Amounts represent shares remaining available for future awards under all of our equity-based plans, including shares remaining under our 2011 Omnibus Incentive Plan, our 2015 Employee Stock Purchase Plan and our 2013 Director Deferred Compensation Plan. Out of the 19,062,707 shares remaining available for future issuance, 2,707,188 represent the number of shares remaining available for future issuance under our Employee Stock Purchase Plan as of January 30, 2021. No awards may be granted under the Omnibus Plan after March 16, 2021.

¹ Equity-based plans approved by our shareholders include: the 2013 Director Deferred Compensation Plan, the 2015 Employee Stock Purchase Plan (which replaced a predecessor plan), and the 2011 Omnibus Incentive Plan (which replaced the 2003 Equity Incentive Plan and the 2004 Executive Officer Equity Plan).

² Does not include 101,142 shares to be issued upon the exercise of options with a weighted-average exercise price of \$76.97 that were granted under the Family Dollar 2006 Incentive Plan and assumed by us in connection with our merger with Family Dollar.

Information set forth in the Proxy Statement under the caption “Ownership of Common Stock,” with respect to security ownership of certain beneficial owners and management, is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Information set forth in the Proxy Statement under the caption “Certain Relationships and Related Transactions,” is incorporated herein by reference.

The information concerning the independence of our directors required by this Item is incorporated by reference to the Proxy Statement under the caption “Board Governance - Independence.”

Item 14. Principal Accountant Fees and Services

Information set forth in the Proxy Statement under the caption “Ratification of Appointment of Independent Auditors,” is incorporated herein by reference.

PART IV

Item 15. Exhibit and Financial Statement Schedules

1. Documents filed as part of this report:

1. Financial Statements. Reference is made to the Index to the Consolidated Financial Statements set forth under Part II, [Item 8](#) of this Form 10-K.
2. Financial Statement Schedules. All schedules for which provision is made in the applicable accounting regulations of the Securities and Exchange Commission are not required under the related instructions, are not applicable, or the information is included in the Consolidated Financial Statements, and therefore have been omitted.
3. Exhibits. The following exhibits are filed as part of, or incorporated by reference into, this report.
