~ Same-Store Sales by Segment: Dollar Tree +3.7\%, Family Dollar 0.0\% ~ CHESAPEAKE, Va.--(BUSINESS WIRE)-- Dollar Tree, Inc. (NASDAQ: DLTR), North America's leading operator of discount variety stores, today reported financial results for the quarter ended August 4, 2018.
"I am proud of our team's accomplishments in the second quarter. In addition to posting earnings near the top end of our guidance range, our Dollar Tree banner delivered increases in both traffic and ticket, and our Family Dollar banner's same-store sales were flat compared to last year's 1\% increase. Importantly, Family Dollar's consumables business was positive for the seventh consecutive quarter," stated Gary Philbin, President and Chief Executive Officer. "Dollar Tree's 3.7\% comp was on top of last year's 3.9\% increase; and represented the fifth consecutive quarter of same-store sales growth exceeding $3.5 \%$. We also celebrated the grand opening of our $15,000^{\text {th }}$ store, and the opening of our $23^{\text {rd }}$ U.S. distribution center. Both of these milestones call out the continued opportunities for growth across North America for our Dollar Tree and Family Dollar banners."

## Second Quarter Results

Consolidated net sales increased $4.6 \%$ to $\$ 5.53$ billion from $\$ 5.28$ billion in the prior year's second quarter. Enterprise same-store sales increased $1.8 \%$ on a constant currency basis (or $1.9 \%$ when adjusted to include the impact of Canadian currency fluctuations). Samestore sales for the Dollar Tree banner increased $3.7 \%$ on a constant currency basis (or $3.8 \%$ when adjusted to include the impact of Canadian currency fluctuations). Same-store sales for the Family Dollar banner were flat at 0.0\%.

Gross profit increased $2.2 \%$ to $\$ 1.66$ billion in the quarter compared to $\$ 1.63$ billion in the prior year's second quarter. As a percent of sales, gross margin decreased to $30.1 \%$ compared to $30.8 \%$ in the prior year. The 70 basis point decline was driven primarily by higher domestic freight, shrink and distribution costs, partially offset by lower merchandise costs.

Selling, general and administrative expenses were $23.2 \%$ of sales compared to $22.9 \%$ of sales in the prior year's second quarter. The 30 basis point increase in selling, general and administrative expenses was driven by higher store payroll expenses related to the Company's reinvestment of a portion of its tax savings, partially offset by lower depreciation
and amortization costs and lower store repairs and maintenance costs, as a percentage of sales.

Operating income for the quarter was $\$ 382.5$ million compared with $\$ 419.5$ million in the same period last year and operating income margin was $6.9 \%$ in the current quarter compared to $7.9 \%$ of sales in last year's quarter.

The Company's effective tax rate for the quarter was $18.9 \%$ compared to $32.0 \%$ in the prior year period. The decrease in rate was due to the Tax Cuts and Jobs Act (TCJA) signed into law on December 22, 2017, which lowered the federal corporate tax rate to $21 \%$ from $35 \%$ and made numerous other law changes effective January 1, 2018. The 2018 and 2017 rates also reflect reductions of $\$ 8.1$ million and $\$ 4.1$ million, respectively, in the reserve for uncertain tax positions resulting from statute expirations.

Net income compared to the prior year's second quarter increased $\$ 40.1$ million to $\$ 273.9$ million and diluted earnings per share increased $17.3 \%$ to $\$ 1.15$ compared to $\$ 0.98$ in the prior year's quarter.

During the quarter, the Company opened 146 stores, expanded or relocated 13 stores, and closed 26 stores. Retail selling square footage at quarter end was approximately 118.5 million square feet.

## First Six Months Results

Consolidated net sales increased $4.8 \%$ to $\$ 11.08$ billion from $\$ 10.57$ billion in the same period last year. Enterprise same-store sales increased $1.6 \%$ on a constant currency basis (or $1.7 \%$ when adjusted to include the impact of Canadian currency fluctuations). Samestore sales for the Dollar Tree banner increased 3.9\%. Same-store sales for the Family Dollar banner decreased 0.5\%.

Gross profit increased $3.3 \%$ to $\$ 3.36$ billion from $\$ 3.25$ billion in the first six months of 2017. As a percent of sales, gross margin decreased 40 basis points to $30.4 \%$ from $30.8 \%$ in the prior year period.

Selling, general and administrative expenses were $23.0 \%$ of sales compared to $23.2 \%$ of sales for the first six months of 2017. The prior year period included a $\$ 53.5$ million receivable impairment. Excluding the receivable impairment, selling, general and administrative expenses, as a percentage of sales, were $22.6 \%$ in the prior year's period.

Operating income for the period increased to $\$ 820.1$ million compared with $\$ 808.3$ million in the same period last year. Operating income margin decreased to $7.4 \%$ in the current year period from $7.6 \%$ of sales in the prior year. Excluding the $\$ 53.5$ million receivable impairment, operating income margin from the prior year's period was $8.2 \%$.

Net interest expense for the period was $\$ 276.1$ million compared to $\$ 150.5$ million in the prior year's period. The increase is due to the prepayment premiums paid of $\$ 107.8$ million and $\$ 6.5$ million related to the redemption of the $5.75 \%$ Acquisition Notes due 2023 and Term Loan B-2, respectively. Also, in connection with the Company's debt refinancing in the first quarter, $\$ 41.2$ million of amortizable non-cash deferred financing costs were accelerated and expensed.

The Company's effective tax rate for the period was $20.3 \%$ compared to $33.9 \%$ in the prior year period. The decrease in rate was due to the TCJA and the effect of the statute expirations.

Net income compared to the prior year's second quarter increased slightly to $\$ 434.4$ million and GAAP diluted earnings per share was $\$ 1.82$ compared to $\$ 1.83$ in the prior year's period. Excluding debt refinancing costs in the current year and the receivable impairment from the prior year, diluted earnings per share improved $18.8 \%$ to an adjusted $\$ 2.34$ compared to an adjusted $\$ 1.97$ from the prior year period.

## Company Outlook

The Company estimates consolidated net sales for the third quarter of 2018 to range from $\$ 5.53$ billion to $\$ 5.64$ billion, based on a low single-digit increase in same-store sales for the combined enterprise. Diluted earnings per share are estimated to be in the range of $\$ 1.11$ to \$1.18.

Consolidated net sales for full-year fiscal 2018 are now expected to range from $\$ 22.75$ billion to $\$ 22.97$ billion compared to the Company's previously expected range of $\$ 22.73$ billion to $\$ 23.05$ billion. This estimate is based on a low single-digit increase in same-store sales and $3.4 \%$ square footage growth. The United States Department of Commerce recently imposed an anti-dumping duty on certain ribbon purchased from China. The Company expects to incur a charge of $\$ 0.04$ per share in the fourth quarter and this charge is included in the updated fiscal 2018 outlook. The Company now anticipates net income per diluted share for full-year fiscal 2018 will range between $\$ 4.85$ and $\$ 5.05$. This compares to the Company's previously expected range of $\$ 4.80$ to $\$ 5.10$.

Philbin added, "Our Dollar Tree banner continues to perform at a high level and the impact of our initiatives continue to drive top line revenue. Our efforts at Family Dollar continue to focus around delivering a better shopping experience, and we are pleased with the results of our renovation program to date. Our customers are responding to the assortment and layout and we expect to exceed our store renovations target for this fiscal year. Together, the banners are focused to deliver increased value to long-term shareholders by continuing to grow and improve our business."

Reconciliation of Non-GAAP Financial Measures (In millions, except per share data)
(Unaudited)
From time-to-time, the Company's financial results include certain financial measures not derived in accordance with generally accepted accounting principles ("GAAP"). Non-GAAP financial measures should not be used as a substitute for GAAP financial measures, or considered in isolation, for the purposes of analyzing operating performance, financial position or cash flows. However, the Company believes providing additional information in the form of non-GAAP measures that exclude the unusual, non-recurring expense outlined below is beneficial to the users of its financial statements in evaluating the Company's current operating results in relation to past periods. The Company has included a reconciliation of this information to the most comparable GAAP measures in the following tables.

In the first quarter of 2018, the Company entered into a new Credit Agreement that provided a $\$ 1.25$ billion revolving credit facility and a $\$ 782.0$ million term loan facility. The Company also announced the registered offering of $\$ 750.0$ million aggregate principal amount of Senior Floating Rate Notes due 2020, $\$ 1.0$ billion of $3.7 \%$ Senior Notes due 2023, $\$ 1.0$ billion of $4.0 \%$ Senior Notes due 2025 and $\$ 1.25$ billion of Senior Notes due 2028. In connection with entry into the new Credit Agreement, the Company terminated the existing Credit Agreement and paid a redemption premium of $\$ 6.5$ million for the early payment of the Term Loan B-2 Loans. In connection with the offering of the new Senior Notes, the Company redeemed the $5.75 \%$ Senior Notes due 2023 and paid a redemption premium of $\$ 107.8$ million. In connection with the termination of the old Credit Agreement and the payment of Term Loan B-2 and the $5.75 \%$ Senior Notes due 2023, the Company accelerated the expense of approximately $\$ 41.2$ million of amortizable non-cash deferred financing costs and expensed approximately $\$ 0.4$ million in non-capitalizable transaction costs. Interest on the new debt was approximately $\$ 7.9$ million in the first quarter and the interest foregone on the redemption of Term Loan A-1 and Term Loan B-2 was approximately $\$ 3.3$ million.

In the first quarter of 2017, the Company evaluated the collectability of its divestiture-related receivable from Dollar Express, which acquired the stores that the FTC required the Company to divest. Based on a number of factors, the Company determined the outstanding balance of $\$ 50.9$ million was not recoverable and recorded an impairment charge to write down the receivable to zero. During the second quarter of 2017, Dollar Express completed the liquidation of its stores and continued to be in default of its obligations to the Company, including its obligation to pay the receivable. An additional $\$ 2.6$ million was recorded as a receivable and impaired in the 13 weeks ended July 29, 2017. The total receivable impairment for the 26 weeks ended July 29, 2017 was $\$ 53.5$ million.
