CHESAPEAKE, Va.--(BUSINESS WIRE)-- Dollar Tree, Inc. (NASDAQ: DLTR), North America's leading operator of discount variety stores, today reported results for its second fiscal quarter ended July 29, 2017.

"I am extremely pleased with the quarter," stated Bob Sasser, Chief Executive Officer. "Both Dollar Tree and Family Dollar produced positive same-store sales, our enterprise operating margin improved 80 basis points and earnings per share exceeded the high end of our guidance range. Consumers continue to view Dollar Tree and Family Dollar as stores that provide great value and convenience."

## Second Quarter Results

Consolidated net sales increased 5.7% to \$5.28 billion from \$5.00 billion in the prior year's second quarter. Enterprise same-store sales increased 2.4%. The same-store sales growth was driven by increases in comparable transaction count and average ticket. Same-store sales for the Dollar Tree banner increased 3.9%. Same-store sales for the Family Dollar banner increased 1.0%.

Gross profit increased 7.6% to \$1.63 billion compared to \$1.51 billion in the prior year's second quarter. As a percent of sales, gross margin increased to 30.8% compared to 30.3% in the prior year. The 50 basis point improvement was driven primarily by lower merchandise and freight costs and lower markdowns in the current quarter, partially offset by higher distribution and occupancy costs.

Selling, general and administrative expenses were 22.9% of sales compared to 23.1% of sales in the prior year's second quarter. The 20 basis point improvement, as a percent of sales, was driven primarily by lower depreciation costs, lower payroll costs and workers' compensation expenses and lower utility costs as a percent of sales, partially offset by higher operating and corporate expenses resulting from increased advertising costs and legal fees.

During the quarter, the Company recorded \$2.6 million, or \$0.01 per diluted share, of

impairment charges related to its receivable from Dollar Express, which acquired the stores that the FTC required the Company to divest. The impairment charges, from the first and second quarters of 2017, totaling \$53.5 million, are recorded as "Receivable impairment" in the accompanying condensed consolidated income statements.

Operating income increased 17.4% to \$419.5 million compared with \$357.2 million in the same period last year and operating income margin increased to 7.9% of sales in the current quarter from 7.1% in last year's quarter.

The Company's effective tax rate for the quarter was 32.0% compared to 36.9% in the prior year period. The lower tax rate included a tax benefit of \$9.9 million, or \$0.04 per diluted share, related to a state reduction in corporate tax rate.

Net income compared to the prior year's second quarter increased \$63.6 million to \$233.8 million and diluted earnings per share increased 36.1% to \$0.98 compared to \$0.72 in the prior year's quarter.

During the quarter, the Company opened 133 stores, expanded or relocated 31 stores, and closed 34 stores. Retail selling square footage at quarter-end was approximately 114.5 million square feet.

### **First Six Months Results**

Consolidated net sales increased 4.8% to \$10.57 billion from \$10.08 billion in the same period last year. Enterprise same-store sales increased 1.2%. The same-store sales growth was driven by increases in comparable transaction count and average ticket. Same-store sales for the Dollar Tree banner increased 2.9%. Same-store sales for the Family Dollar banner decreased 0.2%.

Gross profit increased 6.1% to \$3.25 billion from \$3.07 billion in the first six months of 2016. As a percent of sales, gross margin increased 40 basis points to 30.8% from 30.4% in the prior year period.

As a percent of sales, selling, general and administrative expenses increased to 23.2% from 22.7% in the same period last year. The increase is the result of the \$53.5 million receivable impairment. Excluding the receivable impairment, selling, general and administrative expenses improved to 22.6% of sales.

Net income increased 7.8% to \$434.3 million from \$402.8 million in the first six months of 2016, and diluted earnings per share increased 7.6% to \$1.83, compared to \$1.70 in the prior year's period. Excluding the \$53.5 million receivable impairment, adjusted diluted earnings per share increased 15.9% to \$1.97.

### **Company Outlook**

The Company estimates consolidated net sales for the third quarter of 2017 to range from \$5.20 billion to \$5.29 billion, based on a low single-digit increase in same-store sales for the combined enterprise. Diluted earnings per share are estimated to be in the range of \$0.83 to \$0.90.

Consolidated net sales for full-year fiscal 2017 are now expected to range from \$22.07 billion

to \$22.28 billion compared to the Company's previously expected range of \$21.95 billion to \$22.25 billion. This estimate is based on a low single-digit increase in same-store sales and 3.9% square footage growth. The Company now anticipates net income per diluted share for full-year fiscal 2017 will range between \$4.44 and \$4.60, compared to its previous guidance of \$4.17 to \$4.43. This estimate includes \$53.5 million, or \$0.14 per diluted share, of receivable impairment charges incurred in the first half of 2017. Fiscal 2017 includes a 53<sup>rd</sup> week. The extra week, in the fourth quarter, is expected to add \$400 million to \$430 million to sales and \$0.19 to \$0.22 to diluted earnings per share, both of which are included in the guidance.

Sasser added, "I am incredibly proud of our people. Our merchants, store operators, supply chain and support teams have truly embraced this opportunity to improve and grow our combined business. As always, our focus is on the customer and how we can best meet their evolving needs. We have a proven business model, an experienced leadership team, momentum in our business and a transformational opportunity. We are confident that we are well-positioned for the back half of 2017 and look to deliver value to our long-term shareholders in the years ahead."

**Reconciliation of Non-GAAP Financial Measures**  
**(In millions, except per share data)**

**(Unaudited)**

From time-to-time, the Company's financial results include certain financial measures not derived in accordance with generally accepted accounting principles ("GAAP"). Non-GAAP financial measures should not be used as a substitute for GAAP financial measures, or considered in isolation, for the purposes of analyzing operating performance, financial position or cash flows. However, the Company believes providing additional information in the form of non-GAAP measures that exclude the unusual, non-recurring expense outlined below is beneficial to the users of its financial statements in evaluating the Company's current operating results in relation to past periods. The Company has included a reconciliation of this information to the most comparable GAAP measures in the following tables.

In the first quarter of 2017, the Company evaluated the collectability of its divestiture-related receivable from Dollar Express, which acquired the stores that the FTC required the Company to divest. Based on a number of factors, the Company determined the outstanding balance of \$50.9 million was not recoverable and recorded an impairment charge to write down the receivable to zero.

During the second quarter of 2017, Dollar Express completed the liquidation of its stores and continued to be in default of its obligations to the Company, including its obligation to pay the receivable. An additional \$2.6 million was recorded as a receivable and impaired in the 13 weeks ended July 29, 2017. The total \$2.6 million and \$53.5 million impairment charges for the 13 and 26 weeks ended July 29, 2017, respectively, are recorded as "Receivable impairment" in the accompanying condensed consolidated income statements.
