

Cage-Free Eggs Statement

Last Updated: February 2026

Cage-Free Eggs Statement

As part of our broader commitment to providing value to our customers, responsible sourcing, and ongoing efforts to improve animal welfare, we have established guiding principles for the inclusion of eggs in our assortment. We select our assortment based on product availability, affordability, quality, and customer expectations.

Dollar Tree has reintroduced eggs into our product assortment, and we comply with applicable state cage-free egg regulations. Decisions regarding our egg assortment will focus on providing accessible value to our customers while promoting improvements in animal welfare within our supply chain.

We will monitor updates on animal welfare standards, regulatory changes, market trends, and customer preferences. These insights will help ensure that our future strategy remains true to our values, our dedication to offering affordable products, and our long-term sustainability goals.
