CHESAPEAKE, Va.--(BUSINESS WIRE)-- Dollar Tree, Inc. (NASDAQ: DLTR), North America's leading operator of discount variety stores, today reported financial results for its first quarter ended May 5, 2018.

“Our teams worked hard to deliver top-line sales and bottom-line earnings results within our range of guidance, despite headwinds related to increasing freight costs, colder-than-normal spring weather in many parts of the country and an earlier Easter holiday,” stated Gary Philbin, President and Chief Executive Officer. “Our Dollar Tree banner demonstrated its continued momentum in sales, delivering a 4% same-store sales increase with growth in both average ticket and customer traffic. Importantly, our Family Dollar banner delivered positive same-store sales in its consumables business. While weather impacted the discretionary side of our business in the first quarter, we have seen an acceleration in sales with warmer weather in May.”

First Quarter Results

Consolidated net sales increased 5.0% to \$5.55 billion from \$5.29 billion in the prior year's first quarter. Enterprise same-store sales increased 1.4%. Same-store sales for the Dollar Tree banner increased 4.0% on a constant currency basis (or 4.1% when adjusted to include the impact of Canadian currency fluctuations). Same-store sales for the Family Dollar banner decreased 1.1%.

Gross profit increased 4.5% to \$1.70 billion in the quarter compared to \$1.63 billion in the prior year's first quarter. As a percent of sales, gross margin decreased to 30.6% compared to 30.8% in the prior year. The 20 basis point decline was driven primarily by higher shrink, distribution and occupancy costs, partially offset by lower markdowns and lower merchandise costs.

Selling, general and administrative expenses were 22.7% of sales compared to 23.4% of sales in the prior year's first quarter. The prior year included a \$50.9 million receivable impairment. Excluding the receivable impairment, selling, general and administrative expenses, as a percentage of sales, were 22.5% in the prior year's quarter. The 20 basis

point increase in selling, general and administrative expenses, excluding the receivable impairment, was driven by higher store payroll expenses related to the Company's reinvestment of a portion of its tax savings, partially offset by lower depreciation and amortization costs as a percentage of sales.

Operating income for the quarter increased to \$437.6 million compared with \$388.8 million in the same period last year and operating income margin increased to 7.9% in the current quarter from 7.4% of sales in last year's quarter. The increase is primarily the result of the \$50.9 million receivable impairment recorded in the prior year first quarter. Excluding the receivable impairment, operating income margin from the prior year's quarter was 8.3%.

Net interest expense was \$230.0 million in the quarter compared to \$74.7 million in the prior year quarter. The increase is due to the prepayment premiums paid in the quarter of \$107.8 million and \$6.5 million related to the redemption of the 5.75% Acquisition Notes due 2023 and Term Loan B-2, respectively. Also, in connection with the Company's debt refinancing in the quarter, \$41.2 million of amortizable non-cash deferred financing costs were accelerated and expensed.

The Company's effective tax rate for the quarter was 22.6% compared to 36.1% in the prior year period. The decrease in rate was due to the Tax Cuts and Jobs Act signed into law on December 22, 2017, which lowered the federal corporate tax rate from 35% to 21% and made numerous other law changes effective January 1, 2018.

Net income compared to the prior year's first quarter decreased \$40.0 million to \$160.5 million and GAAP diluted earnings per share was \$0.67 compared to \$0.85 in the prior year's quarter. Excluding debt refinancing costs in the current year quarter and the receivable impairment from the prior year's quarter, diluted earnings per share improved 21.4% to an adjusted \$1.19 compared to an adjusted \$0.98 from the prior year quarter.

During the quarter, the Company opened 130 stores, expanded or relocated 26 stores, and closed 5 stores. Retail selling square footage at quarter-end was approximately 117.6 million square feet.

Company Outlook

The Company estimates consolidated net sales for the second quarter of 2018 to range from \$5.47 billion to \$5.57 billion, based on a low single-digit increase in same-store sales for the combined enterprise. Diluted earnings per share are estimated to be in the range of \$1.07 to \$1.16.

Consolidated net sales for full-year fiscal 2018 are now expected to range from \$22.73 billion to \$23.05 billion compared to the Company's previously expected range of \$22.70 billion to \$23.12 billion. This estimate is based on a low single-digit increase in same-store sales and 3.7% square footage growth. The Company now anticipates net income per diluted share for full-year fiscal 2018 will range between \$4.80 and \$5.10 compared to the Company's previously expected range of \$5.25 to \$5.60.

The updated annual guidance range includes the following factors:

- \$0.52 per share of one-time costs associated with the Company's first quarter debt

refinancing,

- \$0.13 per share of benefit related to expected interest expense savings from its refinancing,
- \$0.04 per share of benefit for an expected reduction in second quarter corporate tax rate, and
- \$0.09 per share of expected costs from continued pressure related to freight and shrink expense.

Philbin added, "We are pleased with the acceleration in sales we have seen in the first several weeks of our second quarter. Both our Dollar Tree and Family Dollar banners are focused on meeting customer needs through delivering great values and convenience every day. I believe we are well-positioned to deliver increased value to long-term shareholders by continuing to grow and improve our businesses."

Reconciliation of Non-GAAP Financial Measures
(In millions, except per share data)
(Unaudited)

From time-to-time, the Company's financial results include certain financial measures not derived in accordance with generally accepted accounting principles ("GAAP"). Non-GAAP financial measures should not be used as a substitute for GAAP financial measures, or considered in isolation, for the purposes of analyzing operating performance, financial position or cash flows. However, the Company believes providing additional information in the form of non-GAAP measures that exclude the unusual, non-recurring expense outlined below is beneficial to the users of its financial statements in evaluating the Company's current operating results in relation to past periods. The Company has included a reconciliation of this information to the most comparable GAAP measures in the following tables.

In the first quarter of 2018, the Company entered into a new Credit Agreement that provided a \$1,250.0 million revolving credit facility and a \$782.0 million term loan facility. The Company also announced the registered offering of \$750.0 million aggregate principal amount of Senior Floating Rate Notes due 2020, \$1,000.0 million of 3.7% Senior Notes due 2023, \$1,000.0 million of 4.0% Senior Notes due 2025 and \$1,250.0 million of Senior Notes due 2028. In connection with entry into the new Credit Agreement, the Company terminated the existing Credit Agreement and paid a redemption premium of \$6.5 million for the early payment of the Term Loan B-2 Loans. In connection with the offering of the new Senior Notes, the Company redeemed the 5.75% Senior Notes due 2023 and paid a redemption premium of \$107.8 million. In connection with the termination of the old Credit Agreement and the payment of Term Loan B-2 and the 5.75% Senior Notes due 2023, the Company accelerated the expense of approximately \$41.2 million of amortizable non-cash deferred financing costs and expensed approximately \$0.4 million in non-capitalizable transaction costs. Interest on the new debt was approximately \$7.9 million in the first quarter and the interest foregone on the redemption of Term Loan A-1 and Term Loan B-2 was approximately \$3.3 million.

In the first quarter of 2017, the Company evaluated the collectability of its divestiture-related receivable from Dollar Express, which acquired the stores that the FTC required the Company to divest. Based on a number of factors, the Company determined the outstanding balance of \$50.9 million was not recoverable and recorded an impairment charge to write down the receivable to zero.
