Dollar Tree, Inc. Reports Results for the Third Quarter Fiscal 2022

~ Diluted Earnings per Share Increased 25.0% to \$1.20 vs. \$0.96 ~

CHESAPEAKE, Va.--(BUSINESS WIRE)-- Dollar Tree, Inc. (NASDAQ: DLTR) today reported financial results for its third quarter ended October 29, 2022.

“Our third quarter sales performance reflects the timely execution of merchandising initiatives to drive our consumables business in this uncertain and inflationary environment. Same-store sales for both segments improved from the prior quarter and delivered a sequential monthly improvement throughout the quarter. Shoppers are responding to our new value proposition at Family Dollar and Dollar Tree as we focus on driving both traffic and store productivity,” stated Mike Witynski, President and Chief Executive Officer. “I am very proud of our associates for their willingness to accept and embrace change. Our new executive team is in place who will lead the Company through the next evolution of growth. We are committed to transforming our culture, meeting our shoppers’ and associates’ needs, improving store productivity and efficiencies, and delivering improved long-term operating results.”

Third Quarter Fiscal 2022 Key Operating Results

Compared to the prior year’s third quarter:

- Consolidated Net Sales Increased 8.1% to \$6.94 billion.
- Same-Store Sales Performance:
 - Dollar Tree Segment +8.6% (+8.5% when adjusted for currency fluctuations)
 - Family Dollar Segment +4.1%
 - Enterprise +6.5%
- Operating Income Increased 22.8% to \$381.3 million.
 - Operating Income Margin Improved 70 Basis Points to 5.5%.
- Diluted Earnings per Share Increased 25.0% to \$1.20.

Other Business Highlights

- Following price actions taken in the second quarter, Family Dollar delivered its strongest quarterly same-store sales increase since 2020 and grew comparable traffic for the first time in 12 quarters.
- All executive leadership positions have been filled.
- In the quarter, the Company repurchased 2.86 million shares, at an average price of \$139.04, for \$397.5 million.

Third Quarter Results

Unless otherwise noted, all comparisons are to the prior year’s third quarter, ended October

30, 2021.

Consolidated net sales increased 8.1% to \$6.94 billion. Enterprise same-store sales increased 6.5%. Dollar Tree comparable store sales increased 8.6% (8.5% when adjusted for currency fluctuations), driven by a double-digit increase in average ticket, partially offset by a decline in traffic. Family Dollar's 4.1% same-store sales increase was a combination of an increase in ticket and traffic.

Gross profit increased 17.5% to \$2.07 billion. Gross margin improved 240 basis points to 29.9%. This improvement was driven by improved initial mark-on and leverage on occupancy and distribution costs, partially offset by a product mix shift to lower-margin consumable products, inflationary cost pressures, higher shrink and markdowns.

Selling, general and administrative expenses were 24.4% of total revenue, compared to 22.7%. The increase was primarily due to higher professional fees, inflationary pressure across several expense categories including utilities, higher costs related to repairs and maintenance as the Company continues its focus on store improvements, and higher costs for store payroll and stock compensation expense.

Operating income increased 22.8% to \$381.3 million and operating income margin improved 70 basis points to 5.5%.

The Company's effective tax rate was 23.4%, compared to 21.7%.

Net income increased 23.1% to \$266.9 million and diluted earnings per share increased 25.0% to \$1.20.

The Company repurchased 2,859,200 shares at an average price of \$139.04 for \$397.5 million.

The Company opened 102 new stores, expanded or relocated 20 stores, and closed 41 stores. Retail selling square footage at quarter end increased 2.7% to approximately 131.4 million square feet.

Additionally, the Company expanded its multi-price *Plus* offering into an additional 199 Dollar Tree stores and completed 309 Family Dollar store renovations.

Nine Months Results

Unless otherwise noted, all comparisons are to the prior year's nine months ended October 30, 2021.

Consolidated net sales increased 7.1% to \$20.60 billion. Enterprise same-store sales increased 5.4% (5.3% when adjusted for currency fluctuations). Dollar Tree same-store sales increased 9.2% (9.1% when adjusted for currency fluctuations). The increase was driven by a double-digit increase in average ticket, partially offset by a decline in traffic. Family Dollar same-store sales increased 1.2%, as an increase in average ticket was partially offset by a decline in traffic.

Gross profit increased 17.0% to \$6.54 billion. Gross margin improved 260 basis points to 31.7%. This improvement was driven by improved initial mark-on and leverage on

occupancy and distribution costs, partially offset by a product mix shift, inflationary cost pressures, higher freight, markdowns and shrink.

Selling, general and administrative expenses were 23.9% of total revenue, compared to 22.7%. The increase was primarily due to higher legal fees including costs associated with the reconstitution of the Board of Directors and asset impairments related to the Arkansas distribution center, as well as inflationary pressure across several expense categories including utilities, higher costs related to repairs and maintenance, store payroll and stock compensation expense.

Operating income improved 31.3% to \$1.62 billion. Operating income margin increased 150 basis points to 7.9%.

The Company's effective tax rate was 23.5%, compared to 22.9%.

Net income improved 33.1% to \$1.16 billion and diluted earnings per share increased 36.1% to \$5.17.

The Company repurchased 4,613,696 shares for \$647.5 million.

The Company opened 341 new stores, expanded or relocated 82 stores, and closed 128 stores.

Additionally, the Company expanded its multi-price *Plus* offering into an additional 1,686 Dollar Tree stores and completed 684 Family Dollar store renovations.

Company Outlook

"We are increasing our sales outlook for the year. The efforts to evolve the assortment to drive consumables performance at Dollar Tree, combined with initiatives designed to improve the value proposition at Family Dollar, are working. We believe we will continue to be part of the solution to millions of households seeking value at a time when they need us most," Mike concluded. "I am extremely confident in the new leadership team we have in place. We are eager to share more details about the opportunity ahead of us, and the path to get there, in the months ahead. We are focused and energized and believe we are very well-positioned to deliver long-term profitable growth."

Consolidated net sales for the year are now expected to range from \$28.14 billion to \$28.28 billion, compared to the previous outlook range of \$27.85 billion to \$28.10 billion. The Company expects to deliver a mid-single-digit comparable store sales increase for the year, comprised of a high single-digit increase in the Dollar Tree segment and a low-single-digit increase in the Family Dollar segment. In the fourth quarter, the Company will anniversary more than 5,000 Dollar Tree stores that transitioned to the \$1.25 primary price point a year ago. Selling square footage is expected to grow by approximately 2.8% for the year.

Diluted earnings per share for fiscal 2022 are expected to be in the lower half of the Company's previously provided outlook range of \$7.10 to \$7.40. Sales trends at both banners continue to be strong, while the continued strength of consumable sales is expected to pressure near-term margins. Additionally, the Company continues to experience inflationary cost pressures.

The Company expects consolidated net sales for the fourth quarter of 2022 will range from \$7.54 billion to \$7.68 billion, based on a mid- to high-single-digit increase in same-store sales for the enterprise.

While share repurchases are not included in the outlook, the Company had \$1.85 billion remaining under its share repurchase authorization as of October 29, 2022.
