CHESAPEAKE, Va.--(BUSINESS WIRE)-- Dollar Tree, Inc. (NASDAQ: DLTR), North America's leading operator of discount variety stores selling everything for \$1 or less, reported its results for its third fiscal quarter ended November 1, 2014.

## Third Quarter Results

Consolidated net sales increased 11.2% to \$2.10 billion from \$1.88 billion in the prior year's third quarter. Consolidated same-store sales increased 5.9% compared to a 3.1% increase in the prior-year period.

Gross profit increased 9.9% to \$725.3 million from \$659.9 million in the prior year's third quarter. As a percent of sales, gross margin decreased by approximately 40 basis points to 34.6%. The primary contributor to the decrease was increased freight costs.

Selling, general and administrative expenses were 24.1% of sales compared to 24.2% of sales in the prior year's third quarter. The quarter included \$14.3 million in acquisition-related costs associated with the proposed merger with Family Dollar Stores, Inc. Excluding acquisition-related costs, selling, general and administrative costs were 23.4% of sales, an 80 basis point improvement compared to the prior year's third quarter. The improvement as a percent of sales was primarily attributable to strong same-store sales growth and expense control with respect to store operating costs.

Net income, compared to the prior year's third quarter, including acquisition-related costs, increased approximately \$7.6 million to \$133.0 million, and diluted earnings per share increased by 10.3% to \$0.64. Excluding acquisition-related costs, net income increased approximately \$17.0 million to \$142.4 million and diluted earnings per share increased 19.0% to \$0.69.

Bob Sasser, Chief Executive Officer, stated, "I am extremely pleased with our third quarter performance. Excluding acquisition costs, we delivered a Company-record third quarter operating margin of 11.2%. Our 5.9% same-store sales growth was our strongest comp since 2011, and represented our 27<sup>th</sup> consecutive quarter of positive same-store sales. These results validate our value enhancement initiatives targeted to attract new, and retain current, customers. Our store teams are well-prepared and our shelves are well-stocked with incredible values for the upcoming holiday season."

The Company opened 117 stores, expanded or relocated 18 stores, and closed 1 store

during the quarter. Retail selling square footage increased to 45.8 million square feet, a 6.8% increase compared to the prior year.

### **First Nine Months Results**

Consolidated net sales increased 9.3% to \$6.13 billion from \$5.61 billion in the first nine months of 2013. Consolidated same-store sales increased 3.9%, compared to a 2.9% increase for the first nine months of 2013.

Gross profit increased 7.7% to \$2.12 billion, or 34.5% of sales, compared to \$1.96 billion, or 35.0% of sales, in the first nine months of 2013. The primary contributors to the decrease were increased freight costs and investment in higher-value products.

Selling, general and administrative expenses increased 8.7% to \$1.46 billion, or 23.8% of sales. This included approximately \$21.8 million in acquisition-related costs associated with the proposed merger with Family Dollar Stores, Inc. Excluding acquisition-related costs, selling, general and administrative costs were 23.5% of sales, a 40 basis point improvement compared to the first nine months of the prior year.

Net income, compared to the prior year's first nine months including acquisition-related costs, increased \$9.1 million to \$392.7 million, and diluted earnings per share increased by 9.8% to \$1.90. Excluding acquisition-related costs, net income increased \$23.1 million to \$406.7 million and diluted earnings per share increased 13.3% to \$1.96.

### **Company Outlook**

The Company estimates consolidated net sales for the fourth quarter of 2014 to be in the range of \$2.39 billion to \$2.46 billion, based on a range of low-single digit positive same-store sales. Diluted earnings per share are estimated to be in the range of \$1.07 to \$1.14, excluding acquisition-related costs.

Consolidated net sales for full-year 2014 are now expected to range between \$8.52 billion and \$8.58 billion compared to the Company's previously expected range of \$8.44 billion to \$8.55 billion. The Company now anticipates net income per diluted share for full-year 2014, which includes \$0.07 of acquisition-related costs, will range between \$2.97 and \$3.04.
